In this #1 New York Times bestseller, Special Agent Pendergast must stop a serial killer who is terrorizing New York City with a trail of headless victims. When Grace Ozmian, the beautiful and reckless daughter of a wealthy tech billionaire, first goes missing, the NYPD assumes she has simply sped off on another wild adventure. Until the young woman's body is discovered in an abandoned warehouse in Queens, the head nowhere to be found. Lieutenant CDS Vincent D'Agosta quickly takes the lead. He knows his investigation will attract fierce scrutiny, so D'Agosta is delighted when FBI Special Agent A.X.L. Pendergast shows up at the crime scene assigned to the case. "I feel rather like Brer Rabbit being thrown into the briar patch," Pendergast tells D'Agosta, "because I have found you here, in charge. Just like when we first met, back at the Museum of Natural History." But neither Pendergast nor D'Agosta are prepared for what lies ahead. A diabolical presence is haunting the greater metropolitan area, and Grace Ozmian was only the first of many victims to be murdered . . . and decapitated. Worse still, there's something unique to the city itself that has attracted the evil eye of the killer. As mass hysteria sets in, Pendergast and D'Agosta find themselves in the crosshairs of an opponent who has threatened the very lifeblood of the city. It'll take all of Pendergast's skill to unmask this most dangerous foe-let alone survive to tell the tale.

Fear is a common part of our lives. Some of us are afraid of heights, or doctors, or dogs. These fears we manage. The Selling of 9/11 argues that the marketing and commodification of the terrorist attacks of September 11, 2001, reveal the contradictory processes by which consumers in the United States (and around the world) use, communicate, and construct national identity and their sense of national belonging through cultural and symbolic goods. Contributors illuminate these processes and make important connections between myths of nation, practices of mourning, theories of trauma, and the politics of post-9/11 consumer culture. Their essays take critical stock of the role that consumer goods, media and press outlets, commercial advertising, marketers and corporate public relations have played in shaping cultural memory of a national tragedy.

Sarah's group of friends enjoy adventure. An Amish community can sometimes feel a bit stifling what with all the rules and so they have developed a tendency to break them. This tendency had never gotten them into trouble. In fact, in a lot of ways it had made them into desirable and popular children, even if some of the parents are a bit weary of them. But that

didn't matter to the group of four best friends. They were content to have each other to go on adventures with. But those adventures generally took place in the safe confines of the community... One evening Sarah had the idea to take the crew to a house party that she heard about from an English friend she met while getting biscuits at the store. It would be something unlike anything they had done before. But little did they know that it would be more than just different, it would be totally horrifying. For in the bleak, dark house that they went to they would find terrors that are beyond anything they could imagine. They would find panic, and betrayal, and they hoped redemption. But the more sinister parts of the night do not easily relinquish their grip on innocent souls...

He offers the videos up for sale on the dark web, forcing Aislinn Cain and the SCTU to track a killer through the sleazy digital marketplaces where someone can buy anything if they have enough money. However, once inside the marketplaces, Aislinn realizes it's not just a case of tracking down the person selling the videos. There's an infrastructure in place that insulates the video maker, the seller, the distributor, and the buyers. Ensuring everything on the dark web, even the makers of snuff films, are anonymous

Impending motherhood serves up a confusing cocktail of heroic strength and terrifying vulnerability. Our culture has seized on the "vulnerability" part of this experience and tends to reinforce a pregnant woman's insecurities instead of encouraging her to embrace this most natural time and trust her body, her intuition, and her own mind. Feng Shui Mommy takes a different approach, helping the expecting mother build her own unique, epic journey to motherhood. It's about supporting her while she shores up her mind-body-spirit alignment so she can best handle the cosmic kick in the uterus and juicy kiss on the soul that pregnancy is. Bailey Gaddis guides women through the experience, providing specific suggestions for mind, body, and spirit for each trimester (including the "fourth," after birth), leading to birth preparation designed for each mother and baby, and culminating in strong mother-child bonding. She includes detailed and practical information about prenatal exercise and nutrition, birth preferences and birthing positions, breath work, breastfeeding, and much more. Her advice allows mothers to welcome delight and curiosity into the journey while taking each phase with purpose and calm — and even a sense of fun. This comprehensive guide makes challenge and change joyful, allowing new life to be as incomparably wonder-filled as it is meant to be.

This book considers the personal and subjective use of housing and the ways in which we express our private selves through and within our dwelling places. When recent divorcee Meg Altman and her ten-year-old daughter, Sarah, move to New York City to start afresh, they buy the former upper West Side home of an eccentric millionaire. Most bizarre among the brownstone's features is a vault-like steel-encased room with a phone line, emergency supplies, and a wall of closed-circuit TVs monitoring the townhouse. It's called the Panic Room, and it's meant to provide a sense of security. Instead, it just makes Meg nervous. When three burglars break in, Meg and Sarah are forced to seek refuge in the high-tech bunker. They've barely breathed a sigh of relief before they realize the intruders are after something located inside the Panic Room - and they're not leaving until they get it. Terrified and trapped, mother and daughter must use every last

resource to fight for their homes...and their lives.
