

## Cuckold Hysteria Two Victorian Cuckold Erotica Stories

Provides a comprehensive overview for both beginning and advanced students of satiric forms from ancient poetry to contemporary digital media.

Emma Heaney's *The New Woman: Literary Modernism, Queer Theory, and the Trans Feminine Allegory* traces the evolution of the "trans feminine" as an allegorical figure from its origins in the late nineteenth century to contemporary Queer Theory.

*Brideshead Revisited, The Sacred and Profane Memories of Captain Charles Ryder* is a novel by English writer Evelyn Waugh, the life and romances of the protagonist Charles Ryder, most especially his friendship with the Flytes, a family of wealthy English Catholics who live in a palatial mansion called Brideshead Castle. Ryder has relationships with two of the Flytes: Sebastian and Julia. The novel explores themes including nostalgia for the age of English aristocracy, Catholicism, and the nearly overt homosexuality of Sebastian Flyte and 's coterie at Oxford University. A faithful and well-received television adaptation of the novel was produced in an 11-part miniseries by Granada Television in 1981.

"Encyclopedically learned, up-to-date, authoritative, and altogether the best introduction to the subject that exists in any language."--Thomas Laqueur, author of *Making Sex*

The second novel from the critically acclaimed New York Times—bestselling author Chang-rae Lee. His remarkable debut novel was called "rapturous" (*The New York Times Book Review*), "revelatory" (*Vogue*), and "wholly innovative" (*Kirkus Reviews*). It was the recipient of six major awards, including the prestigious Hemingway Foundation/PEN award. Now Chang-rae Lee has written a powerful and beautifully crafted second novel that leaves no doubt about the extraordinary depth and range of his talent. *A Gesture Life* is the story of a proper man, an upstanding citizen who has come to epitomize the decorous values of his New York suburban town. Courteous, honest, hardworking, and impenetrable, Franklin Hata, a Japanese man of Korean birth, is careful never to overstep his boundaries and to make his neighbors comfortable in his presence. Yet as his story unfolds, precipitated by the small events surrounding him, we see his life begin to unravel. Gradually we learn the mystery that has shaped the core of his being: his terrible, forbidden love for a young Korean Comfort Woman when he served as a medic in the Japanese army during World War II. In *A Gesture Life*, Chang-rae Lee leads us with dazzling control through a taut, suspenseful story about love, family, and community—and the secrets we harbor. As in *Native Speaker*, he writes of the ways outsiders conform in order to survive and the price they pay for doing so. It is a haunting, breathtaking display of talent by an acclaimed young author.

"Tafari's work is probably the most innovative and exciting new form of European theory since French poststructuralism and this book is probably the best introduction to it for the newcomer. ..."

This broad-ranging text offers a comprehensive outline of how visual images, language and discourse work as 'systems of representation'. Individual chapters explore: representation as a signifying practice in a rich diversity of social contexts and institutional sites; the use of photography in the construction of national identity and culture; other cultures in ethnographic museums; fantasies of the racialized 'Other' in popular media, film and image; the construction of masculine identities in discourses of consumer culture and advertising; and the gendering of narratives in television soap operas.

*A Lonely Doctor* The treatment for female hysteria calms his patients, but it heats Dr. Thomas Winterbourne's blood like nothing else. Unwed, and desperately lonely, he's rejected the idea of marriage due to his singular desires. *A Thief Jenny Marks* feels no pity for the wealthy doctor who has more comfort than she ever has found in her nineteen years. She takes a job as his maid, intending on taking anything of value from him and any other upper class people that she can. Caught When Dr. Winterbourne finds her pilfering his mother's jewels, he decides upon punishing her in the most scandalous of manners. Their lust overwhelms them both, yet with all the secrets they both keep, can they open their hearts and learn to truly love?

She always dreamed of marrying a Stuart brother. Just not the one who meets her at the altar. When scandal sweeps through London's ballrooms, Lord Elijah Stuart's younger brother is caught in its web. Though his main duty is to England's spymaster, Elijah must forsake his work searching for the traitor to the Crown and instead focus on weddings and reputations. With both the family honor and his brother's future at stake, Elijah dutifully takes the ruined Miss Josephina Pennyworth for his very reluctant bride. Furious at the circumstances leading her to be wed to the wrong Stuart brother, Josephina clashes immediately with her bossy new husband. She is every bit as invested in the search for the traitor as Lord Stuart and she is no shrinking violet when it comes to danger. While Josie discovers certain aspects of married life are quite pleasurable, she doesn't permit them to distract her from her mission. As she tests her husband's patience and the boundaries of her new life, the threat lurking in the shadows grows larger and places more lives in peril. Who among them will survive? \*\*This book contains steamy scenes and the firm discipline of a sassy heroine when she requires it.

