Excerpt from Pioneers and Patriots in Early American History The stories in this book are all concerned with the great fight which our forefathers made for independence in the Revolutionary War. They are told with no desire to emphasize the glories of war, nor to encourage any tendency toward militarism; but rather to arouse an interest in our early history, in which war unfortunately had a part. As in the companion book, "Camp and Trail in Early American History," choice has been made of what are considered by the author to be type stories, which shall contribute toward the broad view of the time which we desire children to have before beginning the formal study of history. These stories bring out the character of the men who fought for freedom, and some of the conditions under which their fight was waged. Benjamin Franklin had so many virtues that there is no need of exaggerating them; so few imperfections that they need not be concealed. The writer has endeavored to give a perfectly accurate view of his character, and of that great struggle, in which he took so conspicuous a part, which secured the Independence of the United States. No where can there be found so vivid a picture of Life in America one hundred years ago, as the career of Benjamin Franklin presents.

The #1 New York Times bestseller by Pulitzer Prize-winning historian David McCullough rediscovers an important chapter in the American story that's "as resonant today as ever" (*The Wall Street Journal*)—the settling of the Northwest Territory by courageous pioneers who overcame incredible hardships to build a community based on ideals that would define our country. As part of the Treaty of Paris, in which Great Britain recognized the new United States of America, Britain ceded the land that comprised the immense Northwest Territory, a wilderness empire northwest of the Ohio River containing the future states of Ohio, Indiana, Illinois, Michigan, and Wisconsin. A Massachusetts minister named Manasseh Cutler was instrumental in opening this vast territory to veterans of the Revolutionary War and their families for settlement. Included in the Northwest Ordinance were three remarkable conditions: freedom of religion, free universal education, and most importantly, the prohibition of slavery. In 1788 the first band of pioneers set out from New England for the Northwest Territory under the leadership of Revolutionary War veteran General Rufus Putnam. They settled in what is now Marietta on the banks of the Ohio River. McCullough tells the story through five major characters: Cutler and Putnam; Cutler's son Ephraim; and two other men, one a carpenter turned architect, and the other a physician who became a prominent pioneer in American science. "With clarity and incisiveness, [McCullough] details the experience of a brave and broad-minded band of people who crossed raging rivers, chopped down forests, plowed miles of land, suffered incalculable hardships, and braved a lonely frontier to forge a new American ideal" (*The Providence Journal*). Drawn in great part from a rare and all-but-unknown collection of diaries and letters by the key figures, *The Pioneers* is a uniquely American story of people whose ambition and courage led them to remarkable accomplishments. "A tale of uplift" (*The New York Times Book Review*), this is a quintessentially American story, written with David McCullough's signature narrative energy.

For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and

the achievements of “dead white men.” As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot’s History of the United States corrects those doctrinaire biases. In this groundbreaking book, America’s discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America’s true and proud history.

Pioneers and patriots, the Henderson family left behind a legacy of historical treasures in word and deed, allowing an unprecedented look into the past. Their Victorian-era plantation home, constructed in the 1800s and listed on the National Register of Historic Places, is a living monument to those who walked its halls in an unbroken chain of five generations. Family patriarch Alexander Henderson arrived in Virginia in the 1700s, earning the title of Father of the American Chain Store, counting founding fathers George Washington and George Mason among his friends. He sent three of his sons to what was then the wilds of the Mid-Ohio Valley. The Hendersons took part in what may be the only duel recorded north of the Ohio River and played a role in thwarting the treasonous exploits of Aaron Burr. Some family members also served on both sides during the Civil War, surviving turmoil, treachery, and tragedy.

Phoebe Judson was a young bride in 1853 when she and her husband crossed the plains from Ohio to the Puget Sound area of Washington Territory. She was ninety-five when this book was first published in 1925. The years between were spent in “a pioneer’s search for an ideal home” and in living there, when it was finally found at the head of the Nooksack River, almost on the Canadian border. Phoebe Judson’s account of the journey west is based on daily diary entries detailing her fear, excitement, and exhaustion. At the end of the trail, the Judsons encountered hardships aplenty, causing them to abandon a farm and business in Olympia before their arrival in the Nooksack Valley. During the Indian Wars they holed up in a fort at Claquato. In time, Phoebe overcame her fear of the Indians, learned the Chinook language, and won their friendship. All this is told in vivid detail by a woman of great dignity and charm whom readers will long remember. Susan Armitage, professor of history at Washington State University, calls A Pioneer’s Search for an Ideal Home a “classic pioneering account,” important for its woman’s point of view.

