This volume brings together a breadth of new research on how service-learning - combining community-based experiential learning with classroom instruction - can best be employed at community colleges. It discusses outcomes and best practices for all involved, covers both theory and practice, and draws on both qualitative and quantitative methods.

Many new believers have questions about what it means to live as a Christian in the context of a local church, and pastors are looking for resources to pass along to their congregations to help them think biblically about the Christian life. Church Questions is a series by 9Marks that seeks to provide Christians with sound and accessible biblical teaching by answering common questions about church life. Each booklet offers biblical answers and practical applications with the goal of nurturing healthy church practice and commitment. This booklet unpacks Scripture's teaching on the importance of baptism in the local church by responding to 7 reasons that baptism is often neglected as well as answering 3 common questions about baptism.

"Let's face it: educators speak a language all their own filled with complicated words, terms and acronyms. They call it 'Educationese' but to parents and caregivers, it's just Mumbo Jumbo. This book uses the principles of broadcast journalism to help educators recognize and translate Mumbo Jumbo into clear, concise, effective communications. It's designed to help them form rich relationships with parents and caregivers. Readers will learn how to use the right words, tone and body language to engage families. [This] is not a typical education book. It is short, simple, practical and easy to read. It's no wonder. It was written by a former broadcast journalist with a passion for families and for translating Educationese"--Page [4] of cover.

Scripture says that offenses will happen. People will let us down and we will let others down, as well. Forgiveness is left up to us to pray about and then practice. Far from minimizing the hurt of the offense, readers are called to understand that offering forgiveness and letting go of bitterness is the only way to walk in faithfulness. Drawing on biblical teaching of our call to forgive, Nancy shows the reader that forgiveness is a choice- and the only pathway to true freedom.

Essays discuss proslavery arguments in the churches, the urge toward compromise and unity, the coming of schisms in the various denominations, and the role of local conditions in determining policies

The Immunization Safety Review Committee was established by the Institute of Medicine (IOM) to evaluate the evidence on possible causal associations between immunizations and certain adverse outcomes, and to then present conclusions and recommendations. The committee's mandate also includes assessing the broader societal significance of these immunization safety issues. While all the committee members share the view that immunization is generally beneficial, none of them has a vested interest in the specific immunization safety issues that come before the group. The committee reviews three immunization safety review topics each year, addressing each one at a time. In this fifth report in a series, the committee examines the hypothesis that exposure to polio vaccine contaminated with simian virus 40 (SV40), a virus that causes inapparent infection in some monkeys, can cause certain types of cancer.

If you had a ladder made of splinters, would you stand on it? Unfortunately, the mission practices of most churches stand on weak foundations. Life on Mission gives gospel-centered, biblical, practical foundations for how missions was meant to be: an everyone-together effort. Life on Mission is a thorough yet simple guide for everyday missionaries—electricians, lawyers, church planters, students, etc.—that equips them with truths and practices for living out the gospel within their own community. Adaptable to any context, Life on Mission functions great as both an individual and small-group study. Threaded with engaging stories and probing reflection questions, Life on Mission will help you and your community take bold steps to living life on mission.

The rapid conversion of land to urban and suburban areas has profoundly altered how water flows during and following storm events, putting higher volumes of water and more pollutants into the nation's rivers, lakes, and estuaries. These changes have degraded water quality and habitat in virtually every urban stream system. The Clean Water Act regulatory framework for addressing sewage and industrial wastes is not well suited to the more difficult problem of stormwater discharges. This book calls for an entirely new permitting structure that would put authority and accountability for stormwater discharges at the municipal level. A number of additional actions, such as conserving natural areas, reducing hard surface cover (e.g., roads and parking lots), and retrofitting urban areas with features that hold and treat stormwater, are recommended.
