MUST HATE DOGS Do you hate dogs? Only want to talk about yourself? Is having a sense of humor something you've never been accused of? Think eating for pleasure is a complete waste of time? Agree that tipping is for suckers? Then you're the date for me. Dixon Beckett is the kind of guy who loves his mama, treats women right, and never ever wants to fall in love again. That's why he'll do anything to win a bet to be the last single man standing by Christmas. He's got a plan, too. Create the most no-good, horrible, very bad dating profile in existence. Only someone actually responds to his ad... The rules say he has to go on six dates with the first (or in his case, only) person who answers—even if that person is Fiona Hartigan: Hater of dogs, non-lover of any delicious food, and zero sense of humor. But something feels off about this pariah. In fact, Dixon is almost positive Fiona is just pretending to be awful. Pretending to be the most horrible date in existence. And she's most definitely pretending to not be as interested in him as he is in her. The more Dixon Beckett starts to unravel the mystery of why Fiona answered his ad in the first place, the more he starts considering the most vile, awful, terrible idea ever...falling in love. Each book in the Last Man Standing series is STANDALONE: * Mama's Boy * Neanderthal * Mansplainer

Steve Harvey, the host of the nationally syndicated Steve Harvey Morning Show, can't count the number of impressive women he's met over the years, whether it's through the "Strawberry Letters" segment of his program or while on tour for his comedy shows. Yet when it comes to relationships, they can't figure out what makes men tick. Why? According to Steve it's because they're asking other women for advice when no one but another man can tell them how to find and keep a man. In Act Like a Lady, Think Like a Man, Steve lets women inside the mindset of a man and sheds light on concepts and questions such as: The Ninety Day Rule: Ford requires it of its employees. Should you require it of your man? The five questions every woman should ask a man to determine how serious he is. And much more . . . Sometimes funny, sometimes direct, but always truthful, Act Like a Lady, Think Like a Man is a book you must read if you want to understand how men think when it comes to relationships.

"The riveting story of Lee Harvey Oswald and his complex relationship with his overbearing mother Marguerite, Mama's boy follows Marguerite's reckless attempts to reunite her family, from Lee's return to the U.S. from Russia, through the assassination of Kennedy, to her son's own murder and her defense of his innocence in the months that follow. A fascinating examination of family dynamics and obsessive maternal devotion played out in the shadow of history."--Page 4 of cover.

Updated for the paperback version, the story of serial murderer Eric Napoletano recounts how his mother, Carolyn, used blackmail, bullying, and a Ponzi scheme to help her killer son elude capture. Reprint.

ONE OF BOOK RIOT'S BEST BOOKS OF THE YEAR Dustin Lance Black wrote the Oscar-winning screenplay for Milk and helped overturn California's anti-gay marriage Proposition 8, but as an LGBTQ activist he has unlikely origins--a conservative Mormon household outside San Antonio, Texas. There he was raised by a single mother who, as a survivor of childhood polio, endured brutal surgeries as well as braces and crutches for life. Despite the abuse and violence of two questionably devised Mormon marriages, she imbued Lance with her inner strength and irrepressible optimism. When Lance came out to his mother at age twenty-one, she initially derided his sexuality as a sinful choice. It may seem like theirs was a house destined to be divided--and at times it was. But in the end, they did not let their differences define them or the relationship that had inspired two remarkable lives. This heartfelt, deeply personal memoir explores how a mother and son built bridges across great cultural divides--and how our stories hold the power to heal.

Having faked his way into the Music and Art Academy, a performing arts school for gifted students where his talented older sister rules, sixth-grader Jake, a jokester who can barely play an instrument, will have to think of something quick before the last laugh is on him.

As her son grows up from little boy to adult man, a mother secretly rocks him each night as he sleeps.

The grand finale to the "New York Times" bestselling series, "Attack of the BULLIES" stars Ruby Peet, aka Agent Pufferfish, the team captain with super nanobyte-enhanced allergies. Pufferfish leads the team in their latest case: the kidnapping of the president's daughter. But the NERDS discover she hasn't been kidnapped--she's been recruited. Their former librarian, Ms. Holiday, has started a rival organization called BULLIES, who each have their own nanobyte-enhanced upgrades. The BULLIES' plan: go back in time to make sure NERDS never existed When Ruby's teammates begin to vanish one by one, she enlists Agent Brand and Heathcliff Hodges to go back to the 1970s and help the original nerdy secret agents make sure that the future is not erased from existence "Attack of the BULLIES" promises action, humor, and a dramatic conclusion to the series. She didn't know how fast the current was moving her. It could take many more hours yet, perhaps more hours than she had the strength for. But she must not stop. She must keep going. She must try to catch the river boy, even though she was frightened at the thought of what he was. Jess's beloved grandfather has just had a serious heart attack, but he insists that the family travel as planned to his boyhood home on the river so that he can finish his painting, River Boy. As Jess helps her ailing grandpa with his work, she becomes entranced by the scene he is painting. Then she becomes aware of a strange presence in the river -- a boy who asks for her help and issues a challenge that will stretch her swimming talents to their very limit. Jess knows that Grandpa and the river boy are connected, but how? Can she take up the river boy's challenge before it's too late

for Grandpa? Tim Bowler's gripping narrative flows like a river itself -- gentle and calm at times, turbulent and deep at others, always fluid, always alive. Readers will be swept along by the magic of the river and the mysterious river boy -- and changed forever by Jess's unforgettable journey.