Famous 5th-8th grade Catholic American History text with Study Questions & Activities.

Picking up where "The Old World and America" left off, this text takes students from the early exploration of America to the Modern Age. Great for both homeschoolers and Catholic schools! A famous 5th-8th grade world history text. Guides the student from Creation through the Flood, pre-historic people, the ancient East, Greeks, Romans, the triumph of the Church, Middle Ages, Renaissance, discovery of the New World and Protestant Revolt, ending with the early exploration of the New World. A great asset for home-schoolers and Catholic schools alike! Why are poor Americans so patriotic? They have significantly worse social benefits compared to other Western nations, and studies show that the American Dream of upward mobility is, for

them, largely a myth. So why do these people love their country? Why have they not risen up to demand more from a system that is failing them? In *Broke and Patriotic*, Francesco Duina contends that the best way to answer these questions is to speak directly to America's most impoverished. Spending time in bus stations, Laundromats, senior citizen centers, homeless shelters, public libraries, and fast food restaurants, Duina conducted over sixty revealing interviews in which his participants explain how they view themselves and their country. He masterfully weaves their words into three narratives. First, America's poor still see their country as the "last hope" for themselves and the world: America offers its people a sense of dignity, closeness to God, and answers to most of humanity's problems. Second, America is still the "land of milk and honey:" a very rich and generous country where those who work hard can succeed. Third, America is the freest country on earth where self-determination is still possible. This book offers a stirring portrait of the people left behind by their country and left out of the national conversation. By giving them a voice, Duina sheds new light on a sector of American society that we are only beginning to recognize as a powerful force in shaping the country's future.

The Great Puritan Migration from 1630 to 1640 brought many God-fearing people to America from England which included the Wells and Hawley families. This book highlights the struggles some of these Puritan families had such as the Deerfield Massacre in 1704. The Wells family fought through these and other battles as they moved West from New England to Rock Island, Illinois where they fought in the Black Hawk War. Ira and Daniel Wells along with other relatives brought their families over the Oregon Trail in 1847. After reaching Idaho, they chose the southern route to reach the Willamette Valley, taking the Scott-Applegate Trail and forming the Wells/Smith wagon train. Thomas Smith's remembrances of this trek are included in the book. After locating a homestead in Cottage Grove, Oregon, Ira and Anna Elizabeth (Mandler) Wells eventually settled in Elkton, Oregon in 1850, where Daniel and Eliza (Grant) Wells settled also. Asaph and Clarissa (Goss) Wells joined them in 1851. Mary Townsend Wells's articles and diary entries about her parent's, Ira and Anna, give us great insight into the lifestyle the family led and the general history of Elkton, Oregon. Another daughter, Caroline Elizabeth Wells, married William Wallace Hawley, who had taken a different journey over the Oregon Trail in 1861. He joined the United States Cavalry's Emigrant Escort led by Medorem Crawford to protect the emigrants from Indian attacks during the first year of the Civil War. Medorem Crawford's journal of the Emigrant Escort in 1861 from Omaha, Nebraska to Fort Walla Walla was transcribed by the author and is included in the book. Both the Wells and Hawley families had ancestors who fought in the American Revolution. They also had some very famous cousins. A chapter is devoted to each, their patriot ancestors and their famous cousins. This book gives a general history of

the ancestors and descendants Daniel (1744-1823) and Rachel (1849-1823) Nims Wells and William Wallace Hawley (1837-1916). The local histories of Rock Island, Illinois and Elkton, Oregon are covered. In addition, Levi Scott, Eugene Skinner and the Applegates are key figures in this book. I hope you will enjoy reading how these families contributed to our great American history.

American historian John S.C. Abbott wrote Benjamin Franklin-A Picture of the Struggles of our Infant Nation One Hundred Years Ago (1876) as part of his American Pioneers and Patriots series.

