Paul de Kruif's *Microbe Hunters* is a timeless dramatization of the scientists, bacteriologists, doctors, and medical technicians who discovered microbes and invented the vaccines to counter them. De Kruif reveals the now seemingly simple but really fundamental discoveries of science - for instance, how a microbe was first viewed in a clear drop of rain water, and when, for the first time ever, Louis Pasteur discovered that a simple vaccine could save a man from the ravages of rabies by attacking the microbes that cause it.

NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Wall Street Journal* • *Financial Times* In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."—Jim Collins "Few [books] become essential manuals for business and living. *The Power of Habit* is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good."—*Financial Times* "A flat-out great read."—David Allen, bestselling author of *Getting Things Done: The Art of Stress-Free Productivity* "You'll never look at yourself, your organization, or your world quite the same way."—Daniel H. Pink, bestselling author of *Drive* and *A Whole New Mind* "Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change."—*The New York Times Book Review*

"My heart is afraid that it will have to suffer," the boy told the alchemist one night as they looked up at the moonless sky." Tell your heart that the fear of suffering is worse than the suffering itself. And that no heart has ever suffered when it goes in search of its dreams." Every few decades a book is published that changes the lives of its readers forever. *The Alchemist* is such a book. With over a million and a half copies sold around the world, *The Alchemist* has already established itself as a modern classic, universally admired. Paulo Coelho's charming fable, now available in English for the first time, will enchant and inspire an even wider audience of readers for generations to come. *The Alchemist* is the magical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure as extravagant as any ever found. From his home in Spain he journeys to the markets of Tangiers and across the Egyptian desert to a fateful encounter with the alchemist. The story of the treasures Santiago finds along the way teaches us, as only a few stories have done, about the essential wisdom of listening to our hearts, learning to read the omens strewn along life's path, and, above all, following our dreams.

On 8 March 1421, the largest fleet the world had ever seen set sail from China. The ships, some nearly five hundred feet long, were under the command of Emperor Zhu Di's loyal eunuch admirals. Their mission was 'to proceed all the way to the end of the earth to collect tribute from the barbarians beyond the seas' and unite the world in Confucian harmony. Their journey would last for over two years and take them around the globe but by the time they returned home, China was beginning its long, self-imposed isolation from the world it had so recently embraced. And so the great ships were left to rot and the records of their journey were destroyed. And with them, the knowledge that the Chinese had circumnavigated the globe a century before Magellan, reached America seventy years before Columbus, and Australia three hundred and fifty years before Cook... The result of fifteen years research, 1421 is Gavin Menzies' enthralling account of the voyage of the Chinese fleet, the remarkable discoveries he made and the persuasive evidence to support them: ancient maps, precise navigational knowledge, astronomy and the surviving accounts of Chinese explorers and the later European navigators as well as the traces the fleet left behind - from sunken junks to the votive offerings left by the Chinese sailors wherever they landed, giving thanks to Shao Lin, goddess of the sea. Already hailed as a classic, this is the story of an extraordinary journey of discovery that not only radically alters our understanding of world exploration but also rewrites history itself.

"Makes *Game of Thrones* look like a nursery rhyme." —Daisy Goodwin, *New York Times* bestselling author of *The Fortune Hunter* "[Alpsten] recounts this remarkable woman's colourful life and times." —Count Nikolai Tolstoy, historian and author Before there was Catherine the Great, there was Catherine Alexeyevna: the first woman to rule Russia in her own right. Ellen Alpsten's rich, sweeping debut novel is the story of her rise to power. St. Petersburg, 1725. Peter the Great lies dying in his magnificent Winter Palace. The weakness and treachery of his only son has driven his father to an appalling act of cruelty and left the empire without an heir. Russia risks falling into chaos. Into the void steps the woman who has been by his side for decades: his second wife, Catherine Alexeyevna, as ambitious, ruthless and passionate as Peter himself. Born into devastating poverty, Catherine used her extraordinary beauty and shrewd intelligence to ingratiate herself with Peter's powerful generals, finally seducing the Tsar himself. But even amongst the splendor and opulence of her new life—the lavish feasts, glittering jewels, and candle-lit hours in Peter's bedchamber—she knows the peril of her position. Peter's attentions are fickle and his rages powerful; his first wife is condemned to a prison cell, her lover impaled alive in Red Square. And now Catherine faces the ultimate test: can she keep the Tsar's death a secret as she plays a lethal game to destroy her enemies and take the Crown for herself? From the sensuous pleasures of a decadent aristocracy, to the incense-filled rites of the Orthodox Church and the terror of Peter's torture chambers, the intoxicating and dangerous world of Imperial Russia is brought to vivid life. *Tsarina* is the story of one remarkable woman whose bid for power would transform the Russian Empire.

