"Night sniper : Cheryl Mabern is the NYPD's most brilliant detective - and the most damaged. Now she must confront her darkest fears to stop a calculating killer committing random murders"--Publisher's description.

When an ambitious female lawyer becomes the victim of harassment, she must decide what's more important: her family's safety or the rights she's fighting for. Set in Alabama in the early '80s, *Family Law* follows a young lawyer, Lucia, who is making a name for herself at a time when a woman in a courtroom is still a rarity. She's been the recipient of threats and vandalism for her work extracting women from painful and sometimes dangerous marriages, but her own happy marriage has always felt sheltered from the work she does. When her mother's pending divorce brings teenaged Rachel into Lucia's orbit, Rachel finds herself smitten--not just with Lucia, but with the change Lucia represents. Rachel is outspoken and curious, and she chafes at the rules her mother lays down as the bounds of acceptable feminine behaviour. In Lucia, Rachel sees the potential for a new path into womanhood. But their unconventional friendship takes them both to a crossroads. When a moment of violence--a threat made good--puts Rachel in danger, Lucia has to decide how much her work means to her and what she's willing to sacrifice to keep moving forward. Written in alternating voices from Lucia and Rachel's perspectives, *Family Law* is a fresh take on what the advancement of women's rights looks like on the ground to the ordinary women and girls who imagine a

Handling Hague abduction cases is challenging and fulfilling. Although Hague cases are tried very quickly, they still require an intimate knowledge of the Convention and of the voluminous case law that has developed around it. Hague cases also require a complete understanding of international child custody law in general and in particular, for U.S. practitioners, of the relationship between The Hague Convention and the Uniform Child Custody Jurisdiction & Enforcement Act. The Convention operates in the U.S. in ways that differ from those in other Hague countries. This is because of the federal legislation that implements the treaty, the concurrence of federal and state jurisdiction, the lack of a specialized group of judges who handle cases under the Convention, the uniform state legislation on child custody jurisdiction, and a host of other factors. When children are the subject of international family law disputes, the challenges are often great and emotions generally run high. Simply put, money can be divided but children cannot. This book is a must-have resource of any family law practitioner that wants to represent the best interests of his client and their heirs involved in a Hague case. "Sarah's story, told in her unique voice, inspires me--and I'm sure it will inspire you--to fight for family farmers." --Willie Nelson "An exquisitely written American saga." --Sarah Smarsh "Remarkably well told and heartfelt." --John Grisham The unforgettable true story of a young lawyer's impossible legal battle to stop the federal government from foreclosing on thousands of family farmers. In the early 1980s, farmers were suffering through the worst economic crisis to hit rural America since the Great Depression. Land prices were down, operating costs and interest rates were up, and severe weather devastated crops. Instead of receiving assistance from the government as they had in the 1930s, these hardworking family farmers were threatened with foreclosure by the very agency that Franklin Delano Roosevelt created to help them. Desperate, they called Sarah Vogel in North Dakota. Sarah, a young lawyer and single mother, listened to farmers who were on the verge of losing everything and, inspired by the politicians who had helped farmers in the '30s, she naively built a solo practice of clients who couldn't afford to pay her. Sarah began drowning in debt and soon her own home was facing

foreclosure. In a David and Goliath legal battle reminiscent of A Civil Action or Erin Brockovich, Sarah brought a national class action lawsuit, which pitted her against the Reagan administration's Department of Justice, in her fight for family farmers' Constitutional rights. It was her first case. A courageous American story about justice and holding the powerful to account, The Farmer's Lawyer shows how the farm economy we all depend on for our daily bread almost fell apart due to the willful neglect of those charged to protect it, and what we can learn from Sarah's battle as a similar calamity looms large on our horizon once again.

Law school was never Anna Dorn's dream. It was a profession pushed on her by her parents, teachers, society... whatever. It's not the worst thing that can happen to a person; as Dorn says, law school was pretty "cushy" and mostly entailed wearing leggings every day to her classes at Berkeley and playing beer pong with her friends at night. The hardest part was imagining what it would be like to actually be a lawyer one day. But then she'd think of Glenn Close on *Damages* and Reese Witherspoon in

Legally Blonde, and hoped for the best. After graduation, however, Dorn realized that there was nothing sexy about being a lawyer. Between the unflattering suits, sucking up to old men, and spending her days sequestered in a soul-sucking cubicle, Dorn quickly learned that being a lawyer wasn't everything Hollywood made it out to be. Oh, and she sucked at it. Not because she wasn't smart enough, but because she couldn't get herself to care enough to play by the rules. *Bad Lawyer* is more than just a memoir of Dorn's experiences as a less-than-stellar lawyer; it's about the less-than-stellar legal reality that exists for all of us in this country, hidden just out of sight. It's about prosecutors lying and filing inane briefs that lack any semblance of logic or reason; it's about defense attorneys sworn to secrecy-until the drinks come out and the stories start flying; and it's about judges who drink in their chambers, sexually harass the younger clerks, and shop on eBay instead of listening to homicide testimony. More than anything, this book aims to counteract the fetishization of the law as a universe based entirely on logic and reason. Exposing everything from law school to law in the media, and drawing on Dorn's personal experiences as well as her journalistic research, *Bad Lawyer* ultimately provides us with a fresh perspective on our justice system and the people in it, and gives young lawyers advice going forward into the 21st century. This new and comprehensive book will give you exactly what you need to understand and comply with the law. It provides an overview of the provisions for the new Bankruptcy Reform Act including new sanctions provisions in Chapter 7 cases;

everything you need to know to get through this and thrive is right here. This book argues that the legal understanding of 'family' in the UK continues to be underpinned by the idealised image of the 'nuclear family', premised upon the traditional, gendered roles of 'father as breadwinner' and 'mother as homemaker'. This examination of the law's model of the 'family' has been prompted by the substantial reforms that have taken place in family law in recent decades, and the significant evolution in social attitudes and familial practices that has occurred in parallel. Throughout the book, the influence of the nuclear family is noted in several different contexts: various specific legal definitions of 'family', the legal regulation of adult, conjugal relationships, the attribution of legal parenthood and the construction of the role of the 'parent' within the law. Ultimately, this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model, there has not, as yet, been any fundamental alteration of the underpinning concept of the nuclear family itself. This book concludes by considering the possibilities offered beyond the 'nuclear family'; exploring the reconceptualising of the legal understanding of 'family' around alternative and potentially 'radical' models of 'family'.
