The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Developed specifically for the first part of a two-year global history course, this text covers world history through the Enlightenment period.

The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals (Einstein), institutions and disciplines (Mathematics), general themes (Romantic Science) and central concepts (Paradigm and Fact). The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn.

There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

This practical guide presents six research-tested historical investigations along with all corresponding teacher materials and tools that have improved the historical thinking and argumentative writing of academically diverse students.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Minnesota History was first published in 1960. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Anyone interested in Minnesota history, whether as a teacher, as a student, or as a general reader, will find this an invaluable guide to reading and study. The book contains an outline of the state's history, questions and suggestions for the student, and lists of reading material for each of the 42 topical sections into which the outline is divided. The outline covers the entire history of the state from the time of the Indians, before the French and British explorations, to the present. The reading references include accounts written from the seventeenth through the twentieth centuries. The aim in preparing the reading lists was to include any article or book bearing upon the Minnesota story which met the qualifications of good historical writing and fair accessibility. Materials of particular interest or importance to the topic under consideration are so designated, and there are liberal annotations to help the reader in his choice of readings. References which are particularly appropriate for young readers are also specially designated. A number of maps are provided for additional guidance. This is a complete revision of a book long out of print, *Minnesota History: A Study Outline* by Theodore C. Blegen.

In this non-fiction book, *My Family*, find out about different family members and what they can do. This book is part of Project X
