Is it really possible to enlarge your penis? The answer may surprise you. You'll learn about the stretchers, the pumps, the herbs, the massages, and the surgeries--which ones work and which ones don't. English Words Abroad summarizes the methods developed for the innovative multilingual Dictionary of European Anglicisms (Görlach 2001, OUP) which combines data on English loanwords in sixteen European languages (four each for Germanic, Slavic, Romance and others). This summary allows us to quantify for the first time the extent of the lexical impact of loanwords on individual languages and cultures. The author discusses the elicitation of data from informants with a high linguistic awareness; criteria for inclusion; problems of integration on graphemic, phonological, morphological and semantic/stylistic levels; and speakers' reactions (purism, language, legislation). He then explores the possibilities of applying these methods to dictionaries of gallicisms and germanisms. The book includes a survey of the most recent dictionaries of anglicisms in European languages.

Romania's comic genius Marin Sorescu had a great fondness for Ireland. He managed to visit friends there in his occasional visits abroad during the Ceausescu years, and the Irish poets made many translations of his work. In the recent Bloodaxe anthology of contemporary Romanian poetry, *When the Tunnels Meet*, the versions are by Paul Muldoon. Sorescu was generous in his encouragement of young writers, promoting their work in the journals he edited and in his publishing ventures. While in Belfast in 1991 for the opening of an exhibition of his paintings (he had started painting while under house arrest during the 1980s), a group of young Irish poets honoured him by reading their personal choice of his poems in English translations. Sorescu's response was to arrange for ten young poets from his home region of Craiova to translate the ten Irish poets for a book to be published in Romania by the Brancusi Foundation. Sorescu's *Choice* is the companion English anthology, with versions of the same ten Romanians by the same Irish writers - a fitting tribute to the inspiration of the books and the poets. The poets are: Ruth Carr \* Amelia Calujnai Andrew Elliott \* Ion Munteanu John Hughes \* Grigore Balanescu John Kelly \* Nicolae Diaconu Peter McDonald \* Doina Pologea Martin Mooney \* Ion Hirghidus Philip Orr \* Constantin Preda Patrick Ramsey \* Florea Miu Janet Shepperson \* Carmen Firan Kevin Smith \* Patrel Berceanu

This unique textbook explores practice-based research (PBR), using numerous practice examples to actively encourage and engage students and practitioners to embrace research as a meaningful support for their practice. Whilst evidence-based practice gives practitioners access to information about "universal" best practices, it does not prioritize practitioner-generated knowledge or promote new research-based interventions relevant to their own practice circumstances as PBR does. This book discusses the evolution of PBR as a distinct social work research approach, describes its principles and methods and presents a range of exemplars illustrating the application of PBR within different practice methods in different practice settings. The chapters cover: Identifying the research question in a PBR model Designing a study and identifying a methodology Sampling Literature reviews Gathering data Ethics Analyzing data and interpreting results Putting research into practice Viewing the practitioner as central to the research process, and research as a necessary component of practice, this invaluable book emphasizes the seamless integration of practice and research. It is about research in social work practice rather than research on social work practice. Each chapter includes an overview, an introduction, and a key concepts summary. Practice-Based Research in Social Work is a very accessible text suitable for social work students, particularly MSW students, and practitioners.

The European Union is in crisis. Crippled by economic problems, political brinkmanship, and institutional rigidity, the EU faces an increasingly uncertain future. In this compelling essay, leading scholar of European politics, Jan Zielonka argues that although the EU will only survive in modest form - deprived of many real powers - Europe as an integrated entity will grow stronger. Integration, he contends, will continue apace because of European states' profound economic interdependence, historic ties and the need for political pragmatism. A revitalized Europe led by major cities, regions and powerful NGOs will emerge in which a new type of continental solidarity can flourish. The EU may well be doomed, but Europe certainly is not.

This volume presents fourteen case studies of standardization processes in eleven different Germanic languages. Together, the contributions confront problematic issues in standardization which will be of interest to sociolinguists, as well as to historical linguists from all language disciplines. The papers cover a historical range from the Middle Ages to the present and a geographical range from South Africa to Iceland, but all fall into one of the following categories: 1) shaping and diffusing a standard language; 2) the relationship between standard and identity; 3) non-standardization, de-standardization and re-standardization.

An underemployed, skateboarding party animal, Colby Buzzell traded a dead-end future for the army—and ended up as a machine gunner in Iraq. To make sense of the absurd and frightening events surrounding him, he started writing a blog about the war—and how it differed from the government's official version. But as his blog's popularity grew, Buzzell became the embedded reporter the Army couldn't control—despite its often hilarious efforts to do so. The result is an extraordinary narrative, rich with unforgettable scenes: the Iraqi woman crying uncontrollably during a raid on her home; the soldier too afraid to fight; the troops chain-smoking in a guard tower and counting tracer rounds; the first, fierce firefight against the “men in black.” Drawing comparisons to everything from Charles Bukowski to *Catch-22*, *My War* depicts a generation caught in a complicated and dangerous world—and marks the debut of a raw, remarkable new voice.

The boy's icy stare and demonic laughter make clear to Ellie that he is troubled, haunted by something too horrible for words. She begins to receive threatening messages and disturbing gifts. But it's not until she barely escapes a harrowing experience that she realizes her life may depend on figuring out who's behind it: Clay? Brandon? And why? And every once in a while, in a crowd, she sees a face she hasn't seen in seven years—the face of a boy who died long ago.
