

Henry VIII The English Monarchs Series

If you want to discover the captivating history of the Tudors, then keep reading... Four captivating manuscripts in one book: The Tudors: A Captivating Guide to the History of England from Henry VII to Elizabeth I The Wars of the Roses: A Captivating Guide to the English Civil Wars That Brought down the Plantagenet Dynasty and Put the Tudors on the Throne The Six Wives of Henry VIII: A Captivating Guide to Catherine of Aragon, Anne Boleyn, Jane Seymour, Anne of Cleves, Catherine Howard, and Katherine Parr Elizabeth I: A Captivating Guide to the Queen of England Who Was the Last of the Five Monarchs of the House of Tudor Five Tudor monarchs sat on the throne of England and Ireland from 1485 to 1603. The family earned their royal rights through strategic planning and battlefield prowess, and kept them because of intellect, strength and sheer determination. The Tudors, one of England's most powerful and famous royal dynasties, knitted together a fragmented and small island nation that became one of the world's financial, colonial and technological superpowers. There is so much more to the story of these kings and queens than beheadings, political marriages and the reformation of the church - but those events remain some of the family's most enthralling moments. Some of the topics covered in part 1 of this book include: The Tudors of Wales The Wars of the Roses Catherine of Valois, Mother of the Tudor Dynasty Margaret Beaufort, Second Tudor Matriarch King Henry VII Arthur Tudor King Henry VIII Margaret Tudor, Sister of Henry VIII Mary Tudor, Queen of France The Birth of the Church of England King Henry VIII: Wives Two and Three King Henry VIII: The Last Three Wives King Edward VI The Nine Days' Queen, Jane Grey Elizabeth Tudor Mary Stuart, Queen of Scots And much more! Some of the topics covered in part 2 of this book include: A Short History of the House of Plantagenet Civil War in France England's Loss and a King's Illness Treason by the Duke of York The Battle of Northampton Margaret's Army Mortimer's Cross and the Battle of Towton York Takes the Throne The King in the Tower The Kingmaker Repents The Battles of Barnet and Tewkesbury The Death of a King The Final Plantagenet Kings Richard III and the Princes in the Tower The Battle of Bosworth The Foundation of the Tudor Dynasty Attempts on the Tudor Throne The Sainthood and Cult of King Henry VI The Legacy of the Wars of the Roses And much, much more! Some of the topics covered in part 3 of this book include: Henry Tudor Catherine of Aragon Mistress Elizabeth Blount Mistress Mary Boleyn Anne Boleyn Anne of Cleves Mistress Mary Shelton The Wooing of Jane Seymour Catherine Howard The Culpeper Affair Katherine Parr More Theories on Henry Tudor's Fertility The Illegitimate Children of Henry VIII And much more! Some of the topics covered in part 4 of this book include: The Birth of a Future Queen From Princess to Lady Elizabeth and the Royal Stepmothers The Teenaged Princess A Flurry of Successions Queen Elizabeth I Sir Francis Drake and the Elizabethan Settlements Mary, Queen of Scots and War with Spain Arts and Culture in Elizabethan England The End of the Tudor Dynasty And much, much more! So if you want to learn more about Tudor history, click the "add to cart" button!

Forget everything you thought you knew about Henry the Eighth. While Henry VIII has frequently been portrayed as a womanizer, author Philippa Jones reveals a new side to his character. Although he was never faithful, Jones sees him as a serial monogamist: he spent his life in search of a perfect woman, a search that continued even as he lay dying. This book brings together for the first time the 'other women' of King Henry VIII. When he first came to the throne, Henry VIII's mistresses were dalliances, the playthings of a powerful and handsome man. However, when Anne Boleyn disrupted that pattern, ousting Katherine of Aragon to become Henry's wife, a new status quo was established. Suddenly noble families fought to entangle the king with their sisters and daughters; if wives were to be beheaded or divorced so easily, the mistress of the king was in an enviable position. Yet he loved each of his wives and mistresses, he was a romantic who loved being in love, but none of these loves ever fully satisfied him; all were ultimately replaced. "The Other Tudors" examines the extraordinary untold tales of the women who Henry loved but never married, the mistresses who became queens and of his many children, both acknowledged and unacknowledged. Philippa Jones takes us deep into the web of secrets and deception at the Tudor Court and explores another, often unmentioned, side to the King's character. "In this new book, James P. Carley, a leading scholar in the emerging field of book history, describes Henry VIII's libraries and shows their key role in providing a more intimate understanding of this seemingly familiar monarch and his consorts. The books of the wives, moreover, show them to have been as independent and innovative as the king himself. The extensive illustrations allow us to examine both the bindings and the contents of the collection, and also provide us with examples of his immediate voice in the form of the marginalia that he inserted into his books."--BOOK JACKET.

