Hausa is one of Africa's single most spoken languages. It is Hausa's general ease of use that has contributed to its becoming so widely used. A member of the Chadic branch of the Afro-Asiatic languages Hausa is spoken as a first language by about 34 million people, and as a second language by about 15 million more. Native speakers of Hausa are mostly to be found in the north of Nigeria and in Niger (where it is an official language), but the language is widely used as a lingua franca in a larger geographic band across sahelian Africa north of the Congo basin, and west of central Sudan. As a lingua-franca, Hausa is especially prevalent in Ghana, used by Hausa traders in zango (Hausa urban districts) in major cities. It is also used by Fulani herdsmen, Dagomba/Gurunsi farmers as a second language, by the official Islamic clergy of the country, and as an inter-ethnic group lingua-franca north and east of all Akan dominated areas. In total, Hausa speakers in Ghana number between 4-7 million of all Hausa-speakers, making it a very handy language to know in the marketplace. Hausa is also used extensively in Cameroon alongside Fulani in the far north and as far south as Gabon. In Central/Northeast Africa, Hausa is used in Chad and Sudan among the Hausa-Fulani communities, and smaller Muslim tribal groups, in and around Khartoum and Kordofan (in addition to Arabic). Two famous Sudanese singers, Fadimatu and Sabrin, occasionally sing in Hausa on the popular Sudanese national television program Nogoum, noting the increasing recognition of the Hausa language in otherwise Arabic-dominated Sudanese society. Hausa is a tonal language which employs two distinct tones, high and low, but doesn't sound as distinctly tonal as other African languages. There are also many special implosive and explosive consonants used in Hausa that may have to be learned by ear, but are completely comprehensible without mastering. Hausa employs a 5 vowel system like Spanish (a, e, i, o, u), and grammar is quite easy to learn. This dictionary contains 10,200 terms in English and Hausa. A guide to English and Hausa pronunciation is also included. It is derived from our Words R Us system.

The English / Hausa Phrasebook is designed to be used by the English speaker to learn the basics of the Hausa language or for a Hausa speaker to learn the basics of English. If you are intending to learn any new language, you'll need to get a phrasebook. The purpose of the phrasebook is to give you practice in real-life situations. Memorizing phrases ahead of time is the BEST way to use a phrasebook. Your grammar book, and sometimes even your course, does not give you the "Which room is mine?" kind of phrases. Yes, you will need to flip through the book to find responses or the next question on a different topic, but that is only if you do not practice a bit ahead of time. You can't beat this book - for the price and the small, yet concise and relevant content. Learn how to tell time, order food, go through customs, as well as greetings and social conversations. This is not your typical tourist phrasebook. It contains over 75 categories of terms in Hausa and English with over 4,000 terms, phrases and sentences. Also included is a guide to the Hausa alphabet and pronunciation. Proper names may or may not be translated between languages. Generally country names are translated, but personal names, place names, and trade names (products) are not. Some words may provide an alternate translation or transliteration, others may not. This phrasebook is derived from our Words R Us system, a derivative of WordNet. English Wordnet, originally created by Princeton University is a lexical database for the English language. It groups words in English into sets of synonyms called synsets, provides brief definitions and usage examples, and records a series of relationships between these sets of synonyms. WordNet can be viewed as both a combination dictionary and thesaurus.