The National Bestseller "Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present."—THE NEW YORKER "Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists."—Carlos Lozada, THE WASHINGTON POST "[Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street... Antifa: The Anti-Fascist Handbook couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment."—SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, *Antifa* details the tactics of the movement and the philosophy behind it, offering insight into the

growing but little-understood resistance fighting back against fascism in all its guises.

It will interest scholars who study Romanticism from a number of perspectives, including those interested in bodily and social consumption, the roles of addiction and abstinence in literature, the connection between literary and visual culture, the intersection of critical theory and Romanticism, and the relationships among language, historical knowledge, and political practice.

The classic manifesto of the liberated woman, this book explores every facet of a woman's life.

Americans have experienced a love-hate relationship with Wall Street for two hundred years. Long an object of suspicion, fear, and even revulsion, the Street eventually came to be seen as an alluring pathway to wealth and freedom. Steve Fraser tells the story of this remarkable transformation in a brilliant, masterfully written narrative filled with colorful tales of confidence men and aristocrats, Napoleonic financiers and reckless adventurers, master builders and roguish destroyers. Penetrating and engrossing, this is an extraordinary work of history that illuminates the values and the character of our nation.

Provides an account of the life of the Siberian mystic who gained the favor of the Imperial Court, considering how he shaped Russian foreign policy, his relationship with the Tsarina, and his role in the tsarist regime's downfall.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters ) to be spelt with those single letters in non-final syllables.

The matriarchate -- Celibacy -- Canon law -- Marquette -- Witchcraft -- Wives -- Polygamy -- Woman and work -- The church of to-day -- Past, present, future.

Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science—as well as religious and cultural institutions—has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. But this narrative is collapsing. Fewer and fewer couples are getting married, and divorce rates keep climbing as adultery and flagging libido drag down even seemingly solid marriages. How can reality be reconciled with the accepted narrative? It can't be, according to renegade thinkers Christopher Ryan and Cacilda Jethå. While debunking almost everything we "know" about sex, they offer a bold alternative explanation in this provocative and brilliant book. Ryan and Jethå's central contention is that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together convergent, frequently overlooked evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. Human beings everywhere and in every era have confronted the same familiar, intimate situations in surprisingly different ways. The authors expose the ancient roots of human sexuality while pointing toward a more optimistic future illuminated by our innate capacities for love, cooperation, and generosity. With intelligence, humor, and wonder, Ryan and Jethå show how our promiscuous past haunts our struggles over monogamy, sexual orientation, and family dynamics. They explore why long-term fidelity can be so difficult for so many; why sexual passion tends to fade even as love deepens; why many middle-aged men risk everything for transient affairs with younger women; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. In the tradition of the best historical and scientific writing, *Sex at Dawn* unapologetically upends unwarranted assumptions and unfounded conclusions while offering a revolutionary understanding of why we live and love as we do.

*Mongrel Nation* surveys the history of the United Kingdom's African, Asian, and Caribbean populations from 1948 to the present, working at the juncture of cultural studies, literary criticism, and postcolonial theory. Ashley Dawson argues that during the past fifty years Asian and black intellectuals from Sam Selvon to Zadie Smith have continually challenged the United Kingdom's exclusionary definitions of citizenship, using innovative forms of cultural expression to reconfigure definitions of belonging in the postcolonial age. By examining popular culture and exploring topics such as the nexus of race and gender, the growth of transnational politics, and the clash between first- and second-generation immigrants, Dawson broadens and enlivens the field of postcolonial studies. *Mongrel Nation* gives readers a broad landscape from which to view the shifting currents of politics, literature, and culture in postcolonial Britain. At a time when the contradictions of expansionist braggadocio again dominate the world stage, *Mongrel Nation* usefully illuminates the legacy of imperialism and suggests that creative voices of resistance can never be silenced. Dawson "Elegant, eloquent, and full of imaginative insight, *Mongrel Nation* is a refreshing, engaged, and informative addition to post-colonial and diasporic literary scholarship." —Hazel V. Carby, Yale University "Eloquent and strong, insightful and historically precise, lively and engaging, *Mongrel Nation* is an expansive history of twentieth-century internationalist encounters that provides a broader landscape from which to understand currents, shifts, and historical junctures that shaped the international postcolonial imagination." —May Joseph, Pratt Institute Ashley Dawson is Associate Professor of English at the City University of New York's Graduate Center and the College of Staten Island. He is coeditor of the forthcoming *Exceptional State: Contemporary U.S. Culture*

and the New Imperialism.

What can we do to prevent more atrocities from happening in the future, and to stop the ones that are happening right now? That the World May Know tells the powerful and moving story of the successes and failures of the modern human rights movement. Drawing on firsthand accounts from fieldworkers around the world, the book gives a painfully clear picture of the human cost of confronting inhumanity in our day.

