Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their Code of Honor is to Do No Harm.

For too long Christians have embraced a minuscule understanding of reward. In this brilliantly written book, Timothy Babatunde challenges your thought pattern, authoritatively stating that reward did not originate from man, but from God to motivate and bless His people; hence, it is something Christians should boldly expect for every work done. He offers a fresh understanding of the impact and the various facets of reward; and begins setting the stage for this inspiring work with the story of two students who have worked very hard and at par with each other, gunning for the same prize, but in the reward from man, only one of these two students will have the ultimate prize. The question remains, who? Our existence on earth is not a dress rehearsal, it's the real deal. For whatever works done on earth, there is a reward; what manner of reward it turns out to be, remains to be seen, as every work is weighed by motive and tested by fire to determine the quality. For while many give their lives to Christ, few then go on to live a life of truly vibrant faith. He offers tangible ways to develop a faith of pursuing, knowing and loving Christ in all that you do as a Christian, with the consciousness that there is a reward for every work done, no matter how small. This book will show you that your earnest expectation of a reward is truly just the beginning of your best life yet.

Who among us hasn't treasured memories of yesteryear told to us by our 'elders'? Aleta Miller has gathered vignettes and woven them into a tapestry of life in a Sierra Gold Rush mining town exotically named Port Wine (near Whiskey Diggins and Poker Flat). She has captured the essence of California's pioneer spirit, mining nuggets of real life stories that lay buried under yesteryear's journalism: Two story deep snowdrifts compete with a mountain visitor in a Locomobile. Civil War politics blend in with birth pains of the new California statehood. Downhill ski races lift spirits of beleaguered residents of Port Wine and La Porte, also known as Rabbit Creek. Uncontrollable fires gut reconstructed towns with diabolical regularity. In addition, we meet colorful characters who have touched the hills including Black Bart, Dutch Kate, Bret Harte, the Blue Lake Monster and Sasquatch. There is something for everyone in this delightful read. Aleta Farren Miller, as a young girl, became enamored of California gold country history during occasional visits to the Davis Motor Mine. The mine tunneled into a mountainside within a mile of Port Wine, CA. It was operated by Aleta's cousins Fred and Durward Davis and produced a modest quantity of gold. Aleta was enchanted by the remoteness of the location as well as by the surroundings which have changed very little over the last 100 years. Passing encounters with "old timers" and whimsical poetry adorning grave sites in the Pioneer Cemetery stimulated a growing interest. Many of her relatives and even a pet parrot are buried there. With the help of her mother, Rilla Farren Cross, other family members, the archives of Bancroft Library at U.C. Berkeley, and The Mountain Messenger Newspaper at Downieville, CA, the interest culminated in Aleta investing almost a decade undertaking this collection of what now may be classified as journalistic memorabilia. We are indebted to her instinctive ability to sort out and preserve this remarkable collection of memories. Her own background and personal experiences make her uniquely capable of understanding and synthesizing the insight that she gained from that time in California history.

Drew Maddox is a rough Private Investigator who believes what his eyes can see and his senses feel. He has very little use for imagination and flights of fantasy annoy him, yet when a naked woman suddenly appears on the road in front of his truck it sends his brain tumbling and his life into a spiral of myth he can barely comprehend. Pandimora wears her name well, causing her own flurries of Pandemonium just by existing. Born to a mother rumored to have the madness in her, Pandimora is different than most fairies in the Realm of Aisywel. She has little regard for the incredible histories of her people, nor of the supposed rules. While not an outright rebel, she skirts the laws of Faerie propriety, but no more so than when she overhears a conversation her ears should never have found. A high elder, one of the strongest and most magical of her people has committed a crime - and now he knows that she has heard, and seen him. Pandimora has fled, but not before the elder, Lukais wraps his dark tentacles of power around her, poisoning her and barring the doors to her realm - forever. Hurt and grieving, Pandimora awakens on a snowy road - moments from being hit by Drew Maddox's fast moving truck. Her senses muddled, her powers muffled and her entire sense of self shaken, Pandimora reaches out to Drew in desperation, finding in him the young boy she once danced with in a field. With cord of attachment fully realized between them, Faerie magic is at play, pulling them both deep into a mire of intrigue and deceit - one that sets this unlikely pair against an entire realm of mystical beings with their own rules, trials and meanings. "Find Me" is Book One in the new Faeries Lost Trilogy - an epic journey into the center of the unknown and the hearts of two souls that can never be.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

