Even eye movement is considered as part of the non-verbal communication, being closely followed by touch and using one's personal space. 80% of human communication is actually non-verbal. Some experts argue it may even be more. Body language is considered an integral element of non-verbal communication, being used, consciously or unconsciously, to interact with other people. It is often said that body language will serve to complement verbal communication. Through our gestures, postures and expressions, we are actually transmitting a lot of information about ourselves to the interlocutor. It is clear that the body language can make the difference between a successful interaction and one that is doomed to fail from the start. Basically, the information transmitted through non-verbal means, will ensure proper interaction between two or more people. However, due to cultural differences and other influencing factors, it is important to state that body language can

Do you know what Body Language is? Do you want to know how to Read and Analyze People? A people analyzer or reader can quickly decipher an individual's personality through several attributes, including what he or she does in their spare time. For example, if you inquire what a person does in their spare time and they reveal they participate in community drives, volunteering activities or contribute to church initiatives, you know they are philanthropic, magnanimous or community conscious. Similarly, if a person says they love partying endlessly or watching television in their free time, they may be low on ambition or seek quick gratification. The point is, even something as seemingly trivial as what a person does in his or her spare time can reveal his or her personality. How Psychology Improves Our Lives While certain psychologists are of the opinion that our behavior is directly determined by genetics or heredity, others believe that it is a summation of all our experiences since birth. They are of the opinion that our immediate environment or the experiences we undergo in our immediate environment mold our behavior. For example, if a person experiences constant marginalization or prejudice on account of their class or race, they may grow up to despise wealth or seemingly superior races. They may empathize with the oppressed. Similarly, if a person is constantly bullied, abused or victimized as a child, he or she may grow up to be a bully themselves. Much of their outlook, values, personality and attitude will be shaped by these early childhood experiences or violence and abuse. Have you ever observed people who keenly attempt read their personality through zodiac signs or astrology? Isn't this a sign of possessing low self-awareness or understanding? People often gravitate towards things they believe they

haven't got much of. For example, someone who hasn't been given sufficient attention by their parents during early childhood or teen years may grow up to be a person who thrives on drama and attention-seeking tactics. They may become more dramatic and showy. There are plenty of clues everywhere. As a people analyzer, you just need to keep an eye out for these subtle clues. Basic Psychological Concepts Our mind is divided into three layers - the conscious mind, subconscious mind and unconscious mind. While the conscious mind or state of consciousness is awareness of thoughts, actions, learning and experiences, the subconscious and unconscious mind are realms of the mind that hold things we may not be aware of. Through the conscious mind, we have awareness of things we perceive and feel. We can process feelings, thoughts, concepts and ideas that are gathered from our immediate environment. Do we have your attention now? In this book we will discuss the following topics: The Way People Breath Posture and Body Orientation Non Verbal of the Hands and the Palms Detecting Lying and Deception Non Verbal Cues Interpreting Behavior Common Patterns And Many More! I'll show you a guaranteed foolproof method that has allowed me to engage attractive women in deep and thoughtful rapport by asking the right questions that

cause her to become emotionally aroused. Men are aroused more by visual cues. A man looks at a woman searching for sexual stimuli like a jeweler looks for perfection in a flawless gem. Visual cues convey information about a woman's health, fertility, and youth. Women are aroused more by psychological cues. A woman looks at a man much like a detective would a suspected criminal who is about to commit another crime. The visual cues a woman looks for are status, resources, commitment, kindness, stability, and humor. Just as you are attracted to a beautiful face, ass, and breasts, so are women attracted to "male cleavage," or the attractor factors that include high status humor. I'm going to show you how to develop those psychological cues that women can't help but be attracted. With a little practice, you'll start to notice that women will begin to smile at you more when you stimulate the emotional part of their brains that make them laugh. You'll especially notice how they will start engaging you more in a playful manner and will then want to start spending more time with you. Women want men to pursue them for sex. The problem is, too many guys are either too passive and conceal their sexual interest in women, or they act like aggressive idiots and drive them away. Luckily for you, there is a very cool and natural way to approach and attract women so they become interested in you first, and I'm going to show you how to do it. There is no doubt that women want to be sexually attractive and desired by men. They are actively looking for those men who have the ability to unlock the code to their natural instinctive desires. This book is going to teach you how to develop those traits and skills that tap into a woman's primal needs and desires. You grew up with a modern "female blueprint" and I'm going to show you how to record over it. I'm happy for the women's liberation movement and equality, but along with it became the feminization of American society. The Equal Rights Movement for women in

the 60's has caused role reversals and gender confusion that contradicts the conditioning of tens of thousands of years of customary male-female roles. Male and female blueprints that took around 200,000 years to evolve upended suddenly over the last 50. That is a 4,000 to 1 ratio! That's like starting on less than the 1-inch line on a football field of a hundred yards. It's no wonder the modern male population is so confused. One of the primary reasons so many feminized males (often referred to as wusses) are unsuccessful in attracting women is they act like women themselves. It won't work! You can't reverse a few hundred thousand years of conditioning over a 50-year period and expect different results. The methods you're about to learn were scientifically tested and proven to work in social experiments. This information has been carefully researched and documented from experts in the fields of evolutionary psychology, sociology, neuroscience, evolutionary biology, anthropology, and many other fields too numerous to mention. This book can change your life!

How to get a lean, cut physique that you love (and that girls drool over) by spending no more than 5 percent of your time each day. The 4 laws of muscle growth that, when applied, turn your body into an anabolic, muscle-building machine. You'll be shocked at how easy it really is to get big once you know what you're doing... How to develop a lightning-fast metabolism that burns up fat quickly and leaves you feeling full of energy all day long. The carefully-selected exercises that deliver MAXIMUM results for your efforts, helping you build a big, full chest, a wide, tapered back, and bulging biceps. A no-BS guide to supplements that will save you hundreds if not THOUSANDS of dollars each year that you would've wasted on products that are nothing more than bunk science and marketing hype. How to get shredded while still indulging in the "cheat" foods that you love every week like pasta, pizza, and ice cream. And a whole lot more! The bottom line is you CAN achieve that "Hollywood hunk" body without having your life revolve around it--no long hours in the gym, no starving yourself, no grueling cardio that turns your stomach. Imagine, just 12 weeks from now, being constantly complimented on how you look and asked what the heck you're doing to make such startling gains. Imagine enjoying the added benefits of high energy levels, no aches and pains, better spirits, and knowing that you're getting healthier every day. **SPECIAL BONUS FOR READERS!** With this book you'll also get a free 75-page bonus report from the author called "The Year One Challenge."
