#1 NEW YORK TIMES BESTSELLER • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS In this iconic memoir of his early days, Barack Obama “guides us straight to the intersection of the most serious questions of identity, class, and race” (The Washington Post Book World). “Quite extraordinary.”—Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother’s family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father’s life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* “Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride’s *The Color of Water* and Gregory Howard Williams’s *Life on the Color Line* as a tale of living astride America’s racial categories.”—Scott Turow “Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither.”—The New York Times Book Review “Obama’s writing is incisive yet forgiving. This is a book worth savoring.”—Alex Kotlowitz, author of *There Are No Children Here* “One of the most powerful books of self-discovery I’ve ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good novel.”—Charlayne Hunter-Gault, author of *In My Place* “*Dreams from My Father* is an exquisite, sensitive study of this wonderful young author’s journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. As Yehuda Berg showed with *The 72 Names of God*, hidden beneath the surface of ancient texts exist powerful, transformative technologies. Dreams, he says, offer valuable messages and wisdom, and to ignore them is the same as leaving a potentially life-changing letter unopened. Berg shows readers how to interpret the directions in their dreams, from how to find a soul mate to ways to deflect negative energy and judgments.

Abusir, Egypt 1800s, 'Band of Peace' Pyramids: Karl Richard Lepsius listed more than sixty pyramids. We are now aware of more than one hundred such structures still hidden beneath the sand. "The late Egyptologist and indigenous wisdom keeper Ab'del Hakim Awyan, who was born in the village of Abusir near the Giza Plateau, stated Egyptians include twenty-two of these pyramids in what they call the 'Band of Peace' which includes Giza and other sites both north and south of that along the Nile." The Great Pyramid of Giza is located directly at the center of the earth's landmass. During 2170-2144 BCE, the Descending Passage of the pyramid pointed to Alpha Draconis [the North/Pole star]. No other star has aligned with the passage since that time. They were not only constructed and aligned to mirror the positions of the stars, but designed to replicate the harmonic cavities within the human body. The Pyramids are sophisticated oscillation systems. Each chamber, tuned to a specific biologic frequency. The priests used the sound waves to restore the body of those suffering to a correct resonant balance. What they discovered about the power of resonance was only the beginning. The North Pole Admiral Byrd flew into the inner Earth while over Antarctica on February 19th, 1947, he was

under the impression he had discovered the mythical city of Shambala. Mythical, being the keyword here. The Resolutionist's Agenda: Three Hours Ago... There is a balance to everything, the duality of Yin & Yang. But magic comes in threes. The transition; usually signaled by the arrival of a comet, begins. The trials commence, the mythology finds its footing and builds, tempered in fire by the evil that wants them to fail. Wholesomeness and decency have fallen out of favor. They rankle the nightmares who prefer the world dark. Snow White's lookalike has been poisoned. Prince Charming was bankrupted and sold into bondage. It has all been building to here. The cast of Gathering & Persistence failed to comprehend the rules of the game. Every two thousand years, a transformation takes place, and the world changes. But for a smooth transition, the pieces had to be gathered. Temperaments grew and matured. A cast of wanderers, warriors, and wisdom seekers discovered. A new group, forged in fire, came together. But God has a sense of humor. It is not until you free yourself of all you thought you knew that you see it. Christmas is indeed a feeling, a gift that needs earning. Christmas is not a given, but there are protectors, and always, there are two. Santa Claus is not a person. It is a couple. A thousand individual pieces. A million clues. If we find our hearts, we get paradise again. You see, God works in mysterious ways. But it has given us free will and placed the clues in plain sight; our story, written and preserved in the library of forever. With any jigsaw puzzle, you start with the edges and follow the colors. The patterns begin to build with every piece laid until the bigger picture emerges. But God has a sense of humor, and it's not until you set yourself free that you see the depth of it. We find hope in our adolescent fables. We all have a destiny, however minor that may be. Something summoned, significant, consequential even, to some effect, that resides somewhere within our hearts. By completing my childhood promise, my life took a turn. What started as a debt paid grew into something beyond my wildest imagination. I hope I can do it justice. Christmas is coming. "When did you two grumpmuffins know?" "Leo told us after we initiated him." "He had been visiting her in dreams, so he knew your other half." "We set out to find the rest of the puzzle when M'olga tore us apart. You're not going to believe what we found." "Just so you know, Rudolph isn't red; he's an orange."

"From The collected works of C.G. Jung, volumes 4, 8, 12, 16"--P. [i].

