There's always that chance that your heart's desire is one click away. Someone needs to pinch web designer/humor blogger/Pittsburgh Ravens mega fan Mike Kneller. Hard. For years, Mike has been living his life for his younger sister Kelly and his four-year-old nephew Liam. He'd opened up his home to Kelly when she found herself pregnant at sixteen and facing having a baby alone. Sure, his days are filled with skinned knees, snotty noses, and the occasional mishap with stuffed superheroes, but he's perfectly happy because he loves Liam as much as he loves his baby sister. Giving up a social life and going to bed alone is a small price to pay. Little does he know that someone on the Ravens is about to show Ravens goalie Bryn Mettler one of his vlog posts. Of course he's not going to believe it when his phone rings and the world-famous netminder-and his goalie crush-is on the other end. I mean, life doesn't work that way for ordinary, hardworking uncles like Mike. Does it? Bryn Mettler is a superstar athlete and a major part of the Pittsburgh sports society. He seems to have it all. He's well-dressed, handsome, wealthy, an elite goaltender, a famed philanthropist, and the holder of numerous medals and trophies. To date, there are two things that have avoided him: lifting that big shiny silver cup over his head and finding a man to settle down with. Now that he's over thirty, Bryn is finding the gay club scene is wearing thin. His teammates' wives have decided it's their duty to the team-and to Bryn-to find him Mr. Right. He's relatively sure the man who'll capture his heart surely won't be found on a humor blog. Funny how life likes to take the things that you're most certain about and flip them-and you-on its ear. When Bryn meets Mike, he is instantly drawn to the warm, funny, sexy man who shares his hectic days with thousands of Pittsburgh natives. Now he just has to convince Mike he is who he says he is so he can get to know him better. Thankfully, Bryn isn't a quitter. But does he have what it takes to leap into life with Mike, Kelly, and Liam?

This high-octane adventure is set in the same world as Neal Asher's acclaimed Polity universe. It's a thrilling, fast-paced standalone novel, perfect for fans of Alastair Reynolds and Stephen Baxter. Created to die—determined to live . . . Jack Four—one of twenty human clones—has been created to be sold. His purchasers are the alien prador and they only want him for their experimentation program. But there is something different about Jack. No clone should possess the knowledge that's been loaded into his mind. And no normal citizen of humanity's Polity worlds would have this information. The prador's king has been mutated by the Spatterjay virus into a creature even more monstrous than the prador themselves. And his children, the King's Guard, have undergone similar changes. They were infected by the virus during the last humans-versus-prador war, now lapsed into an uneasy truce. But the prador are always looking for new weapons – and their experimentation program might give them the edge they seek. Suzeal trades human slaves out of the Stratogaster Space Station, re-engineering them to serve the prador. She thinks the rewards are worth the risks, but all that is about to change. The Station was once a zoo, containing monsters from across known space. All the monsters now dwell on the planet below, but they aren't as contained as they seem. And a vengeful clone may be the worst danger of all. 'Neal Asher's books are like an adrenaline shot targeted directly for the brain' John Scalzi, author of the Old Man's War series 'Magnificently awesome. Then Asher turns it up to eleven' Peter F. Hamilton, author of Salvation and others, on Asher's The Soldier

New York Times bestselling author Jerry Craft returns with a companion book to New Kid, winner of the 2020 Newbery Medal, the Coretta Scott King Author Award, and the Kirkus Prize.

This time, it's Jordan's friend Drew who takes center stage in another laugh-out-loud funny, powerful, and important story about being one of the few kids of color in a prestigious private school. Eighth grader Drew Ellis is no stranger to the saying "You have to work twice as hard to be just as good." His grandmother has reminded him his entire life. But what if he works ten times as hard and still isn't afforded the same opportunities that his privileged classmates at the Riverdale Academy Day School take for granted? To make matters worse, Drew begins to feel as if his good friend Liam might be one of those privileged kids. He wants to pretend like everything is fine, but it's hard not to withdraw, and even their mutual friend Jordan doesn't know how to keep the group together. As the pressures mount, will Drew find a way to bridge the divide so he and his friends can truly accept each other? And most important, will he finally be able to accept himself? *New Kid*, the first graphic novel to win the Newbery Medal, is now joined by Jerry Craft's powerful *Class Act*.

