Now, he uses that skill in a little-known but crucial job. As a "red teamer," he poses as a threat, testing the security around our highest officials to find vulnerabilities—before our enemies can. He is a mock killer, capable of slipping past even the best defenses. His latest assignment is to assess the security surrounding the former CIA director at his DC area home. But soon after he breaches the man's study, the home's inner sanctum, Nick finds himself entangled in a vicious crime that will shake Washington to its foundations—as all the evidence points to Nick. Nick knows he's the perfect scapegoat. But who is framing him, and why? To clear his name, he must find the truth—a search that leads to a dark conspiracy whose roots stretch back decades. The prize is the most powerful position in the world: the Oval Office. To save himself and the people he loves, Nick must stop the men who rule Washington before they bury him along with their secrets. "This one is a gritty, intense political thriller, filled with nuance and dire exploits. Totally entertaining. A treat from start to finish. —Steve Berry, author of *The Malta Exchange*

From John D. MacDonald, one of the enduring American novelists of the twentieth century, comes a science fiction classic with a timeless premise. An aimless young man discovers a way to stop the world in its tracks—and that's when his life truly begins. Introduction by Dean Koontz Once an ordinary math teacher, Omar Krepps developed a knack for gambling, amassed a fabulous fortune, and spent the rest of his life traveling the world and giving away his millions. Upon his death, however, Krepps bequeaths nothing to his nephew and only living blood relative, Kirby Winter—nothing, that is, except an antique watch and a sealed letter to be opened after one year. But Kirby has much more in his possession than he realizes. The watch has the power to manipulate time. Not only does this revelation shed light on the mystery of his uncle's life, it puts Kirby on the path to unimaginable wealth and a new lease on love . . . as well as a whole host of deadly troubles. Even in a universe where time is no issue, Kirby must tread carefully to stay one step ahead of danger. Praise for John D. MacDonald "To diggers a thousand years from now, the works of John D. MacDonald would be a treasure on the order of the tomb of Tutankhamen."—Kurt Vonnegut "As a young writer, all I ever wanted was to touch readers as powerfully as John D. MacDonald touched me."—Dean Koontz "John D. MacDonald was a writer way ahead of his time."—John Saul

What happens when a snarky hitman and a by-the-book PI cross paths? Leland Being a hitman has its perks, but I never thought getting an accidental mooning by an attractive PI while he's caught on a fence would be one of them. While it's not exactly love at first sight, he's captured my interest and won't let go. Suddenly, I find myself caught in a game of cat and mouse, determined to attract the attention of Jackson, the PI who should be my enemy. He pretends like he's not flattered by my flowers and the mentions of my totally-not-fictitious blow-up doll Randy (or was it Dandy?), but I know better. Why else would he be teaming up with me to bring down Hardek, one of the city's most ruthless criminals? Jackson Even though the cops are telling me that the hitman is a notorious contract killer, I can't help but admit that I'm drawn to him. He's funny, charismatic, and attractive. There's no way this ridiculous man can be the person the cops are after. But when Leland ends up at my doorstep injured, I'm faced with a tough choice. It's my duty to hand him over to law enforcement, but my heart has other plans. I want to keep him. To protect him. To be with him. Though one question remains: why in the world does the man have so many d*mn guns? Contains: shenanigans on a swing that you would NOT find at a playground, a car chase that sadly doesn't have flips or explosions, a horsey ride sans horse, cuddles, an exuberant mutt, a suspicious chief of police, and lots and lots of laughs.
