This text has been extensively revised, reorganised and updated for the new A Level Economics specifications that start teaching from September 2008. The new AQA edition covers the new content of the specifications and address the changes to the assessment format.

Statistics for Economics, Accounting and Business Studies presents an exceptionally clear introduction to statistical methods and refreshingly explains why particular techniques are used.

The Guide has been written primarily for students of AS and A Level English Literature as specified by Edexcel in the post-2015 syllabus (9ET0). It addresses Component 1 (8ET0/01 - Poetry and Drama) of the AS syllabus and Component 3 (9ET0/03 - Poetry) of the A2 syllabus, specifically, the requirement to study a selection of Post-2000 poetry. The Guide covers all the poems in the selection from *Poems of the Decade: An Anthology of the Forward Books of Poetry 2002-2011* (ISBN 978-0571281732). The poems are explored individually, and links and connections between them are drawn as appropriate. The format of

each exploration is similar:

- \* A summary of the key themes of the poems, with a note on possible connections and links to other poems in the selection
- \* An explanation of any key features of the poem that require additional contextual knowledge or illustration
- \* A brief summary of the metric form, rhyme scheme or other structural features
- \* A "walk-through" (or explication) of the poem, ensuring that what is happening in the poem is understood, how the rhythm and rhyme contribute to meaning, an explanation of the meaning of words which may be unfamiliar, an exploration of imagery and language and a comment on main themes.

This textbook provides a comprehensive account of psychology for all those with little or no previous knowledge of the subject. It covers the main areas of psychology, including social psychology, developmental psychology, cognitive psychology, personality, intelligence, and biological psychology.; Each chapter contains definitions of key terms, together with several multiple-choice questions and answers, and semi- structured essay questions. In addition, every chapter contains a "Personal Viewpoint" section, which encourages the reader to compare his or her views on psychology with the relevant findings of psychologists. The last chapter is devoted to study skills, and provides numerous practical hints for readers who want to study more effectively.

This new textbook from best-selling politics author Andrew Heywood investigates the ideas that have dominated political thinking across the globe, and examines the different ways in which they have been interpreted and reinterpreted. How did we get to where we are? John Cassidy shows that the roots of our most recent financial failure lie not with individuals, but with an idea - the idea that markets are inherently rational. He gives us the big picture behind the financial headlines, tracing the rise and fall of free market ideology from Adam Smith to Milton Friedman and Alan Greenspan. Full of wit, sense and, above all, a deeper understanding, *How Markets Fail* argues for the end of 'utopian' economics, and the beginning of a pragmatic, reality-based way of thinking. A very good history of economic thought Economist *How Markets Fail* offers a brilliant intellectual framework . . . fine work New York Times An essential, grittily intellectual, yet compelling guide to the financial debacle of 2009 Geordie Greig, *Evening Standard* A powerful argument . . . Cassidy makes a compelling case that a return to hands-off economics would be a disaster BusinessWeek This book is a well constructed, thoughtful and cogent account of how capitalism evolved to its current form Telegraph Books of the Year recommendation John Cassidy ... describe[s] that mix of insight and madness that brought the world's system to its knees FT, Book of the Year recommendation Anyone who enjoys a good read can safely embark on this tour with Cassidy as their guide . . . Like his colleague Malcolm Gladwell [at the *New Yorker*], Cassidy is able to lead us with beguiling lucidity through unfamiliar territory New Statesman John Cassidy has covered economics and

finance at The New Yorker magazine since 1995, writing on topics ranging from Alan Greenspan to the Iraqi oil industry and English journalism. He is also now a Contributing Editor at Portfolio where he writes the monthly Economics column. Two of his articles have been nominated for National Magazine Awards: an essay on Karl Marx, which appeared in October, 1997, and an account of the death of the British weapons scientist David Kelly, which was published in December, 2003. He has previously written for Sunday Times in as well as the New York Post, where he edited the Business section and then served as the deputy editor. In 2002, Cassidy published his first book, Dot.Con. He lives in New York.
