You're about to discover over one thousand Spanish verbs exemplified in Spanish & English sentences. Learning a new language is never an easy task but it doesn't have to be hard. By learning the one thousand most used verbs in a language you give yourself a fantastic foundation to start building upon to your road to fluency. In my book, 1000 Spanish Verbs in Context, I give you over one thousand of the most common Spanish verbs used today. You are given the verb in Spanish and English with examples of the verb in a sentence, also in Spanish and English. No more confusion about how to use the verb. One thousand words are a perfect number to aim for. It is important to give yourself goals to stay motivated and to keep yourself learning. Imagine if you learnt ten words a day. Five in the morning and five at night. After only a hundred days ( that's just over 3 months) you would have access to a thousand verbs in your vocabulary. That really is quite a lot and would give you an excellent grasp of the language. Far too many people expect to be speaking a new language far too quickly without putting in the time or effort. As a language teacher I can testify to seeing this too many times. I can also say that by exposing yourself to a new language daily you will surely learn it. It does take time and effort but ten words a day will give you a massive boost. If you prefer a slower pace then you could set yourself different goals. The key to learning new vocabulary is to see it in context, that means in use. Seeing how it's used will help you remember the word a lot better. It is also important to understand how that word should be used in a sentence. As a FREE bonus I have included the top one hundred most used words in Spanish. Yes, I really want you to learn this beautiful language.

It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language

courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.
