The Greek text, reconstructed on the basis of extant manuscript sources, is prefaced by an introduction and supplemented by a critical commentary and an English translation. The introduction discusses the problem of the text's authenticity and dating and provides a comprehensive account of its sources, reception, language, style and structure as well as an analysis of the manuscript sources and the textual tradition. The commentary addresses linguistic as well as historical problems.

The 32 papers presented were carefully reviewed and selected from 252 submissions. The papers are organized in topical sections on word segmentation; open-domain question answering; discourse, coreference and pragmatics; statistical and machine learning methods in NLP; semantics; text mining, open-domain information extraction and machine reading of the Web; sentiment analysis, opinion mining and text classification; lexical semantics and ontologies; language resources and annotation; machine translation; speech recognition and synthesis; tagging and chunking; and large-scale knowledge acquisition and reasoning.

This volume argues for an innovative interdisciplinary approach to the analysis and translation of literary style, based on a mutually supportive combination of

traditional close reading and 'distant' reading, involving corpus-linguistic analysis and text-visualisation. The book contextualizes this approach within the broader story of the development of computer-assisted translation -- including machine translation and the use of CAT tools -- and elucidates the ways in which the approach can lead to better informed translations than those based on close reading alone. This study represents the first systematic attempt to use corpus linguistics and text-visualisation in the process of translating individual literary texts, as opposed to comparing and analysing already published originals and their translations. Using the case study of his translation into English of Uruguayan author Mario Benedetti's 1965 novel *Gracias por el Fuego*, Youdale showcases how a close and distant reading approach (CDR) enhances the translator's ability to detect and measure a variety of stylistic features, ranging from sentence length and structure to lexical richness and repetition, both in the source text and in their own draft translation, thus assisting them with the task of revision. The book reflects on the benefits and limitations of a CDR approach, its scalability and broader applicability in translation studies and related disciplines, making this key reading for translators, postgraduate students and scholars in the fields of literary translation, corpus linguistics, corpus stylistics and narratology. James Joyce's *Ulysses* was first published in New York in the *Little Review* between 1918 and 1920. What kind of reception did it have and how does the serial version of the text differ from the version most readers know, the iconic volume edition published in Paris in 1922 by Shakespeare and Company? Joyce prepared much of *Ulysses* for serial publication while resident in Zurich between 1915 and 1919. This original study, based on sustained archival research, goes behind the scenes in Zurich and New York in order to recover long forgotten facts that are pertinent to the writing, reception, and interpretation of *Ulysses*. The *Little Review* serialization of *Ulysses* proved controversial from the outset and was ultimately stopped before Joyce had completed the work. The New York Society for the Suppression of Vice had taken successful legal action against the journal's editors, on the grounds that the final instalment of the thirteenth chapter of *Ulysses* was obscene. This triumph of the social purity movement had far reaching repercussions for Joyce's subsequent publishing history, and for his

ongoing efforts with the composition of *Ulysses*. After chapters of contextual literary history (on the cultural world of the Little Review; the early production history of *Ulysses*; and the New York trial of 1921), the study moves to a consideration of the textual significance of the serialization. It breaks new ground in Joycean scholarship by paying critical attention to *Ulysses* as a serial text. The study concludes by examining the myriad ways in which Joyce revised and augmented *Ulysses* while resident in Paris; it shows how Joyce made *Ulysses* more sexually suggestive and overt, in explicit response to the work's legal reception in New York.

This journal, a companion book to the novel, *Inside the Wright Brothers: Flight is Possible*, is a record of the thoughts that occur to a writer while in the process of writing a novel. In recording these thoughts, the journal provides an exploration of a number of topics: the working out of a pattern, in novel form, to reflect the author's conception of the meaning of the Wright Brothers' experience; a consideration of the achievement of the Wright Brothers as an example of the creative process at work; and a step-by-step record of the writing process, which includes the planning, writing, editing and polishing of a novel about the Wright Brothers. In addition, the journal presents the challenge of matching form and meaning in the novel genre as a response to the complexities of life, and a

Farewell Discourses that have been understood previously through recourse to Jewish literature. The puzzling pause of Jesus at 14:31 and the function of the Paraclete receive particular attention.

