

2001 Yamaha T8plhz Outboard Service Repair Maintenance Manual Factory

All individuals have the responsibility to understand and observe safety standards and regulations that are established for the prevention of injury to themselves and other people and damage to property and equipment. As an individual, you have a responsibility to yourself and to your shipmates to do your part in preventing mishaps. As a petty officer or chief petty officer, you have the responsibility of setting a good example; you cannot ignore safety regulations and expect others to follow them. Personnel should always observe the following safety practices: Observe all posted operating instructions and safety precautions. Report any unsafe condition or any equipment or material deficiency you think might be unsafe. Warn others of hazards and the consequences of their failing to observe safety precautions. Wear or use approved protective clothing or protective equipment. Report any injury or evidence of impaired health that occurs during your work or duty to your supervisor.