Edward I—one of the outstanding monarchs of the English Middle Ages—pioneered legal and parliamentary change in England, conquered Wales, and came close to conquering Scotland. A major player in European diplomacy and war, he acted as peacemaker during the 1280s but became involved in a bitter war with Philip IV a decade later. This book is the definitive account of a remarkable king and his long and significant reign. Widely praised when it was first published in 1988, it is now reissued with a new introduction and updated bibliographic guide. Praise for the earlier edition: "A masterly achievement. . . . A work of enduring value and one certain to remain the standard life for many years."—Times Literary Supplement "A fine book: learned, judicious, carefully thought out and skillfully presented. It is as near comprehensive as any single volume could be."—History Today "To have died more revered than any other English monarch was an outstanding achievement; and it is worthily commemorated by this outstanding addition to the . . . corpus of royal biographies."—Times Education Supplement

The monarchy is one of Britain's longest surviving institutions - as well as one of its most tumultuous and revered. In this masterful book, David Starkey looks at the monarchy as a whole, charting its magnificent history from Roman times, to the Wars of the Roses, the chaos of the Civil War, the fall of Charles I and Cromwell's emergence as Lord Protector - all the way up until the Victorian era when Britain's monarchs came face-to-face with modernity. This brilliant book, in part a collection of biographies of Britain's kings and queens, provides an in-depth examination of what the British monarchy has meant, what it means now and what it will continue to mean. Bringing to life a cast of colourful characters, Starkey's trademark energy and authority make him the perfect guide on this epic, accessible and compelling journey, as he offers us a vivid portrait of British culture, politics and nationhood through an institution that has defined the realm for nearly two thousand years.

From medieval conqueror to Renaissance autocrat to Victorian Empress to modern melodrama, Royal Panoply is the story of some of the most fascinating people in world history. With her trademark blend of probing scholarship, lively prose, and psychological insight, Carolly Erickson focuses on each monarch's entire life—from the puny, socially awkward Charles I, to the choleric, violent William the Conqueror, to the well-meaning, deeply affectionate Queen Anne, who was so heavy she had to be carried to her coronation. Royal Panoply recaptures the event-filled, often dangerous, always engaging lives of England's kings and queens, set against the backdrop of a thousand years of Britain's past.

Charismatic, insatiable and cruel, Henry VIII was, as John Guy shows, a king who became mesmerized by his own legend - and in the process destroyed and remade England. Said to be a 'pillager of the commonwealth', this most instantly recognizable of kings remains a figure of extreme contradictions: magnificent and vengeful; a devout traditionalist who oversaw a cataclysmic rupture with the church in Rome; a talented, towering figure who nevertheless could not bear to meet people's eyes when he talked to them. In this revealing new account, John Guy looks behind the mask into Henry's mind to explore how he understood the world and his place in it - from his isolated upbringing and the blazing glory of his accession, to his desperate quest for fame and an heir and the terrifying paranoia of his last, agonising, 54-inch-waisted years.

Edward VI was the son of Henry VIII and his second wife, Jane Seymour. He ruled for only six years (1547-1553) and died at the age of sixteen. But these were years of fundamental importance in the history

of the English state, and in particular of the English church. This new biography reveals for the first time that, despite his youth, Edward had a significant personal impact. Jennifer Loach draws a fresh portrait of the boy king as a highly precocious, well educated, intellectually confident, and remarkably decisive youth, with clear views on the future of the English church. Loach also offers a new understanding of Edward's health, arguing that the cause of his death was a severe infection of the lungs rather than tuberculosis, the commonly accepted diagnosis. The author views Edward not as a sickly child but as a healthy and vigorous boy, devoted to hunting and tournaments like any young aristocrat of the day. This book tells the story of the monarch and of his time. It supplies the dramatic context in which the short reign of Edward VI was played out—the momentous religious changes, factional fights, and popular risings. And it offers vivid details on Edward's increasing absorption in politics, his consciousness of his role as supreme head of the English church, his determination to lay the foundation for a Protestant regime, and how his failure in this ambition brought England to the brink of civil war.

A leading historian reveals how, from even before the Reformation, the Tudors sought to sustain and enhance their authority by representing themselves to their people through the media of building, print, art, material culture and speech.

