Cosby, author of Blacktop Wasteland and Razorblade Tears An exhilarating spy thriller written by an intelligence veteran about two women CIA agents whose paths become intertwined around a threat to the Russia Division--one that's coming from inside the agency. Lyndsey Duncan worries her career with the CIA might be over. After lines are crossed with another intelligence agent during an assignment, she is sent home to Washington on administrative leave. An award-winning Scottish and Sierra Leonean novelist “brilliantly portrays the atmosphere” of Croatia in this haunting tale of war, history, and secrets (The Guardian). Visitors are not common in the small Croatian village of Gost, so Duro is surprised to see a strange car pull up to a well-known farmhouse just outside of town. Laura, a British woman, and her two children are refurbishing the home to be their summer cottage, and Duro agrees to lend a hand, becoming Laura’s confidant along the way. But the rest of the residents of Gost are not so pleased to have outsiders in their midst. As Duro works to shield Laura and her family from the town’s hostility, volatile secrets begin to bubble to the surface—secrets that could threaten everyone in the seemingly sleepy town, even the unwitting new residents. The Hired Man is a story of lost love, dangerous history, and quiet malice. “Not since Remains of the Day has an author so skillfully revealed the way history’s layers are invisible to all but it’s participants, who do what they must to survive” (The Boston Globe).

The internationally acclaimed, New York Times bestselling author returns to the magnificent universe he constructed in his bestselling novels The Shadow of the Wind, The Angel’s Game, and The Prisoner of Heaven in this riveting series finale—a heart-pounding thriller and nail-biting work of suspense which introduces a sexy, seductive new heroine whose investigation shines a light on the dark history of Franco’s Spain. In this unforgettable final volume of Ruiz Zafón’s cycle of novels set in the universe of the Cemetery of Forgotten Books, beautiful and enigmatic Alicia Gris, with the help of the Sempere family, uncovers one of the most shocking conspiracies in all Spanish history. Nine-year-old Alicia lost her parents during the Spanish Civil War when the Nacionales (the fascists) savagely bombed Barcelona in 1938. Twenty years later, she still carries the emotional and physical scars of that violent and terrifying time. Weary of her work as an investigator for Spain’s secret police in Madrid, a job she has held for more than a decade, the twenty-nine-year old plans to move on. At the insistence of her boss, Leandro Montalvo, she remains to solve one last case: the mysterious disappearance of Spain’s Minister of Culture, Mauricio Valls. With her partner, the intimidating policeman Juan Manuel Vargas, Alicia discovers a possible clue—a rare book by the author Victor Mataix hidden in Valls’ office in his Madrid mansion. Valls was the director of the notorious Montjuic Prison in Barcelona during World War II where several writers were imprisoned, including David Martín and Victor Mataix. Traveling to Barcelona on the trail of these writers, Alicia and Vargas meet with several booksellers, including Juan Sempere, who knew her parents. As Alicia and Vargas come closer to finding Valls, they uncover a tangled web of kidnappings and murders tied to the Franco regime, whose corruption is more widespread and horrifying than anyone imagined. Alicia’s courageous and uncompromising search for the truth puts her life in peril. Only with the help of a circle of devoted friends will she emerge from the dark labyrinths of Barcelona and its history into the light of the future. In this haunting new novel, Carlos Ruiz Zafón proves yet again that he is a masterful storyteller and pays homage to the world of books, to his ingenious creation of the Cemetery of Forgotten, and to that magical bridge between literature and our lives.

Responding to a cryptic summons to a remote country house, London bookseller Isaac Inchbold finds himself responsible for restoring a magnificent library pillaged during the English Civil War, and in the process slipping from the surface of 1660s London into an underworld of spies and smugglers, ciphers and forgeries. As he assembles the fragments of a complex historical mystery, Inchbold learns how Sir Ambrose Plessington, founder of the library, escaped from Bohemia on the eve of the Thirty Years War with plunder from the Imperial Library. Inchbold's hunt for one of these stolen volumes - a lost Hermetic text - soon casts him into an elaborate intrigue; his fortunes hang on the discovery of the missing manuscript but his search reveals that the elusive volume is not what it seems and that he has been made an unwitting player in a treacherous game.

This volume is a collection of papers that highlights some recurring themes that have surfaced in the generative tradition in linguistics over the past 40 years. The volume is more than a historical take on a theoretical tradition; rather, it is also a "compass" pointing to exciting new empirical directions inspired by generative theory. In fact, the papers show a progression from core theoretical concerns to data-driven experimental investigation and can be divided roughly into two categories: those that follow a syntactic and theoretical course, and those that follow an experimental or applied path. Many of the papers revisit long-standing or recurring themes in the generative tradition, some of which seek experimental validation or refutation. The merger of theoretical and experimental concerns makes this volume stand out, but it is also forward looking in that it addresses the recent concerns of the creation and consumption of data across the

A New York Times bestseller! "Lively and absorbing. . ." — The New York Times Book Review "Engrossing." —Wall Street Journal "Entertaining and well-researched . . ." —Houston Chronicle Three noted Texan writers combine forces to tell the real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as *Forget the Alamo* definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record, and the origin of the conflict over Mexico's push to abolish slavery papered over. *Forget the Alamo* provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.

