- The deadliest mistakes to avoid in hypnosis-

BUY THIS BOOK WITH 55% DISCOUNT!! Who controls our lives? If you want to find an answer to this question, keep reading! Manipulation has been around for a long time, and it is not a new or imaginary concept. Understanding what the art of persuasion is really about is vital to help you deal with it. We like to believe that we are individuals who make sensible choices. We do not always have full control of our life journey, and we don't always realize this. As children, we are influenced by our parents and have little control over how we are raised. Once in the education system, teachers will tell us all about the social norms and what is expected of us in society. As adults, we are lured in by politicians trying to get their share of votes. This gives such power to politicians, and their decisions will affect our lives. As for commerce, companies can persuade customers to buy their goods and services. Are we really in control of our lives, or are we merely influenced by those who know all the persuasion tricks? In this book, we will look briefly at the psychology of manipulation. This allows us to see where it might occur in our lives. It will also allow you to identify those who might attempt to manipulate you. It is not only about people who like to dominate. Then, we will find out how to deal with various manipulative methods, even sometimes covert. Do you want to learn the art of mental manipulation, discover subliminal manipulation methods, how to analyze, read body language, NLP techniques, dark seduction, hypnosis and mind control? If yes, then keep reading... Dark Psychology is both the study of criminal and deviant behavior and a conceptual framework in order to decipher the potential of evil that could be found within all of us. The idea with this one is that everyone, even if they realize it or not, will have the potential, if it is going to benefit themselves and even their families enough, to victimize other humans and creatures. Some people are just more willing to do it than others. You may not think about doing this to just get a promotion at work or to get someone to notice you, but you may be willing to hurt other people if you knew it would save your life or save the life of someone in your family. According to dark psychology, every human has a bank of malevolent intentions geared towards other people and these intentions range from fleeting thoughts to minimally obtrusiveness to pure psychopathic deviant characters that are devoid of any form of cohesive rationality. Every human will have had thoughts or feeling of acting towards another person in a brutal manner and many times would have had thoughts or the feelings of hurting someone else without mercy. To be honest with oneself is to accept the fact that at a certain point in time, there has been a feeling of wanting to commit some heinous acts. While many of us are going to restrain or hide this kind of tendency, there are those who are going to see these impulses and decide to act on them. The idea of dark psychology is to seek to understand these perceptions, feelings, thoughts, and even the subjective processing systems that tend to lead to the predatory behavior that is seen as unethical to what most of modern society is going to see as normal or good. This book covers the following topics: Dark psychology traits Nlp How to analyze people Nonverbal -verbal communication Manipulation Subliminal manipulation techniques Favorite victims of manipulators Profiling a sociopath Subconscious mind suggestions Using dark psychology to manipulate a man Identifying hidden manipulation What to do if you get caught Consequences of remaining in manipulative relationships Confidence and how it is displayed Spot the lie Understanding psychopaths Employing manipulation and persuasion to get what you want ...And much more Dark psychology is going to assume that any abusive, deviant, or criminal behaviors that are showing up are done for a purpose. They may be seen as bad or evil, but the other person is doing them for some purpose, and not just because they feel like it. They are going to have a rational goal most of the time. Someone may use abuse to keep their partner in their place to ensure that they are able to get the love and attention they need. Ready to get started? Click "Buy Now"!

Whether you have been experiencing manipulation for years, or if this is something entirely new, psychological manipulation can be tricky to decipher. Mostly because the manipulators themselves are true masters of emotional disguise. More often than not, their sweet talking covers their self-serving, dishonest, and, on the whole, sinister intentions. On top of this confusing mismatch of words and actions, they often try to evoke in their interlocutor powerful feelings of guilt or sympathy, so as to make them more susceptible to manipulation. They can be found anywhere, even in the places we frequent most. It could be your partner, your boss, your neighbor, a co-worker, a distant or close relative, or even a friend. We are talking about people who are masters of certain manipulation techniques and use them to confuse us. Although they are around us, it is not easy to detect these people. Their characteristics and personality traits are not evident. Nobody carries a sign on their foreheads, warning that they are a narcissist or sociopath. This book has all you might need to get ahead in life, economically, emotionally, or even socially.