'Borman approaches her topic with huge enthusiasm and a keen eye for entertaining...this is a very human story of a remarkable family, full of vignettes that sit long in the mind.' Dan Jones, *The Sunday Times* 'Tracy Borman's eye for detail is impressive; the book is packed with fascinating courtly minutiae... this is a wonderful book.' *The Times* 'Borman is an authoritative and engaging writer, good at prising out those humanising details that make the past alive to us.' *The Observer* 'Fascinating, detailed account of the everyday reality of the royals... This is a book of rich scholarship.' *Daily Mail* 'Tracy Borman's passion for the Tudor period shines forth from the pages of this fascinatingly detailed book, which vividly illuminates what went on behind the scenes at the Tudor court.' Alison Weir 'I do not live in a corner. A thousand eyes see all I do.' Elizabeth I The Tudor monarchs were constantly surrounded by an army of attendants, courtiers and ministers. Even in their most private moments, they were accompanied by a servant specifically appointed for the task. A groom of the stool would stand patiently by as Henry VIII performed his daily purges, and when Elizabeth I retired for the evening, one of her female servants would sleep at the end of her bed. These attendants knew the truth behind the glamorous exterior. They saw the tears shed by Henry VII upon the death of his son Arthur. They knew the tragic secret behind 'Bloody' Mary's phantom pregnancies. And they saw the 'crooked carcass' beneath Elizabeth I's carefully applied makeup, gowns and accessories. It is the accounts of these eyewitnesses, as well as a rich array of other contemporary sources that historian Tracy Borman has examined more closely than ever before. With new insights and discoveries, and in the same way that she brilliantly illuminated the real Thomas Cromwell - *The Private Life of the Tudors* will reveal previously unexamined details about the characters we think we know so well.

This detailed biography concentrates on the domestic life of the monarch, foreign affairs in which he was involved and his influence on religion. Bibliogs

A “brilliantly written and meticulously researched” biography of royal family life during England's second Tudor monarch (San Francisco Chronicle). Either annulled, executed, died in childbirth, or widowed, these were the well-known fates of the six queens during the tempestuous, bloody, and splendid reign of Henry VIII of England from 1509 to 1547. But in this “exquisite treatment, sure to become a classic” (Booklist), they take on more fully realized flesh and blood than ever before. Katherine of Aragon emerges as a staunch though misguided woman of principle; Anne Boleyn, an ambitious adventuress with a penchant for vengeance; Jane Seymour, a strong-minded matriarch in the making; Anne of Cleves, a good-natured woman who jumped at the chance of independence; Katherine Howard, an empty-headed wanton; and Katherine Parr, a warm-blooded bluestocking who survived King Henry to marry a fourth time. “Combin[ing] the accessibility of a popular history with the highest standards of a scholarly thesis”, Alison Weir draws on the entire labyrinth of Tudor history, employing every known archive—early biographies, letters, memoirs, account books, and diplomatic reports—to bring vividly to life the fates of the six queens, the machinations of the monarch they married and the myriad and ceaselessly plotting courtiers in their intimate circle (*The Detroit News*). In this extraordinary work of sound and brilliant scholarship, “at last we have the truth about Henry VIII's wives” (*Evening Standard*).

An essential biography that uncovers the childhood and youth of Henry VIII! Perfect for readers of Alison Weir, Tracy Borman and Antonia Fraser. What transformed a chivalrous prince into a tyrannical king? Henry VIII is one of England's most famous kings, yet what do we know of his childhood? What was life like for the young prince growing up in the royal palaces? And just how influential were the people surrounding Henry in shaping the suspicious, vain and ruthless monarch he would later become? Marie Louise Bruce's engrossing account of Henry's formative years brings to life the splendour of the Tudor court and of Henry's childhood, from his birth at the palace of Placentia at Greenwich in 1491 to his accession to the throne at the age of seventeen in 1509. Henry Tudor's upbringing was one of luxury and adulation, of sumptuous feasts, horsemanship, tournaments and jousting. Yet it was overshadowed by threat and uncertainty, and the rebellions conspirators, traitors and pretenders of his youth were to contribute to the prince's sense of insecurity in later life. Drawing on a wealth of contemporary sources, Bruce paints a vivid picture of Henry's boyhood - what he ate and wore, the games he played and the ceremonies he attended. She also evaluates the characters of the people surrounding the prince, and of the wider social events that influenced and shaped the future king of England. *The Making of Henry VIII* provides fascinating insight into the childhood and youth of this Renaissance prince. It is an ideal read for those who wish to find out more about the domestic details of young Henry's daily life and the people who shared it, the lessons of his times and surroundings.