A moving portrait of Africa from Poland's most celebrated foreign correspondent - a masterpiece from a modern master. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. The Shadow of the Sun sums up the author's experiences ("the record of a 40-year marriage") in this place that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work.

"It was...unnecessary for me to fret about who the murderer was: Everybody was." A haunting, never-before-translated, autobiographical novella by the 2002 Nobel Prize winner. An unnamed narrator recounts a simple anecdote, his sighting of the Union Jack—the British Flag—during the Hungarian Revolution of 1956, in the few days preceding the uprising's brutal repression by the Soviet army. In the telling, partly a digressive meditation on "the absurd order of chance," he recalls his youthful self, and the epiphanies of his intellectual and spiritual awakening—an awakening to a kind of radical subjectivity. In his Nobel address Kertész remembered: "I, on a lovely spring day in 1955, suddenly came to the realization that there exists only one reality, and that is me, my own life, this fragile gift bestowed for an uncertain time, which had been seized, expropriated by alien forces, and circumscribed, marked up, branded—and which I had to take back from 'History', this dreadful Moloch, because it was mine and mine alone..." The Contemporary Art of the Novella series is designed to highlight work by major authors from around the world. In most instances, as with Imre Kertész, it showcases work never before published; in others, books are reprised that should never have gone out of print. It is intended that the series feature many well-known authors and some exciting new discoveries. And as with the original series, The Art of the Novella, each book is a beautifully packaged and inexpensive volume meant to celebrate the form and its practitioners.

Our climate is changing fast. The future is uncertain, probably fiery, and likely terrifying. Yet shifting weather patterns have threatened humans before, right here in North America, when people first colonized this continent. About 15,000 years ago, the weather began to warm, melting the huge glaciers of the Late Pleistocene. In this brand new landscape, humans managed to adapt to unfamiliar habitats and dangerous creatures in the midst of a wildly fluctuating climate. What was it like to live with huge pack-hunting lions, saber-toothed cats, dire wolves, and gigantic short-faced bears, to hunt now extinct horses, camels, and mammoth? Are there lessons for modern people lingering along this ancient trail? The shifting weather patterns of today—what we call "global warming"—will far exceed anything our ancestors previously faced. Doug Peacock's latest narrative explores the full circle of climate change, from the death of the megafauna to the depletion of the ozone, in a deeply personal story that takes readers from Peacock's participation in an archeological dig for early Clovis remains in Livingston, MT, near his home, to the death of the local whitebark pine trees in the same region, as a result of changes in the migration pattern of pine beetles with the warming seasons.

This magnificent novel by one of America's finest writers is the epic of one man's remarkable journey, set in nineteenth-century America against the background of a vanishing people and a rich way of life. At the age of twelve, under the Wind moon, Will is given a horse, a key, and a map, and sent alone into the Indian Nation to run a trading post as a bound boy. It is during this time that he grows into a man, learning, as he does, of the raw power it takes to create a life, to find a home. In a card game with a white Indian named Featherstone, Will wins – for a brief moment – a mysterious girl named Claire, and his passion and desire for her spans this novel. As Will's destiny intertwines with the fate of the Cherokee Indians – including a Cherokee Chief named Bear – he learns how to fight and survive in the face of both nature and men, and eventually, under the Corn Tassel Moon, Will begins the fight against Washington City to preserve the Cherokee's homeland and culture. And he will come to know the truth behind his belief that "only desire trumps time." Brilliantly imagined, written with great power and beauty by a master of American fiction, Thirteen Moons is a stunning novel about a man's passion for a woman, and how loss, longing and love can shape a man's destiny over the many moons of a life.

From master storyteller Carlos Ruiz Zafon, author of the international phenomenon *The Shadow of the Wind*, comes *The Angel's Game* — a dazzling new page-turner about the perilous nature of obsession, in literature and in love. The whole of Barcelona stretched out at my feet and I wanted to believe that when I opened those windows — my new windows — each evening its streets would whisper stories to me, secrets in my ear, that I could catch on paper and narrate to whomever cared to listen... In an abandoned mansion at the heart of Barcelona, a young man, David Martin, makes his living by writing sensationalist novels under a pseudonym. The survivor of a troubled childhood, he has taken refuge in the world of books and spends his nights spinning baroque tales about the city's underworld. But perhaps his dark imaginings are not as strange as they seem, for in a locked room deep within the house lie photographs and letters hinting at the mysterious death of the previous owner. Like a slow poison, the history of the place seeps into his bones as he struggles with an impossible love. Close to despair, David receives a letter from a reclusive French editor, Andreas Corelli, who makes him the offer of a lifetime. He is to write a book unlike anything that has ever existed — a book with the power to change hearts and minds. In return, he will receive a fortune, and perhaps more. But as David begins the work, he realizes that there is a connection between his haunting book and the shadows that surround his home. Once again, Zafon takes us into a dark, gothic universe first seen in *The Shadow of the Wind* and creates a breathtaking adventure of intrigue, romance, and tragedy. Through a dizzyingly constructed labyrinth of secrets, the magic of books, passion, and friendship blend into a masterful story.

A tale spanning three decades in the life of Dawes Williams depicts his growth from precocious boy to town eccentric as it reflects the experience of growing up in Iowa farm country during the 1950s.
