We create reference material that is extensively researched, meticulously articulated, and comprehensively edited ? catering to the various National and Regional Academic Boards in India.

The purposes of the Law of War are the conduct of armed hostilities on land is regulated by the law of land warfare which is both written and unwritten. It is inspired by the desire to diminish the evils of war by: a. Protecting both combatants and noncombatants from unnecessary suffering; b. Safeguarding certain fundamental human rights of persons who fall into the hands of the enemy, particularly prisoners of war, the wounded and sick, and civilians; and c. Facilitating the restoration of peace. "The Law of Land Warfare" (FM 27-10) provides authoritative guidance to military personnel on the customary and treaty law applicable to the conduct of warfare on land and to relationships between belligerents and neutral States. Although certain of the legal principles set forth herein have application to warfare at sea and in the air as well as to hostilities on land, this Manual otherwise concerns itself with the rules peculiar to naval and aerial warfare only to the extent that such rules have some direct bearing on the activities of land forces.

The U.S. Department of Defense (DoD) faces short-term and long-term challenges in selecting and recruiting an enlisted force to meet personnel requirements associated with diverse and changing missions. The DoD has established standards for aptitudes/abilities, medical conditions, and physical fitness to be used in selecting recruits who are most likely to succeed in their jobs and complete the first term of service (generally 36 months). In 1999, the Committee on the Youth Population and Military Recruitment was established by the National Research Council (NRC) in response to a request from the DoD. One focus of the committee's work was to examine trends in the youth population relative to the needs of the military and the standards used to screen applicants to meet these needs. When the committee began its work in 1999, the Army, the Navy, and the Air Force had recently experienced recruiting shortfalls. By the early 2000s, all the Services were meeting their goals; however, in the first half of calendar year 2005, both the Army and the Marine Corps experienced recruiting difficulties and, in some months, shortfalls. When recruiting goals are not being met, scientific guidance is needed to inform policy decisions regarding the advisability of lowering standards and the impact of any change on training time and cost, job performance, attrition, and the health of the force.

Assessing Fitness for Military Enlistment examines the current physical, medical, and mental health standards for military enlistment in light of (1) trends in the physical condition of the youth population; (2) medical advances for treating certain conditions, as well as knowledge of the typical course of chronic conditions as young people reach adulthood; (3) the role of basic training in physical conditioning; (4) the physical demands and working conditions of various jobs in today's military services; and (5) the measures that are used by the Services to characterize an individual's physical condition. The focus is on the enlistment of 18- to 24-year-olds and their first term of service.

The term ¿Reserve Component¿ is used to refer collectively to the seven individual reserve components of the armed forces: the Army Nat. Guard (NG), the Army Reserve, the Navy Reserve, the Marine Corps Reserve, the Air NG, the Air Force Reserve, and the Coast Guard Reserve. These reserve components ¿provide trained units and qualified persons available for active duty in the armed forces.¿ Since 1990, reservists have been involuntarily activated six times, incl. two large-scale mobilizations for the Persian Gulf War and in the aftermath of 9/11. This increasing use of the reserves has

led to interest in funding, equipment, and personnel policy. This report provides an overview of key reserve component personnel issues. This is a print on demand report.