Who's the Angel of Death? What terrible secrets hide behind his appearance in *Gothica*? In the megalopolis of a possible future, dominated by the members of the Schism and the Church, Frederick Volk, president of a genetic industry multinational, is carrying on a program of genetic manipulation of plants, animals and man's DNA. Many suspicions are concentrated on the Mimesis Corporation's activities, but it is needed to find the proves of its abominations. Moving among experiments of chimerism and xenografts, in a web of interests that involves even who should be foreign to it, Helena Wolff investigates on Volk's activities, until the last, definitive clash.

Is there life after death? After a tragic accident, doctors pronounced Richard Sigmund legally dead. Eight hours later, God miraculously brought him back to life on the way to the morgue.

During those hours, God allowed him to experience the glorious beauty, heavenly sounds, sweet aromas, and boundless joys of heaven that await every believer. God then returned him back to earth with a mission to tell the world what he saw. You will thrill to Sigmund's eyewitness accounts of strolling down heaven's streets of gold, seeing angels playing with children, talking with Jesus, meeting with people from the Bible, as well as departed family and friends, seeing the mansions, and much more! Through Sigmund's testimony, God restored sight to the blind, hearing to the deaf, and even raised several people from the dead. Also, glimpse into the horrifying reality of "the other place"—a place where no one wants to go.

In his apostolic letter *Patris Corde* ("With a Father's Heart"), Pope Francis reflects on Saint Joseph and his multifaceted role as a father. The purpose of this letter, Pope Francis writes, "is to increase our love for this great saint, to encourage us to implore his intercession and to imitate his virtues and his zeal." Saint Joseph is a beloved father; a tender, loving father; an obedient father; an accepting father; a creatively courageous father; a working father; and a father in the shadows. As protector, advocate, and guardian of the Holy Family, Saint Joseph has always been venerated as a father to all Christians. With this letter, promulgated on the 150th anniversary of the declaration of Saint Joseph as Patron of the Universal Church, Pope Francis proclaimed a Year of Saint Joseph from December 8, 2020, to December 8, 2021. *Patris Corde* ends with a new prayer to Saint Joseph, and the OSV edition includes additional prayers and a litany to this beloved saint.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

In this uplifting and practical book, written in collaboration with his biographer, Austen Ivereigh, the preeminent spiritual leader explains why we must—and how we can—make the world safer, fairer, and healthier for all people now. In the COVID crisis, the beloved shepherd of over one billion Catholics saw the cruelty and inequity of our society exposed more vividly than ever before. He also saw, in the resilience, generosity, and creativity of so many people, the means to rescue our society, our economy, and our planet. In direct, powerful prose, Pope Francis urges us not to let the pain be in vain. He begins *Let Us Dream* by exploring what this crisis can teach us about how to handle upheaval of any kind in our own lives and the world at large. With unprecedented candor, he reveals how three crises in his own life changed him dramatically for the better. By its very nature, he shows, crisis presents us with a choice: we make a grievous error if we try to return to some pre-crisis state. But if we have the courage to change, we can emerge from the crisis better than before. Francis then offers a brilliant, scathing critique of the systems and ideologies that conspired to produce the current crisis, from a global economy obsessed with profit and heedless of the people and environment it harms, to politicians who foment their people's fear and use it to increase their own power at their people's expense. He reminds us that Christians' first duty is to serve others, especially the poor and the marginalized, just as Jesus did. Finally, the Pope offers an inspiring and actionable blueprint for building a better world for all humanity by putting the poor and the planet at the heart of new thinking. For this plan, he draws not only on sacred sources, but on the latest findings from renowned scientists, economists, activists, and other thinkers. Yet rather than simply offer prescriptions, he shows how ordinary people acting together despite their differences can discover unforeseen possibilities. Along the way, he offers dozens of wise and surprising observations on the value of unconventional thinking, on why we must dramatically increase women's leadership in the Church and throughout society, on what he learned while scouring the streets of Buenos Aires with garbage-pickers, and much more. *Let Us Dream* is an epiphany, a call to arms, and a pleasure to read. It is Pope Francis at his most personal, profound and passionate. With this book and with open hearts, we can change the world.

