In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can’t stop thinking about her first love. Lily hasn’t always had it easy, but that’s never stopped her from working hard for the life she wants. She’s come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily’s life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He’s also

sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is "a glorious and touching read, a forever keeper. The kind of book that gets handed down" (USA TODAY).

(Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Contributions by Kiese Laymon, Imani Perry, Laverne Cox, Jason Reynolds, Austin Channing Brown, and more. It started as a text between two friends. Tarana Burke, founder of the ‘me too.’ Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn’t going to be about wallpaper. Tarana’s hello was serious and she hesitated for a bit before saying, “Brené, you know your work affected me so deeply, but as a Black woman, I’ve sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder.” Brené replied, “I’m so glad we’re talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you’re not physically or emotionally safe?” Long pause. “That’s why I’m calling,” said Tarana. “What do you think about working together on a book about the Black experience with vulnerability and shame resilience?” There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of

We spend much of our days talking. Yet we know little about the conversational engine that drives our everyday lives. We are pushed and pulled around by language far more than we realize, yet are seduced by stereotypes and myths about communication. This book will change the way you think about talk. It will explain the big pay-offs to understanding conversation scientifically.

Elizabeth Stokoe, a social psychologist, has spent over twenty years collecting and analysing real conversations across settings as varied as first dates, crisis negotiation, sales encounters and medical communication. This book describes some of the findings of her own research, and that of other conversation analysts around the world.

Through numerous examples from real interactions between friends, partners, colleagues, police officers, mediators, doctors and many others, you will learn that some of what you think you know about talk is wrong. But you will also uncover fresh insights about how to have better conversations - using the evidence from fifty years of research about the science of talk.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review

"Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

Reports of the death of reading are greatly exaggerated. Do you worry that you've lost patience for anything longer than a tweet? If so, you're not alone. Digital-age pundits warn that as our appetite for books dwindles, so too do the virtues in which printed, bound objects once trained us: the willpower to focus on a sustained argument, the curiosity to look beyond the day's news, the willingness to be alone. The shelves of the world's great libraries, though, tell a more complicated story. Examining the wear and tear on the books that they contain, English professor Leah Price finds scant evidence that a golden age of reading ever existed. From the dawn of mass literacy to the invention of the paperback, most readers already skimmed and multitasked. Print-era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions. The evidence that books are dying proves even scarcer. In encounters with librarians, booksellers and activists who are reinventing old ways of reading, Price offers fresh hope to bibliophiles and literature lovers alike.

silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates

"Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But

From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About*

History and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press

How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

INSTANT NEW YORK TIMES BESTSELLER! Now being developed as a television series with Eva Longoria and ABC! “Rarely have I read a book that challenged me to see myself in an entirely new light, and was at the same time laugh-out-loud funny and utterly absorbing.”—Katie Couric “This is a daring, delightful, and transformative book.”—Arianna Huffington, Founder, Huffington Post and Founder & CEO, Thrive Global “Wise, warm, smart, and funny. One day, Lori Gottlieb is a therapist who helps patients in her Los Angeles practice. The next, a crisis causes

her world to come crashing down. Enter Wendell, the quirky but seasoned therapist in whose office she suddenly lands. With his balding head, cardigan, and khakis, he seems to have come straight from Therapist Central Casting. Yet he will turn out to be anything but. As Gottlieb explores the inner chambers of her patients' lives — a self-absorbed Hollywood producer, a young newlywed diagnosed with a terminal illness, a senior citizen threatening to end her life on her birthday if nothing gets better, and a twenty-something who can't stop hooking up with the wrong guys — she finds that the questions they are struggling with are the very ones she is now bringing to Wendell. With startling wisdom and humor, Gottlieb invites us into her world as both clinician and patient, examining the truths and fictions we tell ourselves and others as we teeter on the tightrope between love and desire, meaning and mortality, guilt and redemption, terror and courage, hope and change. *Maybe You Should Talk to Someone* is revolutionary in its candor, offering a deeply personal yet universal tour of our hearts and minds and providing the rarest of gifts: a boldly revealing portrait of what it means to be human, and a disarmingly funny and illuminating account of our own mysterious lives and our power to transform them.

In the present book, *How to Win Friends and Influence People*, Dale Carnegie says, "You can make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want." You learn how to make people like you, win people over to your way of thinking, and change people without causing offense or arousing resentment. For instance, "let the other person feel that the idea is his or hers" and "talk about your own mistakes before criticizing the other person." This book is all about building relationships. With good relationships, personal and business successes are easy and swift to achieve. *Twelve Ways to Win People to Your Way of Thinking*

1. The only way to get the best of an argument is to avoid it.
2. Show respect for the other person's opinions. Never say "You're wrong."
3. If you're wrong, admit it quickly and emphatically.

But beneath its effervescent tone, more complex themes are at play.” —San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of Crash Course, Vlogbrothers, and SciShow—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.
