Up to now the theme of the artist in the service of Italian courts has been examined in various studies focused mostly on the High Renaissance, as though the phenomenon was relevant only to the XV and XVI centuries. It actually lasted much longer, spanning the whole *longue durée* of the lives of the courts of the ancient regime. The present volume intends to fill this gap, presenting for the first time a comprehensive examination of the subject of the court artist from sixteenth to seventeenth century and the transformations of this role. "Court artist" is here defined as one who received a regular salary, and was therefore attached to the court by a more or less exclusive service relationship. The book is divided in six chapters: each of them examines the position of the court artist in the service of the most important ruling families in Italy (the Savoy in Turin, the Gonzaga in Mantua, the Este in Modena, the Della Rovere in Pesaro and Urbino, the Medici in Florence) and in papal Rome, a particular and unique center of power.

This book provides a vivid biography of a towering Italian banker, pioneer and entrepreneur. It weaves the entrepreneurial ventures of Alessandro Torlonia (1800-1886) through the narratives of business and politics in the Nineteenth century, the growth of European financial markets and the decline of Papal power during the Italian Risorgimento. The discussion is founded in rigorous historical research using original sources such as the Archivum Secretum Vaticanum papers and other official documents; the archives of the Torlonia family, and of the Rothschild bank in Paris; memoirs; correspondences, and newspapers. Through this book readers learn that Alessandro Torlonia was a man of many faces, who was one of the most complex and influential characters of Italian economic life in the nineteenth century. Felisini also provides an expert critique of the financial history of the papacy: an area of heightened

interest given the notoriety of relations between the Holy See and its bankers in the twentieth and twenty-first centuries. Focal topics such as the history of European elites and the history of European financial markets will have an interdisciplinary appeal for scholars and researchers. This revised and expanded third edition addresses the many legal developments—including a comprehensive discussion of stolen art and the international movement of cultural property, recent developments in copyright, and the effects of burgeoning electronic uses—that have occurred during the past twenty-five years. An authoritative, go-to book for any museum professional, *Legal Primer* offers detailed explanations of the law, suggestions for preventing legal problems, and numerous case studies of lawsuits involving museum collections.

From the author of the #1 New York Times bestseller *The Monuments Men* "An astonishing account of a little-known American effort to save Italy's...art during World War II."—Tom Brokaw When Hitler's armies occupied Italy in 1943, they also seized control of mankind's greatest cultural treasures. As they had done throughout Europe, the Nazis could now plunder the masterpieces of the Renaissance, the treasures of the Vatican, and the antiquities of the Roman Empire. On the eve of the Allied invasion, General Dwight Eisenhower empowered a new kind of soldier to protect these historic riches. In May 1944 two unlikely American heroes—artist Deane Keller and scholar Fred Hartt—embarked from Naples on the treasure hunt of a lifetime, tracking billions of dollars of missing art, including works by Michelangelo, Donatello, Titian, Caravaggio, and Botticelli. With the German army retreating up the Italian

peninsula, orders came from the highest levels of the Nazi government to transport truckloads of art north across the border into the Reich. Standing in the way was General Karl Wolff, a top-level Nazi officer. As German forces blew up the magnificent bridges of Florence, General Wolff commandeered the great collections of the Uffizi Gallery and Pitti Palace, later risking his life to negotiate a secret Nazi surrender with American spymaster Allen Dulles. Brilliantly researched and vividly written, the New York Times bestselling *Saving Italy* brings readers from Milan and the near destruction of *The Last Supper* to the inner sanctum of the Vatican and behind closed doors with the preeminent Allied and Axis leaders: Roosevelt, Eisenhower, and Churchill; Hitler, Göring, and Himmler. An unforgettable story of epic thievery and political intrigue, *Saving Italy* is a testament to heroism on behalf of art, culture, and history.

*Icon and Devotion* offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

"A collector and advocate of contemporary art since the late 1940s, Giuseppe Panza has played a fundamental role in the artistic culture of his time, introducing American phenomena such as Minimalism to the museums of Europe. In this book, Panza shares philosophical insights and personal reflections that bridge a half-century of his discovery of new artists and movements"--Provided by publisher.

