Business leaders, large and small, need to learn a new game with very different rules. They must accept an ever-changing and uncertain landscape, but a landscape that can be constantly leveraged for greater profitability. They must believe that their companies are caterpillars with the potential to become butterflies. The Caterpillar's Edge shows why we must embrace a future of flux. It exposes the addictions that chain us to our past and the truths that influence our behaviors. And, it shows just how to seize breakthrough advantages by pushing through all the noise around "big data." Within its DNA, the caterpillar aspires and pushes for more, and it gets just that, evolving gracefully from one entity into another, always building a competitive edge in the process. Break free from accepted archaic business practices by cracking that secret code which demands evolving your business always.

Boyes introduces readers to the power of economics in business decision making. The text's intuitive approach clearly highlights how economics influences marketing, management, and other business-related decisions. In addition to traditional principles of price theory, MANAGERIAL ECONOMICS, 2e, International Edition examines organizational behavior, strategic management, human resource management, and emerging issues such as game theory, TQM, and information economics. MANAGERIAL ECONOMICS, 2e, International Edition departs from convention to illustrate the role of economic intuition in making sound business decisions. While other texts focus on quantitative analysis, this book emphasizes logic and conceptual modeling -- reinforced by real-life examples -- to highlight the pivotal link between economics and key business concerns such as costs, prices, markets, and personnel. Readers learn to weigh the strategic costs and benefits of each business choice, instead of relying on popular quick-fix solutions. Ideal for MBA programs and less quantitative courses, MANAGERIAL ECONOMICS, 2e, International Edition demonstrates the power of economic insight on business decision making.