Matthias Reinhard Hoffmann identifies an angelomorphic portrait of Christ in certain passages of Revelation and provides possible reasons for the inclusion of an angelomorphic Christology: Angelomorphic Christology is not regarded as an isolated christological concept. In turn, the author compares angelomorphic Christology with the prominent Lamb Christology of Revelation. A comparison of these concepts reveals that both Lamb and angelomorphic Christology serve the purpose of contrasting different functions of Christ. The functions correspond with the implied perception of Christ by his followers on the one hand and his opponents on the other. Accordingly, Christ appears to be an eschatological juridical figure (described in angelomorphic patterns) to his opposition, while he is perceived as salvific redeemer (in form of the Lamb) by those who believe in him. Such a christological perspective draws on traditions from the Exodus narrative, namely the features of the Passover Lamb and the Destroying Angel. Further, equality between God and Christ is established despite an angelomorphic portrait of Christ: especially those passages describing Christ as the Lamb put him on par with God. But also within visions with an angelomorphic description of Christ,

his status as superior to angels and as an equal to God is displayed. The letters in this volume reflect Erasmus' anxiety about the endemic warfare in Western Europe, the advance of the Ottoman Turks into Europe, and the increasing threat of armed conflict between Catholics and Protestants in Germany. Unable and unwilling to attend the Diet of Augsburg (June–November 1530), summoned by Emperor Charles V in the attempt to mediate a religious settlement, Erasmus corresponded with those in attendance, urging them (in vain) to preserve peace at all costs. The letters also shed light on Erasmus' controversies with Catholic critics (Luis de Carvajal and Frans Titelmans) who accused him of Lutheran sympathies, and former friends among the Protestant reformers (Gerard Geldenhouwer and others in Strasbourg), who embarrassed him by citing him in support of their views. Because of a mysterious and debilitating illness (identified in an appendix to the volume) the twelve months covered were less productive of scholarship than was usual for Erasmus, but it did see the publication of the five-volume Froben edition of St. John Chrysostom in Latin. Volume 16 of the Collected Works of Erasmus series.

For almost fifty years, much has been written concerning Mark 16:9-20. During the same time period, evidence once counted against Mark 16:9-20 was shown to be otherwise. In this study, David W. Hester surveys modern scholarship

(1965-2011) surrounding the passage. He examines the passage itself--the external evidence, with particular attention paid to the manuscripts and the patristics, especially those of the second and third centuries; and the internal evidence, featuring details that are problematic as well as those that favor Markan authorship. Finally, a proposal concerning the origin of the passage is presented. The first edition of Mark's Gospel ended at 16:8, resulting in the manuscript tradition that omits the passage, but this was not his intended ending. Later, his associates attached Mark's notes and published a second edition of the Gospel with the last twelve verses. This led to its inclusion. Given that the passage is cited by second- and third-century witnesses and attributed to Mark, along with the biblical prohibition against adding to or taking from Scripture, it is doubtful that an anonymous second-century author could have been successful in adding his own composition and it being widely accepted by the early church. A few volumes include appendices (some separately paged) mainly reports of state officers.

Diakonia Studies closes the account on John N. Collins's 40 years of involvement in groundbreaking linguistic research and argumentation concerning the nature and functioning of Christian ministry. loving Christian service-what Jerome Murphy-O'Connor called "one of the dogmas of New Testament scholarship"-the word was exposed by Dieter Georgi in 1964 as arguably meaning something quite different. In 1974 John N. Collins published his first paper on the issue, pointing to inadequacies in Georgi's brief account. Then in 1990 Collins published his exhaustive semantic survey, *Diakonia: Re-interpreting the Ancient Sources*. His re-interpretation was variously hailed as "devastating," "provocative," "unfashionable," and "a scholarly avalanche whose conclusions are inescapable." Since then, the book has stood at the center of "the Collins-Debate." Meanwhile Collins's findings have been incorporated in the authoritative *Danker Greek-English Lexicon of the New Testament*. *Diakonia Studies* examines, in a non-technical way (i.e., without appeal to particulars of Greek), the reasons why theologians need not only to review cherished readings of leading New Testament passages but also to reassess what some passages might really be saying about the nature and delivery of ministry. These third-millennium issues are the matter of the final papers in the volume, reminding churches of the ministry they have received and of their filed-away commitments to an ecumenically-charged ministry. Among the topics considered are ordained and lay ministries, the tension between office and charism, and prospects for deacons when a diakonia of loving service no longer
