During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, "The South must not only fight her own battles but sing her own songs and dance to music composed by her own children." Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

Presents an illustrated tribute to the lives and legacies of the Gershwins that is presented through the stories of twelve of their most enduring songs including "Strike Up the Band" and "Love Is Here to Stay."

Favorite Songs that people sang in the old days.

For decades, scholars have been trying to answer the question: how was colonial Burma perceived in and by the Western world, and how did people in countries like the United Kingdom and United States form their views? This book explores how Western perceptions of Burma were influenced by the popular music of the day. From the First Anglo-Burmese War of 1824-6 until Burma regained its independence in 1948, more than 180 musical works with Burma-related themes were written in English-speaking countries, in addition to the many hymns composed in and about Burma by Christian missionaries. Servicemen posted to Burma added to the lexicon with marches and ditties, and after 1913 most movies about Burma had their own distinctive scores. Taking Rudyard Kipling's 1890 ballad 'Mandalay' as a critical turning point, this book surveys all these works with emphasis on popular songs and show tunes, also looking at classical works, ballet scores, hymns, soldiers' songs, sea shanties, and film soundtracks. It examines how they influenced Western perceptions of Burma, and in turn reflected those views back to Western audiences. The book sheds new light not only on the West's historical relationship with Burma, and the colonial music scene, but also Burma's place in the development of popular music and the rise of the global music industry. In doing so, it makes an original contribution to the fields of musicology and Asian Studies.

This special enhanced eBook includes twelve Gershwin classics performed by Michael Feinstein and commentary from the author on the music and the lives of George and Ira

Gershwin. From celebrated entertainer Michael Feinstein comes a beautifully illustrated account of the lives and legacies of the Gershwins—told through stories of twelve of their greatest songs. The “Ambassador of the Great American Songbook” Michael Feinstein was just twenty years old when he got the chance of a lifetime: a job with his hero, Ira Gershwin. During their six-year partnership, the two became close friends. Feinstein blossomed under Gershwin’s mentorship and Gershwin was reinvigorated by the younger man’s zeal for his and his brother George’s legacy. Now, in *The Gershwins and Me*, the only book of its kind, Michael Feinstein shares unforgettable stories and reminiscences from the music that defined American popular song, along with rare Gershwin memorabilia he’s collected through the years. From “Strike Up the Band” to “Love Is Here to Stay,” each of the twelve chapters highlights one of the Gershwins’ classic songs, exploring the brothers’ lives, illuminating what the music meant to them, and telling the stories of how their iconic tunes came to life. Throughout the star-studded narrative, Feinstein unfolds the moving chronicle of his own life with the Gershwins, describing his vision for their enduring presence today. No other writer could give us such an authoritative inside perspective on these titans of American culture—and no other writer could include such a soulful collection of music as Feinstein’s original recordings of the twelve songs. A timeless classic and the definitive account of the Gershwins and their legacy, *The Gershwins and Me* will have you humming with every turn of the page.

*Moving Forward, Looking Back: Trains, Literature, and the Arts in the River Plate* by Sarah M. Misemer argues that the train is paradoxically an anachronistic and modern indicator of River Plate national identity when seen in the literature and film of the region. The train's connections with new concepts of time and space, as well as the rise of the industrial age, make it a symbol loaded with cultural meanings. This project traces the importance of the train as a marker of key moments in Argentine and Uruguayan history from 1854 to the present (nation-building, neo-colonialism, modernization/industrialization, dictatorship, privatization, and debt crisis). Through textual, filmic, and historical accounts this study demonstrates that the train is not simply an icon of the nineteenth-century's Naturalist movement, but rather a powerful contemporary metaphor for authors and directors of the River Plate as they communicate/create collective memory and cultural values in a region mired in uneven spurts of modernization and progress. Many critical shifts in concepts of time and society's consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century. These innovations restructured the way people viewed the world and dealt with "public" and "private" time. The forward, projectile motion along a linear track mimicked the passage of public chronological time. Conversely, the train also invoked a private, nostalgic view of time as the traveler was yanked from his/her traditional view of the space/time continuum via the train's velocity. Travelers observed the landscape "disappear" in their backward glance from the window---although the landscape and interior compartment's space remained stagnant. This optical illusion caused passengers to perceive the world in new ways. Thus, the train unveils a conflictive blend of nostalgia and progress in the River Plate, as these countries move forward, but look back. Celebrated authors such as Jorge Luis Borges, Alfonsina Storni, Armonia Somers, Juan Carlos Onetti, Roberto Cossa, Eduardo Rovner, and Felisberto Hernandez, all feature the train prominently in their work and are included here. The previous lacuna in academic criticism on this topic is puzzling considering the persistence of authors in Argentina and Uruguay who continue to focus on the train. Misemer's work offers a beginning study of the underrepresented field of railway literature and film in the Hispanic world by some of the most influential authors and cinematographers of their time. Each chapter reveals how rail systems denote watershed moments in the region's development, and shows how these are transformed and transfixed in the River Plate's population's memories through fictional and visual renderings. This book is offered as a first step in acquainting rail aficionados and lovers of literature with the literary terrain of the Southern Cone through a multi-genre approach. (Piano Vocal). Every night, somewhere in the world, three or four musicians will climb on stage together. Whether the gig is at a jazz club, a bar, or a bar mitzvah, the performance never begins with a note, but with a question. The trumpet player might turn to the bassist and ask, “Do you know ‘Body and Soul’?”—and from there the subtle craft of playing the jazz repertoire is tested in front of a live audience. These ordinary musicians may never have played together—they may never have met—so how do they smoothly put on a show without getting booed offstage. In “Do You Know . . . ?” Robert R. Faulkner and Howard S. Becker—both jazz musicians with decades of experience performing—present the view from the bandstand, revealing the array of skills necessary for working musicians to do their jobs. While learning songs from sheet music or by ear helps, the jobbing musician’s lexicon is dauntingly massive: hundreds of thousands of tunes from jazz classics and pop standards to more exotic fare. Since it is impossible for anyone to memorize all of these songs, Faulkner and Becker show that musicians collectively negotiate and improvise
