Inanna, a goddess of ancient Mesopotamia, was worshipped around 1800 BCE by our ancestors in the land that is now modern-day Iraq. But who was she? Who were her followers? And what did her stories mean for their lives? Lost for millennia, Inanna's stories were buried and forgotten, unearthed by archaeologists only recently, around the turn of the 19th century. Their translation has been a remarkable work of collaboration by scholars from disparate parts of the globe, as fragments of stone tablets were pieced together and the symbols on them recorded, transliterated, and interpreted. And although we still know relatively little about this ancient time, a picture of this extraordinary figure has slowly begun to emerge, through the painstaking work of these dedicated scholars: Inanna the creator, Inanna the destroyer; the leader, the warrior, the lover, the friend. Inanna was a guiding light for her followers, a commanding symbol of justice and honour, and her stories have much to teach a contemporary readership about love, power, independence, and compassion. Now, these stories are brought to vivid, visceral life by beloved Canadian author Kim Echlin, who brings her trademark passion and poet's sensibility to the translation of the Inanna myth. With a new introduction and comprehensive notes, this new English version renders Inanna's powerful story accessible and captivating for a new generation of eager readers.

Who is She, this Sister from Below? She's certainly not about the ordinary business of life: work, shopping, making dinner. She speaks from other realms. If you'll allow, She'll whisper in your ear, lead your thoughts astray, fill you with strange yearnings, get you hot and bothered, send you off on some wild goose chase of a daydream, eat up hours of your time. She's a siren, a seductress, a shapeshifter . . . Why listen to such a troublemaker? Because She is essential to the creative process: She holds the keys to the doors of our imaginations and deeper life the evolution of Soul.

When we think of Inanna, she is usually envisioned as the descending Goddess--and often, it is her time spent in the Underworld that most alluded to. While the Underworld, or the "shadow" is vital, it is equally important to remember what happens after the time spent in the darkness, the void, or the long dark tunnel. We descend our entire lives it seems--only coming up for brief moments of respite. Patriarchy pushes us down repeatedly--and sometimes, we just stay there. Inanna's Ascent examines how women can rise from the underworld and reclaim their power. All contributors are extraordinary women in their own right, who have been through some difficult life lessons--and are brave enough to share their stories.

Did you know that long before prophetic men living in the desert changed the course of history of our planet, a living prophetic tradition of women preached about a much older religion of a Goddess that is LIFE itself? Long before Jesus talked about love, Her priestesses did. Long before the Quran declared the Divine to be the Light of the heavens, Her priestesses did. Why should something that happened thousands of years ago matter to you today? It matters because the Goddess prophetic tradition still lives! Just like debar Yahweh (the word of Yahweh) was heard 3000 years ago, abat Ishtar (the word of Ishtar) still cries for you to hear today. O seeker, if you ask who is Ishtar, look at the stars, they will tell you My story. If you ask where is Ishtar, look deep within your eyes and you shall see Me. If your mind says I don't believe in Ishtar, dwell on the image of your beloved and you will remember Me. In the heart of every man and woman is a star. Seek it and you shall know Me. I am Ishtar and I love you. If you have read the Bible, the Quran, or the Bhagavad Gita, then you owe it to yourself to read

the Codex of Love. It is a book that evokes happiness with every reading, whose words of love fall like gentle rain on parched earth. Read it out loud to yourself and be ready to be amazed by the profound sense of love that surrounds you. You will want to read it again and again because the simplicity of its prose hides intensely deep spiritual teachings. Discover what the Goddess heavenly teachings have to say about: \* Living the spirituality of love even if you have been hurt so many times. \* Enjoying a more peaceful life in a world filled with war and news of terror. \* Finding that true love you always wanted. \* Keeping the fires of love, desire, and passion ablaze in your life. \* Experiencing intense sacred sex that illuminates your soul. \* Walking touched by the spirit of the Goddess every day of your life. Many books have been written on the Goddess, the old religion and neo paganism. Experts talk from an anthropological perspective and some give you basic rituals and hymns. The Codex of Love leaps out, unique in that it is the living words of the Goddess. For the faithful, it is indeed a joy ride of love that gladdens the heart and uplifts the spirit. For the skeptic, it is a pleasurable and tantalizing journey filled with spiritual nuggets of wisdom. No matter your affiliations, if love is your religion at all, you need to read this book.