Based on a true story, *The Prince* is a "complex, informed, and intelligent saga" (Kirkus Reviews) about the web of love, betrayal, and murder that forged the most powerful criminal organization in history—the Mafia. In this remarkable novel, author Vito Bruschini brilliantly evokes the charismatic figure of Prince Ferdinando Licata, a wealthy Sicilian landowner who uses his personal power and charm to placate Sicilian peasants and fight off Mussolini's fascists. As tensions rise in Italy during the 1930s, with increasingly violent consequences, Licata attracts many friends and even more enemies. Eventually implicated in a grisly murder, the prince flees to America, where he ends up navigating a turf war between Irish and Italian gangs of the Lower East Side. Violence explodes in unexpected ways as Licata gains dominance over New York, with the help of a loyal

townsman with blood ties to the prince who is forced to abandon his fiancée in Sicily. The two men return to their native land at the height of World War II in an outrageously bold maneuver engineered by Licata and mobster Lucky Luciano. Both the prince and his kinsman assist US naval intelligence during the invasion of Sicily and, once they are back on their native soil, they proceed to settle unfinished business with their enemies and unravel old secrets in a stunning and sinister finale. Through a spellbinding story and unforgettable characters, Bruschini depicts in visceral detail the dark intertwining roots of loyalty and betrayal, poverty and privilege, secrets and revelations that contributed to the rise of the Mafia in Sicily and America.

Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel *The Name of the Rose*, he was one of Italy's most celebrated intellectuals, a distinguished academic and the author of influential works on semiotics. Some years before that, in 1977, Eco published a little book for his students, *How to Write a Thesis*, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and translated into seventeen languages, *How to Write a Thesis* has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. *How to Write a Thesis* is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid “thesis neurosis” and he answers the important question “Must You Read Books?” He reminds students “You are not Proust” and “Write everything that comes into your head, but only in the first draft.” Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. *How to Write a Thesis* belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit nicely between two other classics: *Strunk and White* and *The Name of the Rose*. Contents The Definition and Purpose of a Thesis • Choosing the Topic • Conducting Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft

The World as I See It is a book by Albert Einstein translated from the German by A. Harris and published in 1935 by John Lane The Bodley Head. The original German book is *Mein Weltbild* by Albert Einstein, first published in 1934 by Rudolf Kayser.

Francesco returns to infuse us with breath when life appears to be meaningless. In the fourth installment of the blockbuster franchise that has transformed the lives of thousands of readers, Francesco is back with a renewed vigor: to become the master of love. His mission is to descend to earth and show those suffering how to fix their problems without them being aware of his presence. Throughout this book, Francesco is a part of the tangling and misunderstandings between two souls as they argue about his presence, all the while he stands by their sides. Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Describes the case of a young woman suffering from anxiety attacks, explains how hypnosis revealed her memories of past lives, and discusses the usefulness of regression therapy

The sexual revolution: an evocative term, but what meaning can be given to it today? How does 'sexuality' come into being and what connections does it have with the changes that have affected personal life on a more general plane? In answering these questions, Anthony Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture. The emergence of what the author calls plastic sexuality - sexuality freed from its intrinsic relation to reproduction - is analysed in terms of the long-term development of the modern social order and social influences of the last few decades. Giddens argues that the transformation of intimacy, in which women have played the major part, holds out the possibility of a radical democratization of the personal sphere. This book will appeal to a large general audience as well as being essential reading for students and professionals.

Walkscapes deals with strolling as an architecture of landscape. Walking as an autonomous form of art, a primary act in the symbolic transformation of the territory, an aesthetic instrument of knowledge and a physical transformation of the 'negotiated' space, which is converted into an urban intervention. From primitive nomadism to Dada and Surrealism, from the Lettrist to the Situationist International, and from Minimalism to Land Art, this book narrates the perception of landscape through a history of the traversed city.

Literary Nonfiction. *CALIBAN AND THE WITCH* is a history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages to the witch-hunts and the rise of

mechanical philosophy, Federici investigates the capitalist rationalization of social reproduction. She shows how the battle against the rebel body and the conflict between body and mind are essential conditions for the development of labor power and self-ownership, two central principles of modern social organization."It is both a passionate work of memory recovered and a hammer of humanity's agenda." Peter Linebaugh, author of *The London Hanged*"

Twenty years after the asylum where he had spent much of his life is closed, Francis Petrel recounts dark memories about the unsolved murder of a young nurse and anticipates an upcoming reunion with his former fellow patients, an event that is haunted by the possible return of the killer. Reprint.