NEW YORK TIMES BESTSELLER • Bestselling historian Alison Weir tells the poignant, suspenseful and sometimes tragic story of Elizabeth, eldest daughter of the Yorkist King Edward IV and sister of the Princes in the Tower, a woman whose life was inextricably caught up in the turmoil of the Wars of the Roses and the establishment of the usurping Tudor dynasty. She was the wife of Henry VII and mother of Henry VIII. Many are familiar with the story of the much-married King Henry VIII of England and the celebrated reign of his daughter, Elizabeth I. But it is often forgotten that the life of the first Tudor queen, Elizabeth of York, Henry's mother and Elizabeth's grandmother, spanned one of England's most dramatic and perilous periods. Now New York Times bestselling author and acclaimed historian Alison Weir presents the first modern biography of this extraordinary woman, whose very existence united the realm and ensured the survival of the Plantagenet bloodline. Her birth was greeted with as much pomp and ceremony as that of a male heir. The first child of King Edward IV, Elizabeth enjoyed all the glittering trappings of royalty. But after the death of her father; the disappearance and probable murder of her brothers—the Princes in the Tower; and the usurpation of the throne by her calculating uncle Richard III, Elizabeth found her world turned upside-down: She and her siblings were declared bastards. As Richard's wife, Anne Neville, was dying, there were murmurs that the king sought to marry his niece Elizabeth, knowing that most people believed her to be England's rightful queen. Weir addresses Elizabeth's possible role in this and her covert support for Henry Tudor, the exiled pretender who defeated Richard at the Battle of Bosworth and was crowned Henry VII, first sovereign of the House of Tudor. Elizabeth's subsequent marriage to Henry united the houses of York and Lancaster and signaled the end of the Wars of the Roses. For centuries historians have asserted that, as queen, she was kept under Henry's firm grasp, but Weir shows that Elizabeth proved to be a model consort—pious and generous—who enjoyed the confidence of her husband, exerted a tangible and beneficial influence, and was revered by her son, the future King Henry VIII. Drawing from a rich trove of historical records, Weir gives a long overdue and much-deserved look at this unforgettable princess whose line descends to today's British monarch—a woman who overcame tragedy and danger to become one of England's most beloved consorts. Praise for Elizabeth of York “Weir tells Elizabeth's story well. . . . She is a meticulous scholar. . . . Most important, Weir sincerely admires her subject, doing honor to an almost forgotten queen.”—*The New York Times Book Review* “In [Alison] Weir's skillful hands, Elizabeth of York returns to

us, full-bodied and three-dimensional. This is a must-read for Tudor fans!"—Historical Novels Review "This bracing biography reveals a woman of integrity, who . . . helped [her husband] lay strong groundwork for the success of the new Tudor dynasty. As always in a Weir book, the tenor of the times is drawn with great color and authenticity."—Booklist "Weir once again demonstrates that she is an outstanding portrayer of the Tudor era, giving us a fully realized biography of a remarkable woman."—Huntington News

A vivid and original portrait of the year the young Henry VIII assumes the throne, revealing a kingdom at a crossroads between two dynamic monarchs and two ages of history. England, 1509. Henry VII, the first Tudor monarch, is dead; his successor, the seventeen-year-old Henry VIII, offers hope of renewal and reconciliation after the corruption and repression of the last years of his father's reign. The kingdom Henry inherits is not the familiar Tudor England of Protestantism and playwrights. It is still more than two decades away from the English Reformation, and ancient traditions persist: boy bishops, pilgrimages, Corpus Christi pageants, the jewel-decked shrine at Canterbury. So Great a Prince offers a fascinating portrait of a country at a crossroads between two powerful monarchs and between the worlds of the late Middle Ages and the Renaissance. Historian Lauren Johnson tells the story of 1509 not just from the perspective of the young king and his court, but from the point of view of merchants, ploughmen, apprentices, laundresses, and foreign workers. She looks at these early Tudor lives through the rhythms of annual rituals, juxtaposing political events in Westminster and the palaces of southeast England with the religious, agrarian, and social events that punctuated the lives of the people of young Henry VIII's England.

Married to loyal Lancaster supporter Sir Richard Pole to minimize her claim to the throne of Henry VII, Margaret becomes an advisor to newlyweds Prince Arthur and Katherine of Aragon before witnessing the rapid ascent of Henry VIII. By the best-selling author of *The White Princess*. 200,000 first printing.