A Portrait of Patriots and Pioneers of Sevier County recognizes over one hundred patriots who fought for our country's independence during the Revolutionary War and later called Sevier County home. At the end of the war, they wanted to settle down and raise a family in a place filled with possibilities. Many fought with John Sevier at the Battle of Boyd's Creek and witnessed firsthand what this area offered: an abundance of tillable land, rivers, streams, wild game and timber.

These tough, brave men came here to fulfill their dreams of a better life; an area that was still Indian Territory, with no form of government. They fought the Indians, built cabins, schools, libraries, roads, ferries, mills, and blacksmith shops, and in a very short period of time; they established the County of Sevier and the City of Sevierville. These patriots deserve to be recognized and remembered for their sacrifices, struggles, hard work, and determination. Most of them lived the rest of their lives in these hills and valleys, but a few moved on in their search of another dream. As a member of the Daughters of the American Revolution, I'm proud that three of these patriots are my ancestors. It is my desire that this book will be used to assist others in their search for a Revolutionary War patriot or patriots who can be added to their family tree.

This Answer Key is very easy to use, being clearly laid out, complete and giving page numbers for easy reference. Any potential difficulties are noted. "Leaps at the throat of television history and takes down the patriarchy with its fervent, inspired prose. When Women Invented Television offers proof that what we watch is a reflection of who we are as a people." —Nathalia Holt, New York

Times bestselling author of *Rise of the Rocket Girls* New York Times bestselling author of *Seinfeldia* Jennifer Keishin Armstrong tells the little-known story of four trailblazing women in the early days of television who laid the foundation of the industry we know today. It was the Golden Age of Radio and powerful men were making millions in advertising dollars reaching thousands of listeners every day. When television arrived, few radio moguls were interested in the upstart industry and its tiny production budgets, and expensive television sets were out of reach for most families. But four women—each an independent visionary— saw an opportunity and carved their own paths, and in so doing invented the way we watch tv today. Irna Phillips turned real-life tragedy into daytime serials featuring female dominated casts. Gertrude Berg turned her radio show into a Jewish family comedy that spawned a play, a musical, an advice column, a line of house dresses, and other products. Hazel Scott, already a renowned musician, was the first African American to host a national evening variety program. Betty White became a daytime talk show fan favorite and one of the first women to produce, write, and star in her own show. Together, their stories chronicle a forgotten chapter in the history of television and popular culture. But as the medium became more popular—and lucrative—in the wake of World War II, the House Un-American Activities Committee arose to threaten entertainers, blacklisting many as communist sympathizers. As politics, sexism, racism, anti-Semitism, and money collided, the women who invented television found themselves fighting from the margins, as men took control. But these women were true survivors who never gave up—and thus their legacies remain with us in our television-dominated era. It's time we reclaimed their forgotten histories and the work they did to pioneer the medium that now rules our lives. This amazing and heartbreaking history, illustrated with photos, tells it all for the first time.

An original collection of the most influential documents in American history, from the bestselling author of *A Patriot's History of the United States*. Since 2005, *A Patriot's History of the United States* has become a modern classic for its defense of America as a unique country founded on principles of justice, equality, and freedom for all. The *Patriot's History Reader* continues this tradition by going back to the original sources—the documents, speeches, and legal decisions that shaped our country into what it is today. The authors explore both oft-cited documents—the Declaration of Independence, Emancipation Proclamation, and *Roe v. Wade*--as well as those that are less famous. Among these are George Washington's letter to Alexander Hamilton, which essentially outline America's military strategy for the next 150 years, and Herbert Hoover's speech on business ethics, which examines the government's role in regulating private enterprise. By helping readers explore history at its source, this book sheds new light on the principles and personalities that have made America great.

"This text follows the premise that the central theme of history is to build the kingdom of God and that all of history is Gods. It begins with the creation story and the Fall of Adam. It then uses the Bible as the foundation to how mankind

and nations spread throughout the world. Finally it looks at His church and how it developed, the Reformation, and the founding and growth of the United States" -- "Benjamin Franklin (American Pioneers and Patriots)" by John Stevens Cabot Abbott.