Led by Duncan "Gluestick" Dewey, the NERDS team uses brain power and courage rather than gadgets when they face off against supervillain Simon, his band of savage squirrels, and Albert, a middle-aged computer genius who lives with his mother.

W. Kamau Bell delivers a humorous, well-informed take on the world today, tackling a wide range of evergreen issues, such as race relations, fatherhood, the state of law enforcement today, comedians and superheroes, right-wing politics, and so much more.

The Nerds make their return in this second installment of Buckley's series, and this time, the group must fight a villain so unlikely, he still lives with his mom. In other words, it's the Nerds against a nerd.

NERDS combines all the excitement of international espionage with all the awkwardness of elementary school, and the results are hilarious. A group of unpopular fifth graders run a spy network from inside their school. With the help of cutting-edge science, they transform their nerdy qualities into incredible abilities! Their enemies? An array of James Bond-style villains, each with an evil plan more diabolical and more ridiculous than the last. Publishers Weekly raved: "Buckley has a flair for exaggerated humor." School Library Journal said: "Funny, clever, and thoroughly entertaining."

When her son is in trouble, a heartbroken mother finds the courage and faith to save him, in ReShonda Tate Billingsley's powerful family drama—a novel as timely as today's headlines. The breaking TV news rocks Jasper, Texas, to the core: a white police officer is fatally shot in a scuffle with three black youths—and a cellphone video captures Jamal Jones, the sixteen-year-old son of esteemed Reverend Elton Jones, escalating the tragic encounter. Now, as the national spotlight shines on a town already rife with racial tension, Jamal is a murder suspect on the run. And all of Jasper—even the Reverend's congregation—rushes to judge the boy they thought they knew. But Gloria Jones knows her son best, and she races to find Jamal before the law does—to the outrage of her workaholic husband. Once she finds him, she has to decide whether to turn him in or help him run. With ruthless prosecutor and Houston mayoral candidate Kay Christensen hungering to put another young thug behind bars, Gloria will face her biggest battle yet. And when long-hidden secrets and shocking lies come to light, throwing Jamal's case and his destiny into a tailspin, all Gloria can do is pray that the truth—and a mother's unconditional love—will be enough to redeem the mistakes of the past and ultimately, save her son.

A stunning tale about the deeply entrenched conflicts between a white mother and her biracial daughter. Mama's Child is story of an idealistic young white woman who travelled to the American South as a civil rights worker, fell in love with an African American man, and started a family in San Francisco, where the more liberal city embraced them—except when it didn't. They raise a son and daughter, but the tensions surrounding them have a negative impact on their marriage, and they divorce when their children are still young. For their biracial daughter, this split further destabilizes her already challenged sense of self—"Am I black or white?" she must ask herself, "Where do I belong?" Is she her father's daughter alone? As the years pass, the chasm between them widens, even as the mother attempts to hold on to the emotional chord that binds them. It isn't until the daughter, Ruby, herself becomes a wife and mother that she begins to develop compassion and understanding for the many ways that her own mother's love transcended race and questions of identity.

In this compelling collection of short memoirs, gay men take on a stereotype and delve into what it means to be mommy's favorite. Through humor, insight and poignancy, the writers in this collection reclaim and rejoice in describing a special relationship that has never been examined in quite this way before. Voices from many backgrounds navigate the sometimes wonderful, sometimes treacherous, but inevitably fascinating terrain of that very special bond between mothers and their different sons. These inspired explorations of this unique relationship will help readers gain a better appreciation of themselves and come to a new meaning of the term mama's boy.

"My mother was always committing suicide. She started out young, in an amateur capacity. But it didn't take long for Mama to work out how to make psychiatrists take notice, and to get the respect reserved for the most serious cases. Written with gritty humour in the form of a confession, Mama's Boy recounts the family drama of a young man who sets out in search of his mother after a childhood spent shuffling from one foster home to another. A bizarre character with a skewed view of the world, he leads the reader on a quest that is both tender and violent."--

Matilda "Wheezer" Choi, the asthmatic who can fly and kick butt courtesy of her nanobyte-enhanced inhalers, loves pro wrestling and hates anything "girly." Maybe that's because she grew up with six brothers—or maybe it's because her home life has become a battle zone in the conflict between her parents. Unfortunately for Wheezer, when a former member of NERDS turned villain gets extensive plastic surgery in order to become a cheerleader, Matilda must swallow her pride to successfully infiltrate the squad. The newest supervillain, Gerdie Baker, assisted by the criminal mastermind Simon, has created a

device that opens portals to other worlds, which she and the other cheerleaders have been pillaging. But the alternate realities are starting to get awfully close together, so it's up to Wheezer and the NERDS to stop the cheerleaders before the worlds collide.

