Intended to create life from nothingness, the Genesis Device had the potential to become a weapon of awe-inspiring destructiveness, capable of rearranging matter and life energy on a planetary scale. After the cataclysmic explosion of the Genesis Planet, and the Klingon Empire's attempt to steal the top-secret technology for its own military purposes, Starfleet wisely decided to destroy all data and records on Project Genesis, hoping to bury its deadly secrets forever. Nearly a century later, all that remains of Genesis is the knowledge stored in the mind of an elderly, almost-forgotten scientist named Dr. Carol Marcus. But Dr. Marcus has gone missing, and a menace from bygone days has come rushing back with a vengeance. Sweeping across the Alpha Quadrant at a terrifying speed, a mysterious wave of energy is wiping out populations of entire planets, rearranging matter on a molecular level to create bizarre new landscapes and life-forms. The Starship Enterprise™, commanded by Captain Jean-Luc Picard, is the first Starfleet vessel to discover the threat, but Picard and his crew are not the only ones in danger. Billions of living beings and hundreds of inhabited planets lie in the path of the mutagenic wave, which is expanding outward as it traverses the cosmos. Earth and the Romulan Empire face total obliteration. To discover the origin of the wave, Picard and his crew must probe the long-buried mysteries of the past. But even if he can uncover the shocking history of the Genesis Wave, is there any way to save the future from its unleashed fury? The Genesis Wave, Book One, is the beginning of an apocalyptic two-part adventure that will pit the desperate crew of the Starship Enterprise against a disaster of galactic proportions.

Hailed by national leaders as politically diverse as former Vice President Al Gore and former House Speaker Newt Gingrich, Generations has been heralded by reviewers as a brilliant, if somewhat unsettling, reassessment of where America is heading. William Strauss and Neil Howe posit the history of America as a succession of generational biographies, beginning in 1584 and encompassing every-one through the children of today. Their bold theory is that each generation belongs to one of four types, and that these types repeat sequentially in a fixed pattern. The vision of Generations allows us to plot a recurring cycle in American history -- a cycle of spiritual awakenings and secular crises -- from the founding colonists through the present day and well into this millennium. Generations is at once a refreshing historical narrative and a thrilling intuitive leap that reorders not only our history books but also our expectations for the twenty-first century.

Welcome to Eye Candy Ink...Atlas: Meet Atlas Warner. He's the newest and youngest member at Eye Candy Ink and a talented tattoo artist. Neglected by his parents his whole life, he's finally found the family that he's always wanted at the shop. He thinks he's got everything that he needs...until Darcy walks into the shop. One look at the shy girl with the kind eyes and the curvy body of a goddess and Atlas is hooked. Now, he just needs to show Darcy that he's here to stay. Mischa: Love, romance, dating. Mischa Jennings wants no part of any of it. He's seen up close and personal how love can ruin your life and he's vowed to stay far away from that emotion. Armed with a set of rules to keep him safe, he's been going through life just fine. Then Indie Hearst comes bouncing into Eye Candy Ink and turns his whole world upside down. Suddenly, he's breaking every one of his rules, but it's okay. He's not even close to falling for Indie. Right? Sam: Sam Kavan has grown up learning to be tough, at least on the outside. Like everyone else at Eye Candy Ink, she's not interested in falling in love. In fact, after a string of failed dates, she's grown disillusioned with dating. She doesn't want to go out with boys who send her dick pics or who text at midnight looking to hook up. She wants someone that she can rely on--someone who loves and wants her for her. She wants a real man. Then she meets Maxwell Schulz, and she wonders if she's finally met her match. Zeke: Zeke Miller is the owner of Eye Candy Ink and the father figure to everyone at the shop. He's spent years building Eye Candy Ink into what it is today. While others dated and settled down, he worked, honing his skills until he's one of the best and most sought after tattoo artists in the world. At thirty-six, he thinks his time to meet someone has passed and he's resigned to being happy with the family that he's found at his shop. Then Trixie Clemonte comes into Eye Candy Ink. She

has all of his protective instincts kicking in. But none of them are fatherly. Nico: Nico Miller is the quiet, silent type. With ten years of experience, he's probably the best artist at the shop. He's a giant at 6'8" and built like a linebacker with tattoos covering his neck and torso. Most people are a little afraid of him when they first meet him, but it doesn't take long to see that while he might look scary, with his almost permanent frown, tattoos, and size, he was actually a giant teddy bear. Most of the time, he can't wait for people to leave, but one encounter with Edie, and he doesn't want to let her go. Will he be able to convince her that settling down with him doesn't mean settling? By the authors of the bestselling 13th Gen, an incisive, in-depth examination of the Millennials--the generation born after 1982. In this remarkable account, certain to stir the interest of educators, counselors, parents, and people in all types of business as well as young people themselves, Neil Howe and William Strauss provide the definitive analysis of a powerful generation: the Millennials. Having looked at oceans of data, taken their own polls, talked to hundreds of kids, parents, and teachers, and reflected on the rhythms of history, Howe and Strauss explain how Millennials have turned out to be so dramatically different from Xers and boomers. Millennials Rising provides a fascinating narrative of America's next great generation.