Who invented the 'House of Windsor' as a royal name? Who founded Westminster Abbey? Which king had twenty-one illegitimate children? David Hilliam answers all of these questions and more. Here is a continuous history of the English monarchy, showing how the nine dynasties rose and fell. The book describes the most memorable features of the life and times of each king and queen - from Egbert, crowned in 802 and considered the first king of England, to Queen Elizabeth II - as well as recording the extraordinary lives of their queens, consorts, mistresses and bastard children. It also tells the story of the Saxons, describes what has happened to the monarchs' mortal remains, and relates many lively incidents of royal history that rarely appear in the text books. Read of the saintly Edward the Confessor, who is believed to have refused to consummate his marriage; of the rumbustious Henry VIII, given to beheading those who displeased him; of the 'little gentleman in black velvet', who caused the death of William III; and of Queen Victoria's strangest servant, the 'Munshi', Queen Emma, who endured a trial by ordeal; and Anne Boleyn, widely suspected of being a witch. A complete list of the monarchs' reigns and a genealogical table showing the royal descent down thirty-seven generations from Egbert to Elizabeth II adds to the volume's reference value.

'An outstanding work of historical artistry, a brilliantly woven and pacy story of the men who surrounded, influenced and sometimes plagued Henry VIII.' Alison Weir Henry VIII is well known for his tumultuous relationships with women, and he is often defined by his many marriages. But what do we see if we take a different look? When we see Henry through the men in his life, a new perspective on this famous king emerges. Henry's relationships with the men who surrounded him reveal much about his beliefs, behaviour and character. They show him to be capable of fierce, but seldom abiding loyalty; of raising men only to destroy them later. He loved to be attended and entertained by boisterous young men who shared his passion for sport, but at other times he was more diverted by men of intellect, culture and wit. Often trusting and easily led by his male attendants and advisers during the early years of his reign, he matured into a profoundly suspicious and paranoid king whose favour could be suddenly withdrawn, as many of his later servants found to their cost. His cruelty and ruthlessness would become ever more apparent as his reign progressed, but the tenderness that he displayed towards those he trusted proves that he was never the one-dimensional monster that he is often portrayed as. In this fascinating and often surprising new biography, Tracy Borman reveals Henry's personality in all its multi-faceted, contradictory glory.

An intimate history of England's most infamous royal family.

HISTORY Do you know that Henry VIII was happily married for almost 20 years to the same queen before meeting his other wives? Do you know Queen Elizabeth refused to marry in spite of all the men who loved her? And do you know what particular events during Queen Victoria's long reign contributed to making the British Empire the biggest ever? English monarchs have fascinated the world for centuries.

We are all curious to find out about their lives, their loves, their ambitions and their secrets. Dossiers: Reading a Painting and others

Henry VIII Yale University Press

Founder of the Tudor dynasty, Henry VII was a crucial figure in English history. In this acclaimed study of the king's life and reign, the distinguished historian S. B. Chrimes explores the circumstances surrounding Henry's acquisition of the throne, examines the personnel and machinery of government, and surveys the king's social, political, and economic policies, law enforcement, and foreign strategy.

This edition of the book includes a new critical introduction and bibliographical updating by George Bernard.

Set during the same years of Henry VIII's life as *The Tudors*, this book charts his rise as a magnificent and ruthless monarch immortalized as a domineering king, notorious philanderer, and the unlikely benefactor of a new church, Henry VIII became a legend during his own reign. Who, though, was the young royal who would grow up to become England's most infamous ruler? Robert Hutchinson's *Young Henry* examines Henry Tudor's childhood beginnings and subsequent rise to power in the most intimate retelling of his early life to date. While Henry's elder brother Arthur was scrupulously groomed for the crown by their autocratic father, the ten-year-old "spare heir" enjoyed a more carefree childhood, given prestige and power without the looming pressures of the throne. Everything changed for the young prince, though, when his brother died. Henry was nine weeks shy of his eighteenth birthday when he inherited both his brother's widow and the crown. As King, Henry preferred magnificence and merriment to his royal responsibilities, sweeping away the musty cobwebs of his father's court with feasting, dancing, and sport. Frustrated, too, by the seeming inability of his wife, Katherine of Aragon, to produce an heir, Henry turned his attention to a prospective second queen whose name would endure as long as his: Anne Boleyn. With the king still lacking a successor by the age of 35, however, the time for youthful frolic had come to an end. Divorcing his wife and the Catholic Church, executing his lover and his violent will, Henry charged forward on a scandalous path of terrifying self-indulgence from which there was no turning back. *Young Henry* is an illuminating portrait of this tyrannical yet groundbreaking king—before he transformed his country, and the face of the monarchy, irrevocably.