A New York Times contributor offers a radical reexamination of a hot-button issue of the mother and son relationship and advocates the end of the "mama's boy" taboo. New York Times contributor Kate Stone Lombardi unveils the surprisingly close relationship between mothers and sons. Mother after mother confessed to Lombardi that her husband, brothers, and even female friends and family criticize the fact that she is "too close" to her sons. Many of these women are often startled by the strong connection they feel with their sons; but rarely do they talk about it because society tells them to push their little boys away and not "baby" them with too much cuddling and comforting. It is as if there were an existing playbook-based on gender preconceptions dating back to Freud, Oedipus, and beyond-that prescribes the way mothers and their sons should interact. Lombardi's much-needed narrative is the first and only book to share truly revealing interviews with mothers who have close relationships with their sons, as well as interviews with these women's sons and husbands. Lombardi persuasively argues that the rise of the new male-one who is more emotionally intelligent and more sensitive without being less "manly"-is directly attributable to women who are rejecting the "mama's boy" taboo.

Highlighting new scientific studies, *The Mama's Boy Myth* begins a fresh story-one that will be welcomed by mothers, fathers, and sons alike.

Tired of keeping his life-long secrets, author Dominic Carter, described by some as the best of New York's political television reporters, shares his remarkable, gut-wrenching story of abuse at the hands of his mother in *No Momma's Boy*. Shortly after his mother's death, Carter obtains her psychiatric records to learn more about the extent of her struggles. He always knew she was plagued by mental illness, but because of their limited relationship, he never truly understood its severity. In addition to revealing that she was a paranoid schizophrenic, the records contain shocking secrets from his past of which he has little or no recollection. Carter learns the revolting details of how his mother attempted to strangle him to death when he was just a toddler and her numerous suicide attempts. As he uncovers these horrific details, Carter awakens memories of unspeakable acts that he suffered at her hands. From a childhood of sexual and physical abuse to a meaningful career attending social events at the White House and interviewing Nelson Mandela, *No Momma's Boy* recounts Carter's tremendous highs and lows and how he survived to become the successful journalist that he is today.

Since John F. Kennedy, seven of the last nine presidents of the United States have been Mama's Boys. Gerald Ford and George H.W. Bush can be characterized as Daddy's Boys. Lyndon B. Johnson, Jimmy Carter, Richard M. Nixon, Ronald Reagan, Bill Clinton, George W. Bush and Barack Obama, all experienced a unique relationship with their mother that some psychologists refer to as Mama's Boys. During times of crisis, many of our greatest presidents have been balanced Mama's Boys and balanced Daddy's Boys. Yet we also have been led by unbalanced and conflicted Mama's Boys and Daddy's Boys. Their presidencies have been less successful than their balanced counterparts. Although Mama's Boys have been among our best presidents, they also have been among the most dictatorial. Their emphasis on a strong federal government, one that tends to mother us, is threatening to undermine what has made this nation extraordinary. The premise of this book is that the personality, character, policy inclinations, campaign and management styles, and worldview of a U.S. president is largely influenced by his being a Mama's Boy or Daddy's Boy. The book documents this in the lives of five Daddy's Boy presidents and six Mama's Boy presidents.

Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Moms only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for moms to grow and thrive. As a daughter of Christ, you have been called to be more than an average mom. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. *M is for Mama* offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

When a parent singles out a child for special privileges and attention, that child is often unaware that the relationship is unhealthy—even incestuous. As adults, these children struggle to feel validated, because while they have not been directly abused, they feel a sense of violation and crossed boundaries—usually done in the name of 'love' and 'caring.' The parent's love feels more confining than freeing, more demanding than giving, more intrusive than nurturing. Yet these children suffer from what psychologist Kenneth Adams calls *The Silent Seduction*—because there is nothing loving or caring about a close parent-child relationship that services the needs of the parent rather than the child. In this revised and updated 20th anniversary edition of his groundbreaking book *Silently Seduced*, Dr. Adams explains how 'feeling close,' especially with the opposite-sex parent, is not the source of comfort the image suggests, especially when that child is cheated out of a childhood by being a parent's surrogate partner. He offers a framework to understand this covert incest and its effect on sexuality, intimacy, and relationships, and how victims can begin the process of recovery.

At the end of this story I'm going to kill myself. And then die. That's the way it is. All good things must come to an end, including me. *Mama's Boy: Game Over* is the third and final book in David Goudreault's bleakly comic bestselling *Mama's Boy* trilogy. *Mama's Boy* has been transferred from prison to a psychiatric hospital. He manages to escape, and goes on the run in Montreal, hiding in plain sight. In his short but eventful life, *Mama's Boy* has already managed to achieve most of his ambitions: fame, fatherhood and friendship, at least in his own rather skewed perspective. But one goal remains: tracking down and reuniting with his estranged mother. By turns poignant and deeply uncomfortable, *Mama's Boy's* final journey is a wild, desperate bid for freedom, love, and family. Praise for *Mama's Boy* "David Goudreault will captivate you from the first line " --Kim Thuy, author of *Vi and Ru*