Robert P. Weller's richly documented account describes the extraordinary transformations which have taken place in Chinese and Taiwanese responses to the environment across the twentieth century. Indeed, both places can be said to have 'discovered' a new concept of nature. The book focuses on nature tourism, anti-pollution movements, and policy implementation to show how the global spread of western ideas about nature has interacted with Chinese traditions. Inevitably differences of understanding across groups have caused problems in administering environmental reforms. They will have to be resolved if the dynamic transformations of the 1980s are to be maintained in the twenty-first century. In spite of a century of independent political development, a comparison between China and Taiwan reveals surprising similarities, showing how globalization and shared cultural traditions have outweighed political differences in shaping their environments. The book will appeal to a broad readership from scholars of Asia, to environmentalists, and anthropologists.

Situated in an area roughly corresponding to present-day Iraq, Mesopotamia is one of the great, ancient civilizations, though it is still relatively unknown. Yet, over 7,000 years ago in Mesopotamia, the very first cities were created. This is the first book to reveal how life was lived in ten Mesopotamian cities: from Eridu, the Mesopotamian Eden, to that potent symbol of decadence, Babylon - the first true metropolis: multicultural, multi-ethnic, the last centre of a dying civilization.

Path-breaking lesbian storyteller & scholar Judy Grahn explores poetry written over four thousand years ago on the life and loves of the great goddess Inanna

"Inspired by Nin-me-'sar-ra, Enheduanna's song to Inanna."

The New York Times bestseller from prizewinning author David Michaelis presents a “stunning” (*The Wall Street Journal*) breakthrough portrait of Eleanor Roosevelt, America’s longest-serving First Lady, an avatar of democracy whose ever-expanding agency as diplomat, activist, and humanitarian made her one of the world’s most widely admired and influential women. In the first single-volume cradle-to-grave portrait in six decades, acclaimed biographer David Michaelis delivers a stunning account of Eleanor Roosevelt’s remarkable life of transformation. An orphaned niece of President Theodore Roosevelt, she converted her Gilded Age childhood of denial and secrecy into an irreconcilable marriage with her ambitious fifth cousin Franklin. Despite their inability to make each other happy, Franklin Roosevelt transformed Eleanor from a settlement house volunteer on New York’s Lower East Side into a matching partner in New York’s most important power couple in a generation. When Eleanor discovered Franklin’s betrayal with her younger, prettier, social secretary, Lucy Mercer, she offered a divorce and vowed to face herself honestly. Here is an Eleanor both more vulnerable and more aggressive, more psychologically aware and sexually adaptable than we knew. She came to accept her FDR’s bond with his executive assistant, Missy LeHand; she allowed her children to live their own lives, as she never could; and she explored her sexual attraction to women, among them a star female reporter on FDR’s first presidential campaign, and younger men. Eleanor needed emotional connection. She pursued deeper relationships wherever she

could find them. Throughout her life and travels, there was always another person or place she wanted to heal. As FDR struggled to recover from polio, Eleanor became a voice for the voiceless, her husband's proxy in the White House. Later, she would be the architect of international human rights and world citizen of the Atomic Age, urging Americans to cope with the anxiety of global annihilation by cultivating a "world mind." She insisted that we cannot live for ourselves alone but must learn to live together or we will die together. This "absolutely spellbinding," (The Washington Post) "complex and sensitive portrait" (The Guardian) is not just a comprehensive biography of a major American figure, but the story of an American ideal: how our freedom is always a choice. Eleanor rediscovers a model of what is noble and evergreen in the American character, a model we need today more than ever. The untold story of the three intelligent and glamorous young women who accompanied their famous fathers to the Yalta Conference in February 1945, and of the conference's fateful reverberations in the waning days of World War II. Tensions during the Yalta Conference in February 1945 threatened to tear apart the wartime alliance among Franklin Roosevelt, Winston Churchill, and Joseph Stalin just as victory was close at hand. Catherine Grace Katz uncovers the dramatic story of the three young women who were chosen by their fathers to travel with them to Yalta, each bound by fierce family loyalty, political savvy, and intertwined romances that powerfully colored these crucial days. Kathleen Harriman was a champion skier, war correspondent, and daughter of U.S. Ambassador to the Soviet Union Averell Harriman. Sarah Churchill, an actress-turned-RAF officer, was devoted to her brilliant father, who depended on her astute political mind. Roosevelt's only daughter, Anna, chosen instead of her mother Eleanor to accompany the president to Yalta, arrived there as keeper of her father's most damaging secrets. Situated in the political maelstrom that marked the transition to a post-war world, *The Daughters of Yalta* is a remarkable story of fathers and daughters whose relationships were tested and strengthened by the history they witnessed and the future they crafted together. The feminist author of *Another Mother Tongue* offers a mythographic study of the interconnections among ancient menstrual rites and the development of agriculture, mathematics, writing, calendars, and other realms of knowledge. *Women's Writing of Ancient Mesopotamia* presents fresh and engaging translations of works that were composed or edited by female scribes and elite women of the ancient Near East. These texts provide insight into the social status, struggles, and achievements of women during the earliest periods of recorded human history (c.2300-540 BCE). In three introductory chapters and a concluding chapter, Charles Halton and Saana Svrd provide an overview of the civilization of ancient Mesopotamia and examine gender by analyzing these different kinds of texts. The translations cover a range of genres, including hymns, poems, prayers, letters, inscriptions, and oracles. Each text is accompanied by a short introduction that situates the composition within its ancient environment and explores what it reveals about the lives of women within the ancient world. This anthology will serve as an essential reference book for scholars and students of ancient history, gender studies, and world literature. Living in 2300 BCE, Sumerian high priestess Enheduanna became the first author of historical record by signing her