The first in a ground-breaking two-volume history of Henry III's rule "Professor Carpenter is one of Britain's foremost medievalists...No one knows more about Henry, and a lifetime of scholarship is here poured out, elegantly and often humorously. This is a fine, judicious, illuminating work that should be the standard study of the reign for generations to come."--Dan Jones, *The Sunday Times* Nine years of age when he came to the throne in 1216, Henry III had to rule within the limits set by the establishment of Magna Carta and the emergence of parliament. Pacific, conciliatory, and deeply religious, Henry brought many years of peace to England and rebuilt Westminster Abbey in honor of his patron saint, Edward the Confessor. He poured money into embellishing his palaces and creating a magnificent court. Yet this investment in "soft power" did not prevent a great revolution in 1258, led by Simon de Montfort, ending Henry's personal rule. Eminent historian David Carpenter brings to life Henry's character and reign as never before. Using source material of unparalleled richness--material that makes it possible to get closer to Henry than any other medieval monarch--Carpenter stresses the king's achievements as

well as his failures while offering an entirely new perspective on the intimate connections between medieval politics and religion.

Shortlisted for the Wolfson History Prize 2018 A Book of the Year for the Evening Standard and the Observer A black porter publicly whips a white Englishman in the hall of a Gloucestershire manor house. A Moroccan woman is baptised in a London church. Henry VIII dispatches a Mauritanian diver to salvage lost treasures from the Mary Rose. From long-forgotten records emerge the remarkable stories of Africans who lived free in Tudor England... They were present at some of the defining moments of the age. They were christened, married and buried by the Church. They were paid wages like any other Tudors. The untold stories of the Black Tudors, dazzlingly brought to life by Kaufmann, will transform how we see this most intriguing period of history.

Each book in the Problems in Focus series is designed to make available to students important new work on key historical problems and periods that they encounter on their courses. This volume is devoted to the reign of Henry VIII.

What determined success or failure in Renaissance monarchy? Why was warfare endemic in Europe in the early sixteenth century and how did the great cultural and artistic changes of the period flourish amid this conflict? How did rival kings relate to each other and what steps did they each take to strengthen their monarchies? In short, how did they govern? Renaissance Monarchy approaches these and related issues in a revealing way, providing the first single-volume comparative history of the most renowned kings of the Renaissance: the Holy Roman Emperor Charles V, Francis I of France and Henry VIII of England. Bringing these three kings together, out of the relative isolation in which they are each studied, adds a fresh dimension to our understanding of contemporary ideals of kingship and reveals how these monarchs strove to be regarded as great warriors, effective governors and generous patrons.

What's so special about Henry VIII Of England? In this new, compelling book from author Asha Richardson, find out more about Henry VIII Of England ... Henry VIII was King of England from 21 April 1509 until his death. He was Lord, and later King, of Ireland, as well as continuing the nominal claim by the English monarchs to the Kingdom of France. Henry was the second monarch of the House of Tudor, succeeding his father, Henry VII. Besides his six marriages, Henry VIII is known for his role in the separation of the Church of England from the Roman Catholic Church. Henry's struggles with Rome led to the separation of the Church of England from papal authority, the Dissolution of the Monasteries, and establishing himself as the Supreme Head of the Church of England. Yet he remained a believer in core Catholic theological teachings, even after his excommunication from the Catholic Church. Henry oversaw the legal union of England and Wales with the Laws in Wales Acts 1535-1542. Henry was considered an attractive, educated and accomplished king in his prime and has a reputation as "one of the most charismatic rulers to sit on the English throne". Besides ruling with absolute power, he also engaged himself as an author and composer. His desire to provide England with a male heir—which stemmed partly from personal vanity and partly because he believed a daughter would be unable to consolidate the Tudor Dynasty and the fragile peace that existed following the Wars of the Roses—led to the two things for which Henry is remembered: his six marriages, and the English Reformation, making England a mostly Protestant nation. In later life he became morbidly obese and his health suffered; his public image is frequently depicted as one of a lustful, egotistical, harsh, and insecure king. So, what separates this book from the rest? A comprehensive narrative of Henry VIII Of England, this book gives a full understanding of the subject. A brief guide of subject areas covered in "1491 Births - Henry VIII Of England" include -- Henry VIII of England- English Reformation- Dissolution of the Monasteries- Italian War of 1542-1546- First Siege of Boulogne- Tudor navy- Wives of Henry VIII- Cultural depictions of Henry VIII of England Find out more of this subject, it's intricacies and it's nuances. Henry VIII's forceful personality dominated his age and continues to fascinate our own. In few other reigns have there been developments of such magnitude—in politics, foreign relations, religion, and society—that have so radically affected succeeding generations. Above all the English Reformation and the break with Rome are still felt more than four centuries on. First published in 1968, J. J. Scarisbrick's Henry VIII remains the standard account, a thorough exploration of the documentary sources, stylishly written and highly readable. In an updated foreword, Professor Scarisbrick takes stock of subsequent research and places his classic account within the context of recent publications. "It is the magisterial quality of J.J. Scarisbrick's