A look at Britain's storied history with the beloved beverage, including slavery, war, drug smuggling, fortune telling, and the economy's globalisation. A Dark History of Tea looks at our long relationship with this most revered of hot beverages. Renowned food historian Seren Charrington-Hollins digs into the history of one of the world's oldest beverages, tracing tea's significance on the tables of the high and mighty as well as providing relief for workers who had to contend with the ardours of manual labour. This humble herbal infusion has been used in burial rituals, as a dowry payment for aristocrats; it has fuelled wars and spelled fortunes as it built empires and sipped itself into being an integral part of the cultural fabric of British life. This book delves into the less tasteful history of a drink now considered quintessentially British. It tells the story of how, carried on the backs of the cruelty of slavery and illicit opium smuggling, it flowed into the cups of British society as an enchanting beverage. Chart the exportation of spices, silks and other goods like opium in exchange for tea, and explain how the array of good fortunes—a huge demand in Britain, a marriage with sugar, naval trade and the existence of the huge trading firms—all spurred the first impulses of modern capitalism and floated countries. The story of tea takes the reader on a fascinating journey from myth, fable and folklore to murky stories of swindling, adulteration, greed, waging of wars, boosting of trade in hard drugs and slavery and the great, albeit dark engines that drove the globalisation of the world economy. All of this is spattered with interesting facts about tea etiquette, tradition and illicit liaisons making it an enjoyable rollercoaster of dark discoveries that will cast away any thoughts of tea as something that merely accompanies breaks, sit downs and biscuits. Praise for A Dark History of Tea "The author gathers many of the dangerous and morbid events throughout tea history and compiles them into one well-researched book. An entertaining read for anyone looking for interesting tea history." —Sara Shacket, Tea Happiness

"Has all the lush world-building and intoxicating magic of the Harry Potter universe" — Entertainment Weekly "Lush and sweeping swords-and-sorcery romance" — The New York Times Assassin's Creed meets Fantastic Beasts and Where to Find Them in this gripping, epic fantasy romance trilogy. My heart wasn't part of the deal when I bargained for my life, But assassins so rarely keep their word. Exiled Charmer Leena Edenfrell is running out of time. Empty pockets forced her to sell her beloved magical beasts—an offense punishable by death—and now there's a price on her head. With the realm's most talented murderer-for-hire nipping at her heels, Leena makes Noc an offer he can't refuse: powerful mythical creatures in exchange for her life. Plagued by a curse that kills everyone he loves, Noc agrees to Leena's terms in hopes of finding a cure. Never mind that the dark magic binding the assassin's oath will eventually force him to choose between Leena's continued survival...and his own. The Beast Charmer Series: Kingdom of Exiles The Frozen Prince (coming early 2020) The Shattered Crown (coming late 2020)

In 1678, against a backdrop of paranoid fear of Catholicism, Titus Oates and his followers succeeded in convincing both Parliament and the public of a Jesuit and Catholic conspiracy to assassinate Charles II and overthrow the Protestant establishment. As a result, hundreds of Catholics suffered imprisonment and 24 were executed. Here is the background of that plot, its development, and its long-term repercussions. "With the technical mastery of a seasoned professional...he retells in vivid detail an extraordinary tale of human credulity, knavery, and folly."--The Times.

The Cambridge History of Modernism is the first comprehensive history of modernism in the distinguished Cambridge Histories collection. It identifies a distinctive temperament of 'modernism' within the 'modern' period, establishing the circumstances of modernized life as the ground and warrant for an art that becomes 'modernist' by virtue of its demonstrably self-conscious involvement in this modern condition. Following this sensibility from the end of the nineteenth century to the middle of the twentieth, tracking its manifestations across pan-European and transatlantic locations, the forty-three chapters offer a remarkable combination of breadth and focus. Prominent scholars of modernism provide analytical narratives of its literature, music, visual arts, architecture, philosophy, and science, offering circumstantial accounts of its diverse personnel in their many settings. These historically informed readings offer definitive accounts of the major work of twentieth-century cultural history and provide a new cornerstone for the study of modernism in the current century.

Beginning with the spectacle of hysteria, moving through the perversions of fetishism, masochism, and sadism, and ending with paranoia and psychosis, this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's Canterbury Tales, for Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority and experience but also between power and knowledge, word and flesh, rule books and reason, man and woman, same and other – conflicts that erupt in a macabre sprawl of broken bones, dismembered bodies, cut throats, and decapitations. Like the macabre sprawl of conflict in the Canterbury Tales, this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of "shadow" chapters that speak to or against the four "central" chapters, creating both dialogue and interruption.

"Not since Cheryl Herr's Joyce's Anatomy of Culture has a critic shown such wide ranging command of the contrasting elements of Joyce's cultural context."--Michael Patrick Gillespie, Marquette University Joyce and the Victorians excavates the heretofore largely unexplored territory of the late Victorian and Edwardian cultural contexts of Dubliners,