name to a collection of hymns written for forty-two temples throughout the southern half of ancient Mesopotamia, the civilization now known as Sumer. Each of her hymns confirmed to the worshipers in each city the patron deity's unique character and significance. The collected hymns became part of the literary canon of the remarkable Sumerian culture and were copied by scribes in the temples for hundreds of years after Enheduanna's death. Betty De Shong Meador offers here the first collection of original translations of all forty-two hymns along with a lengthy examination of the relevant deity and city, as well as an analysis of the verses themselves. She introduces the volume with discussions of Sumerian history and mythology, as well as with what is known about Enheduanna, thought to be the first high priestess to the moon god Nanna, and daughter of Sargon, founder of one of the first empires in human history.

More often than not, people think of astrology as a tool for divination or the exploration of one's personality. Astrology is considerably more than that. It is a sacred science, a highly descriptive symbolic language, and it is also a technology that can be applied to ritual, herbalism, the use of crystals, and much more. This is a practical handbook for any practitioner of magic to use in building individual rituals and creating the most effective magic. Concise, focused, and expertly presented, this book teaches the core concepts of astrology so that wiccans and pagans can truly apply it to their practices.

A fresh retelling of the ancient texts about Ishtar, the world's first goddess. Illustrated with visual artifacts of the period. "A great masterpiece of universal literature."--Mircea Eliade

Beginning with the myth of Inanna's descent to the Underworld, rendered in breathtaking poetry, Betty de Shong Meador sets forth on a journey of the feminine in five stages--poetry, essay, and prose tying together her study of feminine initiation across time and culture. Her description of a Blessingway Sing reveals the balance of feminine and masculine achieved in the Navajo culture. A critique of Doris Lessing's novels captures the felt sense of descent and discovery. Research on a Greek women's ritual--the Thesmophoria--and a survey of recent archeological findings from the ancient goddess cultures add history and substance to the ideas of the feminine. A clinical study of the relationship between female therapist and female client demonstrates one contemporary mode for such exploration. Thus we learn that there are many routes for exploring the lost initiations of women into the progress of their souls and the ways of the Goddess. Fascinating study examines Sumerians, Babylonians, Egyptians, Hittites, Canaanites, Israelites, Persians, others. "...a valuable introduction, perhaps the best available in English." — American Historical Review. 32 halftones. 5 figures. 1 map.

Ishtar is the first book dedicated to providing an accessible analysis of the mythology and image of this complex goddess. The polarity of her nature is reflected in her role as goddess of sexual love and war, and has made her difficult to characterise in modern scholarship. By

exploring this complexity, Ishtar offers insight into Mesopotamian culture and thought, and elucidates a goddess who transcended the limits of gender, divinity and nature. It gives an accessible introduction to the Near Eastern pantheon, while also opening a pathway for comparison with the later Near Eastern and Mediterranean deities who followed her.