work that has enabled it to hold the field for so long."—Steve Gunn, Times Literary Supplement

"Elizabeth of York (11 February 1466? 11 February 1503) was Queen consort of England as spouse of King Henry VII from 1486 until 1503. Elizabeth of York was a daughter, sister, niece, wife, mother and grandmother of English monarchs - Edward IV, Edward V, Richard III, Henry VII, Henry VIII and Edward VI, Mary and Elizabeth respectively. All English monarchs beginning with Henry VIII are descendants of Elizabeth of York; either through Henry VIII (for Edward VI, Mary I and Elizabeth I), or through Margaret Tudor, Queen of Scots."--Wikipedia.

One of the most powerful monarchs in British history, Henry VIII ruled England in unprecedented splendour. In this remarkable composite biography, Alison Weir brings Henry's six wives vividly to life, revealing each as a distinct and compelling personality in her own right. Drawing upon the rich fund of documentary material from the Tudor period, *The Six Wives of Henry VIII* shows us a court where personal needs frequently influenced public events and where a life of gorgeously ritualised pleasure was shot through with ambition, treason and violence. 'At last we have the truth about Henry VIII's wives. This book is as reliable and scholarly as it is readable' Evening Standard

"Bad behavior makes for entertaining history" in this bold history of Europe, the Middle East, and the men who ruled them in the early sixteenth century (Kirkus Reviews). John Julius Norwich—"the very model of a popular historian"—is acclaimed for his distinctive ability to weave together a fascinating narrative through vivid detail, colorful anecdotes, and captivating characters. Here, he explores four leaders—Henry VIII, Francis I, Charles V, and Suleiman—who led their countries during the Renaissance (The Wall Street Journal). Francis I of France was the personification of the Renaissance, and a highly influential patron of the arts and education. Henry VIII, who was not expected to inherit the throne but embraced the role with gusto, broke with the Roman Catholic Church and appointed himself head of the Church of England. Charles V was the most powerful man of the time, and unanimously elected Holy Roman Emperor. And Suleiman the Magnificent—who stood apart as a Muslim—brought the Ottoman Empire to its apogee of political, military, and economic power. These men collectively shaped the culture, religion, and politics of their respective domains. With remarkable erudition, John Julius Norwich offers "an important history, masterfully written," indelibly depicting four dynamic characters and how their incredible achievements—and obsessions with one another—changed Europe forever (The Washington Times).

Henry Tudor is probably the best known king in English history, most famous for having had six wives. Henry wanted immortality, not as a notorious husband, but as a king who made England strong and powerful. Essential to that, he believed, was the provision of a male heir, but Henry became so desperate to father a legitimate son that he divorced one wife, beheaded another, disposed of two chief ministers and declared himself head of the Church in England. His personality was overwhelming. He could be boisterously playful and passionately in love, but, as disappointments mounted, he became increasingly bitter and tyrannical. This seminal Pitkin guide to one of England's greatest monarchs has been revised and updated for 2019. Fully illustrated throughout in a fresh, contemporary style, and featuring all the lavish paintings of the time, it also includes all the latest representations of Henry VIII in the media, as well as a list of relevant locations to visit.

Charts the rise the history of the British monarchy from the War of the Roses, The English Civil War, and the Georgians right up until the monarchs in the 20th Century. This work includes biographies of kings and queens and presents a reappraisal of English nationhood, culture and politics, shown through the central institution in English life.

Meyer's fresh storytelling ability breathes new life into the history of the Tudor family and Tudor England's precarious place in world politics, the critical role religion played in government, and the blossoming of English theater and literature.

