In the present book, How to Win Friends and Influence People, Dale Carnegie

says, "You can make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want." You learn how to make people like you, win people over to your way of thinking, and change people without causing offense or arousing resentment. 4. Begin in a friendly way.
5. Start with questions to which the other person will answer yes.
6. Let the other person do a great deal of the talking.
7. Let the other person feel the idea is his or hers.
8. Try honestly to see things from the other person's point of view.

Microsoft PowerPoint is a slide show presentation program developed by Microsoft. It was officially launched on May 22, 1990, as a part of the Microsoft Office suite. PowerPoint presentations consist of a number of individual pages or "slides." The "slide" analogy is a reference to the slide projector. A better analogy would be the "foils" (or transparencies/plastic sheets) that are shown with an

overhead projector, although they are in decline now. Slides may contain text, graphics, sound, movies, and other objects, which may be arranged freely. The presentation can be printed, displayed live on a computer, or navigated through at the command of the presenter. For larger audiences the computer display is often projected using a video projector. Slides can also form the basis of webcasts.

Is Jesus Christ merely a dead mystical religious figure who lived 2000 years ago

or the living risen Messiah sent for the redemption of mankind from the penalty of personal sin? Is Jesus actually able to communicate with you and I today with understandable words in our own language? Is He especially viewable and understandable in the pages, words, and cryptograph of the Holy Bible's Book of Daniel? You the reader are now at the threshold of not only a complete teaching of the entire Book of Daniel, but a threshold of human history unprecedented. Both the great Prophets Daniel and the Apostle John said that in the days just preceding the return of Jesus Christ to set up His Millennial 1000 year Kingdom certain signs would appear on the world stage. Those indicators include: A worldwide international banking system; a cashless society; a worldwide common currency; computer technology that would monitor financial transactions, social interaction, and international communications; and a satellite communication system that would allow people to view events simultaneous from any television around the world. Let not this study of the Book of Daniel be entered into with fear and trepidation, but with wonder, astonishment and enthusiasm. Allow the Spirit of the Living God to cause the eyes of your understanding to be flooded with light, that you might know the truth and be set free. Best of life to you and yours, Dr. Martin W. Oliver PhD, BCPC

Euler's Formula is the most beautiful equation in mathematics. Yet it's much more. It governs the universe and defines the soul! Euler's Formula perfectly complements Leibniz's Monadology. They form the most powerful intellectual combination ever, capable of establishing a true grand unified theory of everything, including religion. It

provides a rational explanation of near-death and out-of-body experiences, and homeopathy. It overturns Einstein's principle of relativity, providing the same results via an absolute framework that restores the reality principle. In this groundbreaking book, we provide the solution to the Cartesian mind-body problem via the Fourier transform – which has the Euler Formula as its engine. We present the Riemann sphere, which works in perfect harmony with the Euler Formula, as the ideal working model of the human soul. And we give the first ever technical explanation of the process of reincarnation. The Euler equation is everything you thought – and more. It's divine.