There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is

possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. *168 Hours* is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.

A groundbreaking history of the human mind told through our experience of dreams—from the earliest accounts to current scientific findings—and their essential role in the formation of who we are and the world we have made. What is a dream? Why do we dream? How do our bodies and minds use them? These questions are the starting point for this unprecedented study of the role and significance of this phenomenon. An investigation on a grand scale, it encompasses literature, anthropology, religion, and science, articulating the essential place dreams occupy in human culture and how they functioned as the catalyst that compelled us to transform our earthly habitat into a human world. From the earliest cave paintings—where Sidarta Ribeiro locates a key to humankind's first dreams and how they contributed to our capacity to perceive past and future and our ability to conceive of the existence of souls and spirits—to today's cutting-edge scientific research, Ribeiro arrives at revolutionary conclusions about the role of dreams in human existence and evolution. He explores the advances that contemporary neuroscience, biochemistry, and psychology have made into the connections between sleep, dreams, and learning. He explains what dreams have taught us about the neural basis of memory and the transformation of memory in recall. And he makes clear that the earliest insight into dreams as oracular has been elucidated by contemporary research. Accessible, authoritative, and fascinating, *The Oracle of Night* gives us a wholly new way to understand this most basic of human experiences.

A deluxe hardcover edition of the astonishing classic of spiritual psychology: this brief manifesto reveals the THREE SIMPLE STEPS to attaining your desires. So SIMPLE you won't believe it -- until you try it... "Gloriously succinct...the author — whose initials stood for Roy Herbert Jarrett, a Chicago salesman and ad man — distills the positive-thinking enterprise into a (deceptively) simple exercise of itemizing your desires in a list. If approached with maturity, Jarrett's exercise amounts to a personal inventory-taking and a meaningful assessment of one's true aims." --Mitch Horowitz, Time.com IF YOU KNOW WHAT YOU WANT YOU CAN HAVE IT . . . With this statement the author known by the initials RHJ. put a dramatic challenge to readers in 1926. His claim was so sensational, so audacious, so begging of argument that one immediately wants to dismiss it. But for one thing: IT WORKS. RHJ's little pamphlet, It Works, has sold more than 1.5 million copies, and won the dedication of generations of readers who have purchased it by the fistful to hand out to friends. The author's three-step method is simplicity itself: 1) Write down your desires on a list. 2) Read it morning, noon, and night. 3) Tell no one about it. But don't be fooled: Tucked within the folds of this unthinkably simple plan are a set of psychological and metaphysical verities that produce extraordinary results. It Works distills centuries of spiritual striving into one tantalizingly concise program. The strange little book that has found its way into the hearts of readers across the world is now available in a special deluxe edition with bonus material. This immortal keepsake edition is suited to a lifetime of reading, re-reading, and note-taking, It Works: Deluxe Edition features: **Paper overboard cover with glossy finish and metallic ink **red gilding on page edges **red ribbon place marker **four-color photographic frontispiece displaying four vintage covers of It Works **full text of It Works **Complete photo reproduction of the first edition of It Works **Bonus chapter: "The 3-Step Miracle: The Story of It Works" by Mitch Horowitz, which explores the identity of RHJ, the source of his program -- and WHY it works.

Warm, wise, and magical—the latest novel by the bestselling author of THE LITTLE PARIS BOOKSHOP and THE LITTLE FRENCH BISTRO is an astonishing exploration of the thresholds between life and death Henri Skinner is a hardened ex-war reporter on the run from his past. On his way to see his son, Sam, for the first time in years, Henri steps into the road without looking and collides with oncoming traffic. He is rushed to a nearby hospital where he floats, comatose, between dreams, reliving the fairytales of his childhood and the secrets that made him run away in the first place. After the accident, Sam—a thirteen-year old synesthete with an IQ of 144 and an appetite for science fiction—waits by his father's bedside every day. There he meets Eddie Tomlin, a woman forced to confront her love for Henri after all these years, and twelve-year old Madelyn Zeidler, a coma patient like Henri and the sole survivor of a traffic accident that killed her family. As these four very different individuals fight—for hope, for patience, for life—they are bound together inextricably, facing the ravages of loss and first love side by side. A revelatory, urgently human story that examines what we consider serious and painful alongside light and whimsy, THE BOOK OF DREAMS is a tender meditation on memory, liminality, and empathy, asking with grace and gravitas what we will truly find meaningful in our lives once we are gone.