Offers a study of culture in the sixteenth century as seen through the eyes of one man, the miller known as Menocchio, who was accused of heresy during the Inquisition and sentenced to death. This book illustrates the confusing political and religious conditions of the time.

With 160 million copies of the Twilight Saga sold worldwide, this addictive love story between a teenage girl and a vampire redefined romance for a generation. Here's the book that started it all. Isabella Swan's move to Forks, a small, perpetually rainy town in Washington, could have been the most boring move she ever made. But once she meets the mysterious and alluring Edward Cullen, Isabella's life takes a thrilling and terrifying turn. Up until now, Edward has managed to keep his vampire identity a secret in the small community he lives in, but now nobody is safe, especially Isabella, the person Edward holds most dear. The lovers find themselves balanced precariously on the point of a knife-between desire and danger. Deeply romantic and extraordinarily suspenseful, Twilight captures the struggle between defying our instincts and satisfying our desires. This is a love story with bite. "People do not want to just read Meyer's books; they want to climb inside them and live there."--Time "A literary phenomenon."--The New York Times

This manual has been designed and written with the purpose of introducing key concepts and areas of debate around the "creative economy", a valuable development opportunity that Latin America, the Caribbean and the world at large cannot afford to miss. The creative economy, which we call the "Orange Economy" in this book (you'll see why), encompasses the immense wealth of talent, intellectual property, interconnectedness, and, of course, cultural heritage of the Latin American and Caribbean region (and indeed, every region). At the end of this manual, you will have the knowledge base necessary to understand and explain what the Orange Economy is and why it is so important. You will also acquire the analytical tools needed to take better advantage of opportunities across the arts, heritage, media, and creative services.

Kiyomi's behaviour is growing increasingly erratic and it soon becomes clear that her life - and her humanity - are in danger. Kenny is faced with an impossible choice - does he save his friend or fulfil his duty?"--Publisher description.

What I'm offering in this book is the awareness that we can return to a full-time position of inspiration, which is the true meaning of our life." Dr. Wayne W. Dyer.....INSPIRATION In this groundbreaking book, Dr. Wayne W. Dyer explains how we've chosen to enter this world of particles and form. From our place of origin, in ways that we don't readily comprehend now, we knew what we were coming here to accomplish, and we participated in setting this life process in motion. So why not think along these same lines? Why put the responsibility or blame on any one or any thing that's not a part of us? On Earth we have the capacity of volition we can choose so let's assume that we had the same capacity when we resided in the spiritual realm. We chose our physical body, and we chose the parents we needed for the trip. It doesn't seem too great a stretch to move into the idea that we chose this life in concert with our Source. Inspiration can be cultivated and be a driving force throughout life, rather than showing up every now and then and just as mysteriously disappearing, seemingly independent of our desires. Inspiration is for everyone! It isn't reserved for high-profile creative geniuses in the arts and sciences it's inherent in our Divine birthright. The problem is that as children we're gradually taught to believe exclusively in the world of phenomena where ego is dominant and inspiration diminished. As you read each chapter in this book, you'll find specific suggestions for living "in-Spirit." From a very personal viewpoint, Wayne offers a blueprint through the world of inspiration your ultimate calling.

In his revolutionary book *Miracles Happen*, Brian Weiss M.D., the New York Times bestselling author of *Many Lives, Many Masters*, examines the physical, emotional, and spiritual healing that is possible when you freely accept and embrace the reality of reincarnation. Trained as a traditional psychotherapist, Dr. Weiss began to explore how reincarnation and past life regression can lead us to our higher selves after a startling encounter with a patient. Now a leading proponent of past-life therapy, Dr. Weiss shows us that, indeed, *Miracles Happen*, with seemingly incredible but true stories that demonstrate how, by getting in touch with and understanding our past lives, we can dramatically improve the present.

In 1861, when war erupted between the States, President Lincoln made an impassioned plea for volunteers. Determined not to remain on the sidelines, Emma Edmonds cropped her hair, donned men's clothing, and enlisted in the Union Army. Posing in turn as a slave, peddler, washerwoman, and fop, Emma became a cunning master of disguise, risking discovery and death at every turn behind Confederate lines.

Because he spends so much time perfecting his flying form instead of concentrating on getting food, a seagull is ostracized by the rest of the flock.

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works "invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism." Mirrors, Galeano's most ambitious project since Memory of Fire, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: "Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??" Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, Mirrors is a magic mosaic of our humanity.
