A beautiful story about imagination and taking your time to appreciate the world around you A giant, a child, a trip: here are the three elements of this story that could seem classic. And yet, this adventure that lasts only a day's time will forever change the two heroes. Anyone wanting to understand how Giant City State Park in rural Makanda earned its name need only hike on the Giant City Nature Trail. Here they walk through the park's namesake rock formations, carved 20,000 years ago by the melting waters of a Pleistocene glacier that stopped a mere 1.5 miles from the park. Yet it wasn't until 1933 to 1941, when the Civilian Conservation Corps (CCC) operated its three work camps, that man blazed his most notable trail in the park's history. The CCC's work since then has been enjoyed by millions of park visitors to its stone picnic shelters, trails throughout the park, and the massive Giant City Lodge.

An engrossing memoir of escaping the First Liberian Civil War and building a life in the United States When Wayétu Moore turns five years old, her father and grandmother throw her a big birthday party at their home in Monrovia, Liberia, but all she can think about is how much she misses her mother, who is working and studying in faraway New York. Before she gets the reunion her father promised her, war breaks out in Liberia. The family is forced to flee their home on foot, walking and hiding for three weeks until they arrive in the village of Lai. Finally, a rebel

soldier smuggles them across the border to Sierra Leone, reuniting the family and setting them off on yet another journey, this time to the United States. Spanning this harrowing journey in Moore's early childhood, her years adjusting to life in Texas as a black woman and an immigrant, and her eventual return to Liberia, *The Dragons, the Giant, the Women* is a deeply moving story of the search for home in the midst of upheaval. Moore has a novelist's eye for suspense and emotional depth, and this unforgettable memoir is full of imaginative, lyrical flights and lush prose. In capturing both the hazy magic and the stark realities of what is becoming an increasingly pervasive experience, Moore shines a light on the great political and personal forces that continue to affect many migrants around the world, and calls us all to acknowledge the tenacious power of love and family.

Graham Jarvis has been at the top of off-road motorcycling for the best part of twenty-five years and has competed in

hundreds of competitions and races all over the world, from TV's Junior Kickstart in the early 1990s to the fabled and ridiculously perilous Erzberg Rodeo, which Graham has won a record-equalling five times and is one of motorsport's most feared events. Having excelled at Trials and Enduro, Graham then moved into the high-octane world of Hard Enduro, one of the most exhilarating sports on two wheels. Since then, he has all but dominated the sport and has won Hard Enduro's five major events - the Erzberg Rodeo, the Red Bull Sea to Sky, the Red Bull Romaniacs, the Tough One and Hell's Gate - on no fewer than thirty occasions, making him one of motorsport's most successful athletes. In *Conquering the Iron Giant*, Graham will take us from his early years in Canterbury, where he started pulling wheelies from the age of four on a bike that his dad had rescued from the tip, to competing against up to 1,800 riders in races where dozens are often airlifted to hospital, and only three or four finish . . . with Graham usually at the head of the field. It is a story of dedication, skill and, above all, an extreme passion for off-road motorcycling.

In Giant, Plaxico Burrell takes you into the locker room, onto the practice field, and into the huddle, providing a flat-out-honest look at life on and off the field with the New York Giants and at the making of a champion. Throughout the 2007 season, Plaxico battled near-crippling injuries, and despite rarely practicing, being heavily bandaged, and on serious painkillers, he led the New York Giants in receptions, yards, and touchdowns. He continued to play through pain in the playoffs, only to be further injured before Super Bowl XLII. Playing the arrogant Patriots—who were inviting the Giants to their victory party before the game was over—Plaxico concealed a significant injury that might have changed the outcome of the game if the Pats had known. When he first joined the Giants, Plaxico expected to be the go-to guy for the young quarterback Eli Manning. What he didn't expect was the media and fan scrutiny that was heaped on Manning as they battled to win games. What Plaxico also didn't expect was the difficult relationship he had with head coach Tom Coughlin, who was a stickler for discipline and who would fine players for even the mildest offenses. For five years Plaxico had played for the laid-back Bill Cowher and the Pittsburgh Steelers. In contrast, within weeks of joining the Giants, Plaxico and Coughlin were butting heads, and the fines followed. But there to make things a little easier were friends like Jeremy Shockey and Amani Toomer, nearly polar opposites. With Shock, everything was always full-tilt and his mouth would usually get him into trouble. Toomer was the easygoing elder statesman—at times absentminded, but a brilliant receiver. And in 2007, Manning, with Plaxico's advice and support, would rise above the scrutinizing media and come into his own, and Coach Coughlin would relax his grip somewhat and let the team breathe. The results were obvious. It's all here. The ups and downs, the trash-talking, the sweat and blood, and what it takes to be the best.

Many recognize Giant City State Park as one of the premier recreation spots in southern Illinois, with its unspoiled forests, glorious rock formations, and famous sandstone lodge. But few know the park's history or are aware of the remarkable men who struggled to build it. Giant City State Park and the Civilian Conservation Corps: A History in Words and Pictures provides the first in-depth portrait of the park's creation, drawing on rarely seen photos, local and national archival research, and interviews to present an intriguing chapter in Illinois history. Kay Rippelmeyer traces the geological history of the park, exploring the circumstances that led to the breathtaking scenery for which Giant

City is so well known, and providing insightful background on and cultural history of the area surrounding the park. Rippelmeyer then outlines the effects of the Great Depression and the New Deal on southern Illinois, including relief efforts by the Civilian Conservation Corps, which began setting up camps at Giant City in 1933. The men of the CCC, most of them natives of southern and central Illinois, are brought to life through vividly detailed, descriptive prose and hundreds of black-and-white photographs that lavishly illustrate life in the two camps at the park. This fascinating book not only documents the men's hard work—from the clearing of the first roads and building of stone bridges, park shelters, cabins, and hiking and bridle trails, to quarry work and the raising of the lodge's famous columns—it also reveals the more personal side of life in the two camps at the park, covering topics ranging from education, sports, and recreation, to camp newspapers, and even misbehavior and discipline. Supplementing the photographs and narrative are engaging conversations with alumni and family members of the CCC, which give readers a rich oral history of life at Giant City in the 1930s. The book is further enhanced by maps, rosters of enrollees and officers, and a list of CCC camps in southern Illinois. The culmination of three decades of research, Giant City State Park and the Civilian Conservation Corps provides the most intimate history ever of the park and its people, honoring one of Illinois's most unforgettable places and the men who built it.

Memory, mythology, and obsession collide in this “slyly charming” (New York Times Book Review) account of the giant squid. In 1874, Moses Harvey—eccentric Newfoundland reverend and amateur naturalist—was the first person to photograph the near-mythic giant squid, draping it over his shower curtain rod to display its magnitude. In *Preparing the Ghost*, what begins as Harvey's story becomes spectacularly “slippery and many-armed” (NewYorker.com) as Matthew Gavin Frank winds his narrative tentacles around history, creative nonfiction, science, memoir, and meditations about the interrelated nature of them all. In his full-hearted, lyrical style, Frank weaves in playful forays about his trip to Harvey's Newfoundland home, his own childhood and family history, and a catalog of peculiar facts that recall Melville's story of obsession with another deep-sea dwelling leviathan. “Totally original and haunting” (Flavorwire), *Preparing the Ghost* is a delightfully unpredictable inquiry into the big, beautiful human impulse to obsess.
