begin to supervise others at age 30, most do not start to receive formal leadership training until their forties. Don't wait for training that doesn't come until it's too late. The Five-Week Leadership Challenge is an invaluable guide to help any aspiring leader begin a daily practice of exercises and challenges designed to develop and expand your innate leadership ability as quickly as possible. Patrick Leddin has served as a U.S. Army airborne, infantry, and ranger-qualified officer, founded and ran successful businesses, and trained thousands of leaders. In The Five-Week Leadership Challenge, Leddin shows you how to quickly build standout leadership skills so that when the next opportunity comes along, you're the only person for the job. The Five-Week Leadership Challenge: Includes 35 daily challenges designed to quickly develop standout leadership skills. Outlines the leadership habits you can practice regularly that get you noticed—and promoted, based on Leddin's experience training and consulting thousands of leaders all over the world. Encourages you to share your completion of the leadership challenge on social media to exponentially expand your networking opportunities and receive bonus content and access to additional author tools.

A Hands-On Approach to Electrical Design Electrical Design of Commercial and Industrial Buildings teaches students the critical components of electrical design through an integrated approach that combines fundamental theory with hands-on practice. By taking an applied-learning approach to instruction, this text explains electrical principles, design criteria, codes, and other key elements of the design process, then guides students through each step as they create their own electrical design plans. A companion Student Resource CD-ROM accompanies the printed textbook with sample plans - accompanied by example equipment lists, lighting fixture schedules, and calculation templates - provides students with a comprehensive framework for experiential learning. As an integrated learning tool, Electrical Design of Commercial and Industrial Buildings is both an essential teaching guide for electrical design instructors and an enduring reference book for students and professionals.

The foundation for all scholarly study in biblical law is the shared assumption that the Covenant Code, as contained in Exodus 20:23-22:33 is the oldest code of laws in the Hebrew Bible, and that all other laws are later revisions of that code. The author of this text strikes that foundation.