The Mistress of Heaven, the goddess Ishtar, stands in a unique position of supremacy among the goddess figures of the world; and her descent into the underworld is her essential distinctive myth. The primacy of the goddess and her lover, Dumuzi, to the seasonal cycle, and the ritual marriage which was a ceremony of the union essential to civilized life, was not retained within the textual Judeo-Christian tradition. As a result this mythological cycle of the goddess restores the expressive sexual metaphor of agricultural fertility, which merges the domestic concerns of womanhood with the essential productive forces of nature. Included along with this essential seasonal myth are two entirely dissimilar tales concerned with military valor, heroic conquest, and the assumption of absolute power; the partially incomplete Mesopotamian tales of 'The Epic of Anzu' and 'Erra and Ishum'.

Ishtar and Ereshkigal are the daughters of the Moon God Sin and sisters of the Sun God Shamash, and members of a family of deities called the Anunnaki, who arrived from the heavens to the earth many thousands of years ago. Ishtar, as Inanna, was the original goddess of love and the forerunner to all of the fertility goddesses that followed. Ereshkigal was the original ruler of the underworld and the goddess of death. As the queens of heaven and the underworld, Ishtar and Ereshkigal represent the opposing forces that allow life, death and rebirth to occur in the world.

"That these poems deal immediately with the very popular 'goddess literature' and with an individual woman in a most important historical situation should give this work widespread appeal." -John Maier, SUNY College at Brockport, cotranslator of the Epic of Gilgamesh The earliest known author of written literature was a woman named Enheduanna, who lived in ancient Mesopotamia around 2300 BCE. High Priestess to the moon god Nanna, Enheduanna came to venerate the goddess Inanna above all gods in the Sumerian pantheon. The hymns she wrote to Inanna constitute the earliest written portrayal of an ancient goddess. In their celebration of Enheduanna's relationship with Inanna, they also represent the first existing account of an individual's consciousness of her inner life. This book provides the complete texts of Enheduanna's hymns to Inanna, skillfully and beautifully rendered by Betty De Shong Meador, who also discusses how the poems reflect Enheduanna's own spiritual and psychological liberation from being an obedient daughter in the shadow of her ruler father. Meador frames the poems with background information on the religious and cultural systems of ancient Mesopotamia and the known facts of Enheduanna's life. With this information, she explores the role of Inanna as the archetypal feminine, the first goddess who encompasses both the celestial and the earthly and shows forth the full scope of women's potential.

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will

nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

The companion volume to The Earth Chronicles series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

Ancient Mesopotamia was a rich, varied and highly complex culture whose achievements included the invention of writing and the development of sophisticated urban society. This book offers an introductory guide to the beliefs and customs of the ancient Mesopotamians, as revealed in their art and their writings between about 3000 B.C. and the advent of the Christian era. Gods, goddesses, demons, monsters, magic, myths, religious symbolism, ritual, and the spiritual world are all discussed in alphabetical entries ranging from short accounts to extended essays. Names are given in both their Sumerian and Akkadian forms, and all entries are fully cross-referenced. A useful introduction provides historical and geographical background and describes the sources of our knowledge about the religion, mythology and magic of "the cradle of civilisation".

A passionate, thought provoking exploration of walking as a political and cultural activity, from the author of the memoir Recollections of My Nonexistence Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which

to walk in our ever more car-dependent and accelerated world.

This Handbook surveys the state of the art in literary authorship studies. Its 27 original contributions by eminent scholars offer a multi-layered account of authorship as a defining element of literature and culture. Covering a vast chronological range, Part I considers the history of authorship from cuneiform writing to contemporary digital publishing; it discusses authorship in ancient Egypt, Greece, Rome, early Jewish cultures, medieval, Renaissance, modern, postmodern and Chinese literature. The second part focuses on the place of authorship in literary theory, and on challenges to theorizing literary authorship, such as gender and sexuality, postcolonial and indigenous contexts for writing. Finally, Part III investigates practical perspectives on the topic, with a focus on attribution, anonymity and pseudonymity, plagiarism and forgery, copyright and literary property, censorship, publishing and marketing and institutional contexts.

Around 2,300 BC Enheduanna was high priestess to the moon god Nanna at his temple in Ur, a position she held for almost forty years. This volume translates Enheduanna's three devotional poems to the goddess Inanna accompanied by an extensive commentary and discussion which places these highly personal and unique expressions within the context of Sumerian culture and religion. The author highlights the importance of the poems and the princess for our understanding of the place of women in Near Eastern society and religion.
