CEFR levels- A1 – C1 The Big Picture reflects the key issues in the world today which are immediately relevant to the learners' worlds and experiences with striking real world images. These images provide a fresh, contemporary look and are at the centre of tasks, encouraging learners to work with and interpret them. Carefully structured discussion tasks encourage personalization, localization, and critical thinking, and complete functional language lessons develop conversation strategies and are applied to students' immediate world experience. Key Features Up-to-date, real-life, relevant contexts ground tasks and content in students'

own world, allowing them to personalize and localize material. Language focus on real, useful language and high-frequency expressions, and are text, topic, and context driven. Functional Language and Final Task sections bring together the smaller pieces to help students see the big picture via practical, real-life tasks. A strong, systematic vocabulary building strand focuses on both lexical fields and vocabulary systems. Notice boxes draw attention to generative patterns and the living/changing nature of language. Avoidance/challenging of stereotypes – intercultural awareness foregrounded, e.g. inclusion of situations where no native speakers are present (as models for tasks). A move away from traditional UK and USA settings to more global contexts. An emphasis on global English , with a wide variety of non-native and non-standard accents in the audio program. Inclusion of different text types from the ELT norm – new genres (e.g. blog posts), literary texts, signs, etc. Digital Features VLE-based tracking- teachers can see how well students have performed on interactive activities and whether they have completed them. Student-focused social networking features- students will be motivated to use English in a format that has established popularity. A live website- content will be added and updated regularly, which will encourage users to return frequently. User-friendly- teachers can register their students to use the website independently, or they can integrate the content of the website into their teaching. This book is an introduction to the language and standard proof methods of mathematics. It is a bridge from the computational courses (such as calculus or differential equations) that students typically encounter in their first year of college to a more abstract outlook. It lays a foundation for more theoretical courses such as topology, analysis and abstract algebra. Although it may be more meaningful to the student who has had some calculus, there is really no prerequisite other than a measure of mathematical maturity.

These beautiful 4/color literature anthologies are an affordable way to introduce students to a variety of authors from the Spanish-speaking world. Organized by themes, students interact with poems, songs, informational readings, short stories, and excerpts from outstanding literature, including many AP® Literature authors. Teacher's Guides provide pre- and post-reading activities plus graphic organizers.

SSI-4: stuttering Severity instrument - Fourth Edition is a reliable and valid norm-referenced stuttering assessment that can be used for both clinical and research purposes. It measures stuttering severity in both children and adults in the four

areas of speech behavior: (1) frequency, (2) duration, (3) physical concomitants, and (4) naturalness of the individual's speech. Frequency is expressed in percent syllables stuttered and converted to scale scores of 2-18. Duration is timed to the nearest one tenth of a second and converted to scale scores of 2-18. The four types of Physical Concomitants are and converted to scale scores of 0-20. The SSI-4 can also be used in conjunction with the stuttering prediction instruments for Young Children (SPI). SSI-4 was normed on a sample of 72 preschool-aged children, 139 school-aged children, and 60 adults. It has four components, each of which is used to assess and monitor the stuttering severity in both children and adults for clinical and research use: (1) Examiner's Manual and Picture Plates, (2) Test Record and Frequency Computation Forms, (3) Subjective stuttering Scales, and (4) Computerized Scoring of stuttering Severity (Software Version 2.0). The Computerized Scoring of the stuttering Severity (Version 2; CSSS-2.0) software is provided to facilitate the calculation of frequency and duration. The CSSS-2.0 automatically produces a record of the percentage of syllables stuttered (frequency) and the duration of the three longest stuttering events. Minimum System Requirements: IBM PC or compatible Windows 2000(SP4)/2003/XP/Vista Processor: 600 MHz Pentium III;equivalent or higher 1.45 MB hard disk space External mouse and keyboard recommended (for scoring accuracy) CD-ROM drive Complete SSI-4 (c2009) Kit Includes: Examiner's Manual and Picture Plates 50 Test Record and Frequency Computation Forms CSSS 2.0

According to the great mathematician Paul Erdős, God maintains perfect mathematical proofs in The Book. This book presents the authors candidates for such "perfect proofs," those which contain brilliant ideas, clever connections, and wonderful observations, bringing new insight and surprising perspectives to problems from number theory, geometry, analysis, combinatorics, and graph theory. As a result, this book will be fun reading for anyone with an interest in mathematics.