Four-and-a-half-year-old Liam loves all Marine Creatures, but particularly SHARKS. Liam's fantasy is to be able to embark on underwater ocean adventures and talk to Sharks. One sunny day, when he goes fishing with his Dad, he meets Dearborn, a Great Whale Shark. To Liam's great surprise his eyes begin to shine with amazing magical beams, which enables him to talk to Dearborn! The Big Shark tells him he is a special Shark Boy and they have been waiting for him to come to their world. Together with his Granddad, Liam embarks on a Marvelous Adventure full of fun in the Deep Sea, with Goutomi the Japanese Stingray, Maximillian Forbes, the very posh Lion Fish and Pufferbee the little Prickle Puffer-fish! An exciting, adventure bedtime story book for children ages 4 to 8 who love marine life. This beautifully illustrated book about a Shark is the first in the series of Liam Shark Boy's adventures. The pictures of fish and the ocean animals teach curious children about the habits of the sea animals in a fun way. Brian Read Healthy Mum's Magazine 5-star rating 30/10/19 Liam Shark Boy Review by Brian R. on 30 Oct 2019 Book Style: Toddler and Kids Story book Reading Level: 3 (Reading Alone due to: Length of book and some descriptive vocabulary) Reading Length: 10-15 minutes (FYI - we never account for toddler questions) Illustration: Fun, cartoonish, cute Age Target: 1-8 Years of Age When reviewing this book, I was concerned about the sheer length of the story. However, as I got into the story, I found that the author had presented the story in beautifully constructed stand-alone segments. Those segments make it incredibly easy to read this book with a toddler, as it's just like a new story (with the same characters) every couple of pages. What's more, the book appears long (with 48 pages), but the font is large, and the illustrations provide interesting pauses for the young reader. What you're left with is a book that's really well written for toddlers and children alike. Brian Read - Children's Books There are several things to be impressed with in Liam Shark Boy. One of my favorite things about the book was the fact that...it was filled with facts! There are easy 2-3 facts per page that I, as a parent, learned during the story. What's more, I know my child was learning 5-6 things per page and enjoying the in-depth knowledge he was gaining about the ocean and sea life in general. Another thing that I loved about the book was just how specific everything was. For example, it wasn't just a boat that Liam went on with his father. No, it was a Kingfisher Offshore boat. We weren't just talking about a Porcupine Puffer Fish (and his family), we were talking about Pufferbee and Pufferbee's grandfather, Grandpuff. It's this specificity that really helps with retention in toddlers, and I loved how this story was so intentional in its inclusion of specifics. I think it's obvious from my review (above) that I really enjoyed Liam Shark Boy. Not only that, but my little boy enjoyed it just as much as I did, and isn't that what's important? He loved the magical story, the fact that Liam had super powers, and he loved all of the facts about the oceans and sea life. What's more, the story has been awarded a 2016 eLit Award in the Children's Books section, which should tell you all you need to know.

Paisley I met Liam when I was sixteen years old. There was something about him that tempted me to break all the rules. I was enthralled by his bad boy ways, but I knew there was so much more to him—a side of Liam that he didn't allow people to see. Little did I know, he'd save me on what could've been the worst day of my life. At that point, there was no going back. He was my everything. I felt safe in his arms. Until someone tried to kill me. Liam I was only seventeen years old when I met Paisley, and I haven't been able to keep my eyes off her ever since. She was everything I wasn't, but that didn't stop me from wanting her, from making her mine. I'd love and protect her with my life. The cartel started gunning for her, and that was the worst decision they could have made. They'll never know what hit them... Me.

Humans are mammals. Most of us appreciate that at some level. But what does it mean for us to have more in common with a horse and an elephant than we do with a parrot, snake or frog? After a misdirected football left new father Liam Drew clutching a uniquely mammalian part of his anatomy, he decided to find out more. Considering himself as a mammal first and a human second, Liam delves into ancient biological history to understand what it means to be mammalian. In his humorous and engaging style, Liam explores the different characteristics that distinguish mammals from other types of animals. He charts the evolution of milk, warm blood and burgeoning brains, and examines the emergence of sophisticated teeth, exquisite ears, and elaborate reproductive biology, plus a host of other mammalian innovations. Entwined are tales of zoological peculiarities and reflections on how being a mammal has shaped the author's life. *I, Mammal* is a history of mammals and their ancestors and of how science came to grasp mammalian evolution. And in celebrating our mammalian-ness, Liam Drew binds us a little more tightly to the five and a half thousand other species of mammal on this planet and reveals the deep roots of many traits humans hold dear. Perfect for fans of Jane Austen, this engrossing debut novel offers an unusual twist on the legacy of one of the world's most celebrated and beloved authors: two researchers from the future are sent back in time to meet Jane and recover a suspected unpublished novel. *London, 1815: Two travelers—Rachel Katzman and Liam Finucane—arrive in a field in rural England, disheveled and weighed down with hidden money. Turned away at a nearby inn, they are forced to travel by coach all night to*

London. They are not what they seem, but rather colleagues who have come back in time from a technologically advanced future, posing as wealthy West Indies planters—a doctor and his spinster sister. While Rachel and Liam aren't the first team from the future to "go back," their mission is by far the most audacious: meet, befriend, and steal from Jane Austen herself. Carefully selected and rigorously trained by The Royal Institute for Special Topics in Physics, disaster-relief doctor Rachel and actor-turned-scholar Liam have little in common besides the extraordinary circumstances they find themselves in. Circumstances that call for Rachel to stifle her independent nature and let Liam take the lead as they infiltrate Austen's circle via her favorite brother, Henry. But diagnosing Jane's fatal illness and obtaining an unpublished novel hinted at in her letters pose enough of a challenge without the continuous convolutions of living a lie. While her friendship with Jane deepens and her relationship with Liam grows complicated, Rachel fights to reconcile the woman she is with the proper lady nineteenth-century society expects her to be. As their portal to the future prepares to close, Rachel and Liam struggle with their directive to leave history intact and exactly as they found it...however heartbreaking that may prove.

When Gravelmuck Elementary's cleaning slimes escape and destroy the schoolyard with their acidic ooze, all claws and tails point to Mr. Snag, the school's caretaker, as the culprit. The detective duo must outwit their eight-legged principal and survive an ancient war between high-tech janitors and spell-slinging wizards. Can Tank and Fizz find the real monsters behind the slime stampede in time to clear Mr. Snag's name? *The Case of the Slime Stampede* is the first book in the Tank & Fizz mystery series about two crime-solving monsters living under a mountain.

Then Lucy comes to town, all blond hair and silky blouses and spike heels. It's her job to give Wilder Adventures a makeover. If she gets her way, Wilder Adventures will become Wilder Romantic Adventures. Lucy hates small towns, getting messy, and anything involving the woods or the water—which pretty much makes her Not My Type. That doesn't explain why when I see her, I can't look away. Why when I touch her, I can't stop. And why, even though I know no one can talk a city girl into small town life, I'm still trying. She's driving me wild. All I can do is make her wilder.
