Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

George Orwell's celebrated novella, *Animal Farm*, is a biting, allegorical, political satire on totalitarianism in general and Stalinism in particular. One of the most famous works in modern English literature, it is a telling comment on Soviet Russia under Stalin's brutal dictatorship based on a cult of personality which was enforced through a reign of terror. The book tells a seemingly simple story of farm animals who rebel against their master in the hope of stopping their exploitation at the hand of humans and creating a society where animals would be equal, free and happy. Ultimately, however, the rebellion is betrayed and the farm ends up in a state as bad as it was before. The novel thus demonstrates how easily good intentions can be subverted into tyranny. Orwell has himself said that it was the first book in which he had tried, with full consciousness of what he was doing, 'to fuse political purpose and artistic purpose into one whole.' The book was first published in England in 1945, and has since then remained a favourite with readers all over the world, and

The book includes all the information you need to plan your future and take control of your career.

This book proposes, examines and unpacks the notion of unequal Englishes as a way to understand English today. Unlike many studies on the pluralization of English, the volume assumes that inequalities and Englishes are inextricably linked and must be understood and theorized together.

Taking readers step-by-step through the major issues surrounding the use of English in the global aviation industry, this book provides a clear introduction to turning research into practice in the field of English for Specific Purposes (ESP), specifically Aviation English, and a valuable case study of applied linguistics in action. With both cutting-edge research and evidence-based practice, the critical role of English in aviation is explored across a variety of contexts, including the national and global policies impacting training and language assessment for pilots, air-traffic controllers, ground staff, and students. English in Global Aviation teaches readers how to apply linguistic research to real world, practical settings. The book uses a range of corpus-based findings and related research to provide an effective analysis of the language needs

of the aviation industry and an extended look at linguistic principles in action. Readers are presented with case studies, transcriptions, radiotelephony, and a clear breakdown of the common vocabulary and phrasal patterns of aviation discourse. Students and teachers of both linguistics and aviation will discover the requirements and challenges of successful intercultural communication in this industry, as well as insights into how to teach, develop, and assess aviation English language courses.

This series of books is designed to help upper-elementary teachers teach a rigorous yearlong writing curriculum.

English Language Arts offers both undergraduates and starting-graduate students in education an introduction to the connections that exist between language arts and a critical orientation to education. Because language influences all aspects of education, English teachers have a unique responsibility to create opportunities for learners to cultivate literacy practices that will empower them to reach their potential. Applying critical and theoretical perspectives to teaching English language arts, this primer considers how meanings are made in intersecting spaces of learners, teachers, and texts. Julie Gorlewski shows future and current teachers how critical English language arts education can be put into practice with concrete strategies and examples in both formal and informal educational

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--

This volume explores both historical and current issues in English usage guides or style manuals. Guides of this sort have a long history: while Fowler's *Modern English Usage* (1926) is one of the best known, the first English usage guide was published in the UK in 1770, and the first in the US in 1847. Today, new titles come out nearly every year, while older works are revised and reissued.

Remarkably, however, the kind of usage problems that have been addressed over the years are very much the same, and attitudes towards them are slow to change - but they do change. The chapters in this book look at how and why these guides are compiled, and by whom; what sort of advice they contain; how they differ from grammars and dictionaries; how attitudes to usage change; and why institutions such as the BBC need their own style guide. The volume will appeal not only to

researchers and students in sociolinguistics, but also to general readers with an interest in questions of usage and prescriptivism, language professionals such as teachers and editors, and language policy makers.

This book is intended for teachers of English.

The Routledge Student Guide to English Usage is an invaluable A–Z guide to the appropriate use of English in academic contexts. The first part of the book covers approximately 4000 carefully selected words, focusing on groups of confusable words that sound alike, look alike or are frequently mixed up. The authors help to solve academic dilemmas, such as correct usage of the apostrophe and the crucial difference between infer and imply. Examples of good usage are drawn from corpora such as the British National Corpus and the Corpus of Contemporary American English. The second part covers the key characteristics of formal English in a substantial reference section, comprising: • stylistic features • punctuation • English grammar • the use of numbers • email writing. This is the essential reference text for all students working on improving their academic writing skills. Visit the companion website for a range of supporting exercises: www.routledge.com/cw/clark.

The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers.

‘This is an important book for all concerned with the teaching and learning of English, exploring new and hugely significant areas in a scholarly, thought-provoking and eminently practical way.’ – David Stevens, University of Durham, UK

Drawing together ideas from a range of disciplines in the study of texts which explore nature, the built environment and issues of climate change and environmental stress, this book shows how English is well placed to develop the cultural, aesthetic and emotional response to environmental themes – both as part of everyday practice and within wider curriculum innovations. Features include: critical reflection on the teaching of secondary English connections with the academic study of ecocriticism and/or key environmental issues suggested teaching activities and/or reflections from classroom practice sources of further reading and information. Chinese ESL/EFL (English as a second/foreign language) learners, the large student population, its complicated composition and the complex nature of second and foreign language learning have rendered it difficult to offer a panoramic view on ESL/EFL teaching and learning of Chinese learners. This book provides a new and up-to-date perspective on the teaching and learning of Chinese ESL/EFL learners. The book collects 15 case studies, falling into two parts—Curriculum Development and Teaching Practice and Skills-Based Research. The collected studies deploy qualitative, quantitative or mixed methods to explore patterns, features, developments and causes and effects of a variety of issues in the sphere of ESL/EFL teaching and learning. Moreover, the cases offer insights that are relevant beyond the mainland Chinese context such as Hong Kong, Macau, Britain and Australia. Students and scholars of TESOL and applied linguistics will be interested in this title.

who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class": lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

Documents the development of the Cambridge ESOL Certificates in English Language Skills (CELS), a suite of modular examinations first offered in 2002. As a context for how CELS was conceived, developed, constructed, validated and managed, the book traces the history of exams which have influenced CELS. The Royal Society of Arts (RSA), later UCLES (University of Cambridge Local Examinations Syndicate) Communicative Use of English as a Foreign Language examinations (CUEFL) was one such influence, as were the Certificates in Communication Skills in English (CCSE), these exams being a development of the CUEFL. The University of Oxford Delegacy of Local Examinations (UODLE) examinations, taken over by UCLES in 1995, were a further influence on CELS. UODLE itself had worked in partnership with the Association of Recognised Language Schools (ARELS) Examinations Trust, the Oxford EFL reading and writing exams for many years offered in tandem with the ARELS Oral English exams.