"Fascinating . . . Alison Weir does full justice to the subject."—The Philadelphia Inquirer At his death in 1547, King Henry VIII left four heirs to the English throne: his only son, the nine-year-old Prince Edward; the Lady Mary, the adult daughter of his first wife Katherine of Aragon; the Lady Elizabeth, the teenage daughter of his second wife Anne Boleyn; and his young great-niece, the Lady Jane Grey. In this riveting account Alison Weir paints a unique portrait of these extraordinary rulers, examining their intricate relationships to each other and to history. She traces the tumult that followed Henry's death, from the brief intrigue-filled reigns of the boy king Edward VI and the fragile Lady Jane Grey, to the savagery of "Bloody Mary," and finally the accession of the politically adroit Elizabeth I. As always, Weir offers a fresh perspective on a period that has spawned many of the most enduring myths in English history, combining the best of the historian's and the biographer's art. "Like anthropology, history and biography can demonstrate unfamiliar ways of feeling and being. Alison Weir's sympathetic collective biography, *The Children of Henry VIII* does just that, reminding us that human nature has changed--and for the better. . . . Weir imparts movement and coherence while re-creating the suspense her characters endured and the suffering they inflicted."—The New York Times Book Review

Henry I, son of William the Conqueror, ruled from 1100 to 1135, a time of fundamental change in the Anglo-Norman world. This long-awaited biography, written by one of the most distinguished medievalists of his generation, offers a major reassessment of Henry's character and reign. Challenging the dark and dated portrait of the king as brutal, greedy, and repressive, it argues instead that Henry's rule was based on reason and order. C. Warren Hollister points out that Henry laid the foundations for judicial and financial institutions usually attributed to his grandson, Henry II. Royal government was centralized and systematized, leading to firm, stable, and peaceful rule for his subjects in both England and Normandy. By mid-reign Henry I was the most powerful king in Western Europe, and with astute diplomacy, an intelligence network, and strategic marriages of his children (legitimate and illegitimate), he was able to undermine the various coalitions mounted against him. Henry strove throughout his reign to solidify the Anglo-Norman dynasty, and his marriage linked the Normans to the Old English line. Hollister vividly describes Henry's life and reign, places them against the political background of the time, and provides analytical studies of the king and his magnates, the royal administration, and relations between king and church. The resulting volume is one that will be welcomed

by students and general readers alike.

A history focused on the monarchs' intimate daily lives that "furnishes readers with a 'Hey, did you know...?' on almost every page" (The New York Times Book Review). England's Tudor monarchs—Henry VII, Henry VIII, Edward VI, Mary I, and Elizabeth I—are perhaps the most celebrated of history's royal families. But for all we know about them, their lives away from the public eye remain largely beyond our grasp. Here, an acclaimed historian delves deep behind the public facade of the monarchs, showing us what their lives were like beyond the stage of the court. Drawing on original material from those closest to them—courtiers like the "groom of the stool," a much-coveted position, surprisingly—Tracy Borman examines Tudor life in fine detail. What did the monarchs eat? What clothes did they wear, and how were they designed, bought, and cared for? How did they wield power? When sick, how were they treated? What games did they play? How did they practice their faith? And whom did they love, and how did they give birth to the all-important heirs? Exploring their education, upbringing, and sexual lives, and taking us into the kitchens, bathrooms, schoolrooms, and bedrooms at court, *The Private Lives of the Tudors* charts the course of the entire dynasty, surfacing new and fascinating insights into these celebrated figures. "No royal family is better known...But there's still much to learn from *The Private Lives of the Tudors* thanks to the expertise and persistence of Borman...The most captivating moments of *Private Lives*, and there are plenty of them, bring the reader into other personal Tudor moments of strength, weakness, and heartache."?Christian Science Monitor "Comprehensively researched and compulsively readable...thoroughly entertaining."?Minneapolis Star Tribune

Despite its reputation as the longest established in Europe, the history of the English monarchy is punctuated by scandal, murders, betrayals, plots, and treason. Since William the Conqueror seized the crown in 1066, England has seen three civil wars; six monarchs have been murdered or executed; the throne of England has been usurped four times, and won in battle three times; and personal scandals and royal family quarrels abound. *Dark History of The Kings & Queens of England* provides an exciting and dramatic account of English royal history from 1066 to the present day. This engrossing book explores the scandal and intrigue behind each royal dynasty, from the 'accidental' murder of William II in 1100, through the excesses of Richard III, Henry VIII and 'Bloody' Mary, to the conspiracies surrounding the death of Diana, Princess of Wales, in 1997. Carefully researched, superbly entertaining and illustrated throughout with more than 200 colour and black-and-white photographs and artworks, this accessible and immensely enjoyable book highlights the true personalities and real lives of the individuals honoured with the crown of England—and those unfortunate enough to cross their paths.