Nel corso del Settecento le antichità campane si erano imposte all'attenzione internazionale anche a seguito di precise scelte della monarchia borbonica, che dichiarava gli scavi archeologici attività complementari ai successi militari del re. Dopo l'Unità Napoli da capitale del Regno, centro di interessi collezionistici e di mercato, divenne zona periferica rispetto al più vasto Stato unitario, con una progressiva marginalizzazione politica ed economica che doveva condizionare anche un settore profondamente legato all'autorappresentazione dei ceti sociali dominanti, come la compravendita di antichità, il collezionismo e la stessa pratica dell'archeologia. Questo lavoro esamina la storia sociale dell'archeologia napoletana, inscindibilmente connessa al fenomeno del commercio antiquario, a partire dagli ultimi anni prima del crollo della monarchia borbonica e sino agli esordi del Novecento, esaminando le trasformazioni culturali, socio-politiche, e conseguentemente istituzionali, che portarono alla necessità della promulgazione di una legislazione dedicata, restrittiva in materia di esportazioni dei Beni Culturali a salvaguardia dei più generali interessi nazionali.

aesthetics and collecting. Detailing moments of first encounter with objects that drew him in and continue to affect him, Soyinka describes a world of mortals, muses, and deities that imbue the artworks with history and meaning. Beyond Aesthetics is a passionate discussion of the role of identity, tradition, and originality in making, collecting, and exhibiting African art today. Soyinka considers objects that have stirred controversy, and he decries dogmatic efforts—whether colonial or religious—to suppress Africa’s artistic traditions. By turns poetic, provocative, and humorous, Soyinka affirms the power of collecting to reclaim tradition. He urges African artists, filmmakers, collectors, and curators to engage with their aesthetic and cultural histories.

In *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century, with particular concern for the “Neapolitan marbles” and the circumstances of their dispersal.

*Smuggling the Renaissance: The Illicit Export of Artworks Out of Italy, 1861-1909* explores the phenomenon of art spoliation in Italy following Unification (1861), when the international demand for Italian Renaissance artworks was at an all-time high but effective art protection legislation had not yet been passed. Making use of rich archival material Joanna Smalcerz narrates the complex and often dramatic struggle between the lawmakers of the new Italian State, and international curators (e.g., Wilhelm Bode), collectors (e.g., Isabella Stewart Gardner) and dealers (e.g., Stefano Bardini) who continuously orchestrated illicit schemes to export abroad Italian masterpieces. At the heart of the intertwinement of the art trade, art scholarship and art protection policies the

author exposes the socio-psychological dynamics of unlawful collecting. “I find it hard even now to get into focus all these horrors, my mind is really quite incapable of taking in everything I saw because it was all so completely foreign to everything I had previously believed or thought possible.” British Major Ben Barnett’s words echoed the sentiments shared by medical students, Allied soldiers, members of the clergy, ambulance drivers, and relief workers who found themselves utterly unprepared to comprehend, much less tend to, the indescribable trauma of those who survived at the Bergen-Belsen concentration camp. The liberation of Bergen-Belsen by the British in April 1945 was a defining point in history: the moment the world finally became inescapably aware of the Holocaust. But what happened after Belsen was liberated is still a matter of dispute. Was it an epic of medical heroism or the culmination of thirteen years of indifference to the fate of Europe’s Jews? This startling investigation by acclaimed documentary filmmaker and historian Ben Shephard draws on an extraordinary range of materials—contemporary diaries, military documents, and survivors’ testimonies—to reconstruct six weeks at Belsen beginning on April 15, 1945, and reveals what actually caused the post-liberation deaths of nearly 14,000 concentration camp inmates who might otherwise have lived. Why did it take almost two weeks to organize a proper medical response? Why were the

medical teams sent to Belsen so poorly equipped? Why, when specialists did arrive, did they get so much of the medicine plain wrong? For the first time, Shephard explores the humanitarian and medical issues surrounding the liberation of the camp and provides a detailed, illuminating account that is far more complex than had been previously revealed. This gripping book confronts the terrifying aftermath of war with questions that still haunt us today.
