Desperately waiting to learn the fate of her soldier brother who was stationed aboard the Arizona during the attack on Pearl Harbor, Piper struggles with strict rationing and blackouts in her Seattle home before her pastor father moves the family to an internment camp with his Japanese-American congregants. 60,000 first printing.

Esperanza Flores is "America's Hope for the Gold!" in this sweet novel about a figure skater who gets the chance to achieve her Olympic dreams. After years of practice and competitions, of sit spins and perfect poses and thrillingly high jumps, Esperanza Flores will be skating for the United States. But with the excitement of an Olympic shot comes new attention -- and BIG distractions. Suddenly Espi can't go out with her friends, or even out her back door, without reporters and autograph-seekers following her every move. The other U.S. figure skaters have a lot more international experience, and they let Espi know they don't think she's ready. And Hunter Wills, the men's figure skating champion, seems to be flirting with her, even as the press matches her up with Danny Morrison, the youngest -- and maybe cutest -- member of the U.S. hockey team. In the

midst of all this, Espi is trying to master an impossible secret jump that just might be her key to a medal.

With a traitor in her midst, Rachel faces losing her life and her heart—all in one

semester At Blackthorn Academy, a peculiar prep school in the mountains of Pennsylvania, students are concerned with all the usual things: homework, hookups, and how to save the world. For Rachel, studying has taken a backseat to a little problem she's having with a supervillain named Simon Blankenship, who is convinced that he's an ancient Roman god and she's a reincarnated goddess whom he must destroy. They've tangled twice before, and Rachel has beaten him narrowly both times, but now Blankenship has done something completely unexpected: He's stolen an important ancient artifact from Blackthorn Academy . . . and disappeared. She and her fellow spies in training wait for Blankenship to show himself while contemplating the possibility of a turncoat in their midst. And as if that weren't enough, Rachel must tangle with a different kind of problem: a totally cute new student, whose eyes are just a little too pretty, and who seems to know just a little too much about Rachel and her past. She must decide quickly—is he boyfriend material, or a traitor?

As a Master Tier player on both EUW and EUNE servers that cares deeply about the state of League of Legends, I had enough of the lack of high quality educational material about the game. So about a year ago, I used my experience as a real life teacher and high elo player and wrote what turned out to be the best selling ebook about improving at League of Legends on Amazon for Season 6 - 30 Days to Diamond. By the way - an improved, enriched and even more detailed version for Season 7 is out and it's called 21 Days to Diamond and Beyond. Ever since the book delivered on the results it promised, I've received dozens of requests from players asking me to write separate, very detailed books about the roles of ADC, Mid lane, Top lane and Jungle that would be adapted for Season 7. Due to the support I got from my dear readers, I felt motivated to roll up my sleeves and produce the best of my work as a results-oriented League of Legends coach. After countless hours of hard work, I am proud to announce that each of the books people wanted me to write is now available to anyone that is open to learning and is willing to get to that next level as a player in their favorite role. So why is League of Legends Mid Lane Mastery worth your time? If you are still paying attention, I am assuming you are an ambitious, competitive person with a winner's mindset that is interested in acquiring all the necessary game knowledge that will help you improve massively as a Mid lane main. Here is a list

of the contributions that this book will make towards your current level of game knowledge: - You will learn what the Mid laner's role and responsibilities are, and there are a lot of specific instructions on what you can do to develop each quality, especially towards the end of the chapter. This includes map awareness, leadership, shot calling and more. - You will learn how to model your champion pool for Mid lane (yes, there is a best way to do it) and how to overcome the disadvantages of facing lane counters. - You will learn the optimal Runes and Masteries setup for each popular Mid laner. - You will learn the intricacies of what you can do to acquire outstanding farming skills. - You will learn the wave management techniques for Mid lane which will help you build a massive advantage over your opponent. - You will learn all you need to know about vision control, which includes the best warding spots for Mid lane on both sides. - You will learn the various ways in which you can influence your Jungler to gank for you more often and give you the Blue Buff every time. - You will learn all you need to know about dominating your trades and how to trade against short-ranged, medium-ranged and long-ranged opponents. - You will learn multiple other principles to dominating the Mid lane (refer to the table of contents). - You will learn the various approaches you should use to extend your advantage and carry your games to victory. - You will also learn all the details you need on how

to play when you are behind in lane. - Lastly, you will learn the practical steps that you can take to cultivate an unstoppable winner's attitude that will also help you have more fun with the game. - There also are a lot of general game knowledge golden nuggets thrown all throughout the book to help you in your journey further. I know this is a big list of things and to some of you it might seem intimidating, but I promise you that once you learn and apply the information in this book in your own gameplay, you will transform completely as a player. Are you excited? Best of luck on the Summoner's Rift!