The Joyner/Giuffrida Collection of Abstract Art is widely recognized as one of the most significant collections of modern and contemporary work by artists of the African diaspora and from the continent of Africa itself. 'Four Generations: The Joyner/Giuffrida Collection of Abstract Art' draws upon the collection's unparalleled holdings to explore the critical contributions made by black artists to the evolution of visual art in the 20th and 21st centuries. This revised and expanded edition updates 'Four Generations' with several new texts and nearly 100 images of works that have been added to the collection since the initial publication of this influential and widely praised book. Lavishly illustrated and featuring important contributions by leading art historians, critics, and curators, Four Generations gives an essential overview of some of the most notable artists and movements of the past century, with an emphasis on black artists and their approaches to abstraction in its various forms. Filled with countless insights and visual treasures, 'Four Generations' is a journey through the momentous legacy of postwar art of the African diaspora.

The principle that no child should be left behind is now codified in the laws of the United States, but Jefferson Wiggins grew up in a different United States, under a very different set of laws. From the night the Ku Klux Klan came to hang his father to the afternoon he received an honorary doctorate in recognition of his life's work, Jeff's memoir is a story of human triumph over adversity, a story of individuals who can and do make a difference in the lives of others. Most of all, his memoir reminds us of the extraordinary stories that often lie below the surface of seemingly ordinary lives. No reader can help but be moved to tears by this compelling, inspirational work.

Route 66 Dreamer is Michael Lund's tenth novel set in the historical background of Route 66, the Nation's "Mother Road." Earlier novels depicted life as it was in the Midwest during the early golden ages of interstate highways and experiences of related characters in "Growing Up on Route 66." The current 5-volume series, headlined At Home and Away, chronicles an American family during times of peace and war from 1915 to 2015. The first book, Route 66 Sweetheart (2011), is set mostly in and around Rutherford, New Jersey, during the 1930s. Route 66 Dreamer (2012) features the son of a Swedish immigrant who pursues his dreams of American success in Kansas and Missouri in the early 1940s. However, in both books some family members move

away to distant countries and unexpected challenges. The third volume, *Route 66 Looking-glass* (2013), will take place primarily in Missouri in 1965, but characters also travel far from home and familiar experiences. Book Four (2014) follows another generation of family members, this time from Missouri to Southeast Asia where many learn, sadly, "how to not tell a war story." In the final volume of the series (2015), the next generation travels to Europe and the Middle East to understand their identity in a multi-national community.

Jaap Mansfeld and Frans de Haas bring together in this volume a distinguished international team of ancient philosophers, presenting a systematic, chapter-by-chapter study of one of the key texts in Aristotle's science and metaphysics: the first book of *On Generation and Corruption*. In *GC I* Aristotle provides a general outline of physical processes such as generation and corruption, alteration, and growth, and inquires into their differences. He also discusses physical notions such as contact, action and passion, and mixture. These notions are fundamental to Aristotle's physics and cosmology, and more specifically to his theory of the four elements and their transformations. Moreover, references to *GC* elsewhere in the Aristotelian corpus show that in *GC I* Aristotle is doing heavy conceptual groundwork for more refined applications of these notions in, for example, the psychology of perception and thought, and the study of animal generation and corruption. Ultimately, biology is the goal of the series of enquiries in which *GC I* demands a position of its own immediately after the *Physics*. The contributors deal with questions of structure and text constitution and provide thought-provoking discussions of each chapter of *GC I*. New approaches to the issues of how to understand first matter, and how to evaluate Aristotle's notion of mixture are given ample space. Throughout, Aristotle's views of the theories of the Presocratics and Plato are shown to be crucial in understanding his argument.

The first book in a pulse-pounding new series that's set in the world of the #1 New York Times bestselling *I Am Number Four* series. The war may be over—but for the next generation, the battle has just begun! It has been over a year since the invasion of Earth was thwarted in Pittacus Lore's *United as One*. But in order to win, our alien allies known as the Garde unleashed their Loric energy that spread throughout the globe. Now human teenagers have begun to develop incredible powers of their own, known as Legacies. To help these incredible and potentially dangerous individuals—and put the world at ease—the Garde have created an academy where they can train this new generation to control their powers and hopefully one day help mankind. But not everyone thinks that's the best use of their talents. And the teens may need to use their Legacies sooner than they ever imagined. Perfect for fans of Marvel's *X-Men* and Rick Yancey's *The 5th Wave*, this epic new series follows a diverse cast of teens as they struggle to hone their abilities and decide what, if anything, they should do with them. As a spin-off of the bestselling *I Am Number Four* series, those familiar with the original books and newcomers alike will devour this fast-paced, action-packed sci-fi adventure.

