A modern guide to classic outdoor structures. Sheds and other landscape shelters have never been out of style, but they are now seeing a remarkable surge in popularity, and are being used in creative new ways. The common garden shed is now just as likely to serve as a workshop for an artist to pursue his or her hobby; or may be used as a writer's retreat; or may even be equipped with a satellite dish, high definition television, recliners, and used as a meeting spot for Sunday afternoon football parties. In many parts of the country, spacious sheds are being fully appointed with furnishings and used as detached rooms for everyday living or as backyard offices. This book offers readers fuel for their aspirations but also provides practical information for planning and building sheds of all types. Although the basics of stick-building are covered, the book focuses more on the most common consumer option: ordering and buying a kit shed, working from blueprint plans, and customizing the shed to individual needs. Features a planning and design section to help readers create unique shed projects General technique chapter provides an in-depth overview of each step in shed construction Includes easy-to-follow plans and directions for 12 sheds covering all design options Bonus appendix includes a dozen advanced shed plans that can be special-ordered More than three times as many complete plans than any other sheds book

Featuring shedworkers and shedbuilders from around the world who are leading the alternative workplace revolution, Shedworking looks at why having a shed office is a greener way of working, improves the work-life balance, and accelerates one's productivity. Along the way it offers a whistle-stop tour of famous sheds from Pliny the Younger's summerhouse and the retreats of 19th-century composers Edvard Grieg and Gustav Mahler to award-winning 21st-century fantasy writer Neil Gaiman's gazebo. In short, Shedworking offers a manifesto for those wanting to change their working lives for the better and go to work in the garden.