New York City was being systematically crippled by crimes committed in a very organized fashion. Communities and neighborhoods were paralyzed with fear. Just when all hope seemed lost, the tide turned. Rumors spread about a group of renegade crime fighters with extraordinary powers. They called themselves, The Unbeatables. Henry Fleming (Strongman) was their leader. They were superhero pioneers. No flashy names. No dazzling uniforms. As a result of their heroic efforts, The Unbeatables introduced Genvars (Genetic Variations) to a skeptical world that up to that point considered the occasional grainy video footage of someone displaying abnormal powers to be nothing more than a hoax. Soon, more Genvars came out of hiding. But their assimilation into society was met with resistance and trepidation.

Civil unrest was threatening the very foundation of the country. The government held controversial hearings to deal with the fear and unrest that was crippling the country. Genvars desperately needed a leader to unite and represent them. They wanted Strongman. Through his own chronological narrative, Henry Fleming gives us an unabashed accounting of his extraordinary life. Whether it's the searing pain of a broken heart, the unapologetic dispensing of justice, or his lifelong search for the answer to the same question we each ask ourselves. Why Am I here? Sometimes it's not who we think we are that matters as much as who other people believe we are.

This is a new edition of Greg Louganis's 1995 #1 New York Times bestselling autobiography and Literary Guild Selection. It is the unflinchingly honest first-person account of a man breaking free of a lifetime of silence and isolation. Born to a young Samoan father and Northern European mother, and adopted at nine months, Greg began diving at age nine, and at sixteen won a silver medal at the 1976 Montreal Olympics. But despite his astonishing athletic skill, Greg struggled with late-detected dyslexia, prejudice toward his dark skin coloring and anguish over his homosexuality, which he felt compelled to hide. Being in the spotlight intensified his difficulties with relationships and substance abuse. However, Louganis went on to win double gold medals at the 1984 and 1988 Olympics. His triumph at the 1988 Olympics came several months after he tested positive for HIV. This is the haunting, searingly candid story of the world's greatest diver. This new edition includes a new foreword.

The record-breaking gymnast provides a firsthand look into the world of the female athlete as she shows what it takes to achieve athletic perfection, offering inspiring stories from her own experience, anecdotes, and practical advice that reveal the mindset of a top competitor. 75,000 first printing.

I want to talk with you about these drives that all men have; gold, glory and girls. I want to keep you from the emptiness that you will certainly experience if these three G's are the focus of your life. Then I want to talk about God, but not in a stuffy, churchy way. You don't need the typical religious approach to life. This often leads to boredom, guilt, business and frankly substitutes the emptiness of gold, glory and girls with another kind of emptiness peddled as the answer to life. I am not going to take you there. I want you to fill the emptiness in your heart and help you find a joy and fulfillment that you have never had before. I want you to experience manly challenge, incredible achievement and find out why you were really made - your true life's purpose. So buckle your seat belt. Get ready for the ride of your life!

Fabulous piece of writing. It is really quite astounding that Machen is largely forgotten as a writer. In *The Secret Glory*, I particularly loved Machen's satirical social comments about the class system, Christian hypocrisy and the sadistic puritanism of English Public Schools. This isn't always an easy book to read but it is very rewarding, and after reading, like the best literary works, carves out a place for itself in one's psyche. (M.J. Johnson)