*Interpretation: A Bible Commentary for Teaching and Preaching* is a distinctive resource for those who interpret the Bible in the church. Planned and written specifically for teaching and preaching needs, this critically acclaimed biblical commentary is a major contribution to scholarship and ministry.

A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to people of all backgrounds. What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Montás tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Montás emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University's renowned Core Curriculum, one of America's last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia's Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Montás's life. In doing so, the book drives home what it's like to experience a liberal education—and why it can still remake lives.

A New Generation Church is a church with attendees whose average age is at least as young as the average age of the community in which the church exists. Any church can become a New Generation Church that reaches and continues to reach the next generation. The Psalmist writes: *We will not hide these truths from our children; we will tell the next generation about the glorious deeds of the Lord, about his power and his mighty wonders.* (Psalm 78:4 NLT) No Christian would purposely hide the timeless truths of Christianity from the next generation. But often we do, not because of the substance of our church, but because of the approach of our church. For A New Generation is not about changing your church's statement of faith or core beliefs. It is about evaluating and changing, as needed, your church's programs, ministries and practices in order to more effectively connect with and stay connected with the next generation. Written for both church leaders and members, *For a New Generation* presents 5 practical strategies that will lay a foundation for a church to thrive for generations to come. It is based on the assumption that accepting the status quo is the greatest threat to your church's core mission and, perhaps, to the long-term survival of your church.

Step-by-step guidance to key fundraising methods to attract, engage, and retain donors of all ages. *Fundraising and the Next Generation* brings readers up to date on cases, research, opportunities, and challenges regarding philanthropy's next generation. engaging Gen X and Y as donors Features a glossary of social media terms, a list of academic resources for development and professional advancement, and an assessment toolkit Defines the key characteristics of the four current generations, their habits for charitable giving, and how every development office can successfully engage them in philanthropy Provides a website with additional information beyond the book Savvy fundraising leaders understand that successful and sustained philanthropy is not just an issue for today. Long-term planning and diversified strategies allow fundraisers to access every prospective contribution possible. Timely and relevant, *Fundraising and the Next Generation* brings readers up to date on cases, research, opportunities, and challenges regarding philanthropy's next generation.

The explosive conclusion of the Toucan Trilogy As Colony East scientists coldly implement their vision of a utopian society, Abby goes on a desperate journey to find her brother and sister, and save the lives of millions.

Predicts that the U.S. will face a crisis in the next millennium that will threaten the country's survival

As seen in *Time*, *USA TODAY*, *The Atlantic*, *The Wall Street Journal*, and on CBS *This Morning*, BBC, PBS, CNN, and NPR, *iGen* is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, *iGen* is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, *iGen* spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes *iGen* distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of *iGen* just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of *iGen* also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where *iGen* goes, so goes our nation—and the world.

Bridget Thorsdottir is a seventeen-year-old girl living during the waning days of the Norse colony in Greenland in the year 1501. At the brink of an age of discovery, her colony has been taken over by a new bishop who turned the people's farms into a more lucrative fishing village. The lone voice of opposition in this sea of change is Bridget's own father, Thor, whose stubborn adherence to his farm makes it harder and harder for him to pay the rising taxes owed to the bishop.

When Thor refuses to give up his ways and leave the family home, Bridget realizes that it is up to her to make the dangerous journey to the New World in order to establish a new life for herself and her family.

I see dead people...and so does everyone else, because more and more teenagers who have returned from the grave are converging on the small town of Oakvale, Connecticut, inspired by the words the "voice" of Generation Dead, Tommy Williams, writes on his blog MySoCalledUndeath.com. Tommy's people-Mal, Karen, Sylvia, Takayuki, Tayshawn, Colette, Popeye, Melissa and the gang at the Haunted House-aren't zombies that want to eat your brains or feast on your entrails, they just want to do the same things everyone else does-create, make friends, play sports, have fun, fall in love-live. But not everyone in Oakvale-especially Reverend Mathers and his flock at One Life Ministries-is willing to stand idly by and let them do any of those things. Not when so many members of the community would approve of the undead being "reterminated" and sent back to the graves they worked so hard to climb out of... Generation Dead Book 4: My Best Friends Are Dead contains, for the first time in print: The collected My So-Called Undeath blog Generation Dead: Stitches Three brand new Generation Dead stories, and one new bonus story set in the world of Break My Heart 1,000 Times
