A leading mind-body researcher provides an invaluable resource of solid scientific evidence for consciousness-based healing—along with practices anyone can use. Spontaneous remission, the placebo effect, and energy healing—these phenomena have baffled the medical community for decades. What do all these marvels tell us? “Our current models of medicine fall short of understanding the depths of our human healing potential,” says Dr. Shamini Jain. “We are on the cusp of finally becoming awake to our human healing potential. A growing number of scientists are exploring a new path—a true expansion of science joined with understandings from ancient concepts of spirituality.” With *Healing Ourselves*, Dr. Jain presents a new vision of health and healing. Here she rejects the “either-or” thinking that has placed conventional medicine at odds with so-called alternative methods—offering an integrated path based on sound scientific evidence and personal empowerment. Join her to explore:

- Biofield science—peer-reviewed research on the inseparable relationship between consciousness and healing
- The placebo and beyond—what placebo research tells us about the power of consciousness to heal ourselves, whether we choose drugs, surgery, or holistic medicine
- Evidence—what strong, published research actually says about the healing power of holistic practices such as yoga, tai chi, meditation, and energy healing
- The Healing Keys—in-depth instruction with evidence-based recommendations and ancient spiritual practices that you can integrate into your life for healing yourself

Today more than ever, we realize that we must change the way we think about health care—and our ability to heal ourselves. “The good news is there is a way forward,” teaches Dr. Jain. “The flame that lights the path burns brighter than the darkness of ignorance and suffering we have found ourselves in.” With *Healing Ourselves*, this inspiring teacher shares a holistic model of health that we have known in our hearts, all along, to be true.

Erwan Le Corre, creator of the world-renowned fitness system MovNat, is on a mission to reintroduce natural movement to our modern lives with the most ancient movement skill set: walking, running, balancing, jumping, crawling, climbing, swimming, lifting, carrying, throwing, catching, and self-defense. Try to imagine an out-of-shape tiger stepping on an exercise machine to get a workout. It doesn't make any sense, does it? Wild animals simply move the way nature intended, and they become powerful, healthy, and free in the process. So why should it be any different for us? We have become “zoo-humans,” separated from nature and living movement-impooverished, unnatural lifestyles. As a result, we are suffering physically, mentally, and spiritually. Exercise has become artificial and boring--a chore, if not a punishment. We are training parts of our bodies, not the whole, and we have lost our drive for movement. What we need is not a better understanding of exercise physiology or more variety in fitness programs and modalities. What we need is

simplicity, meaning, purpose, inspiration, and enjoyment. We need to get back to natural movement. In *The Practice of Natural Movement*, Le Corre demonstrates our innate and versatile ability to perform practical and adaptable movements. With countless techniques and movement variations, as well as strategies for practicing anytime and anywhere, he will inspire you to build a naturally strong and flexible body and to form yourself anew into a mindful, skillful, and physically capable human being.

The Warrior's Meditation, by award-winning author of *The Unbound Soul*, Richard L. Haight, teaches the original, instinctive, non-religious form of meditation that has been all but lost to the world. Richard L. Haight, master of four samurai arts, shares the best-kept secret in self-improvement, cognitive development, and stress-relief in the world. You may wonder how the Samurai's experience bears any resemblance to your modern life. After all, no armies or assassins seem to be trying to attack you or your town. In one way, we are not so different from the Samurai. With our busy lives, we don't have time to spend hours a day in meditation. Instead, we need a meditation that allows our actions in a high-pressure, fast-paced world to flow from a depth of awareness. *The Warrior's Meditation* helps you access and express from that depth naturally. Surprisingly, a significant body scientific research verifies the benefits associated with regular meditation practice. Below are some of the benefits associated with daily meditation:

- ? Boosts health through improved immune function, decreased cellular inflammation and pain.
- ? Boosts happiness by increasing positive emotion while decreasing anxiety, depression, and stress.
- ? Improves your ability to introspect, which provides a more holistic, grounded life perspective.
- ? Improves your social life as it increases emotional intelligence and compassion while reducing feelings of insecurity.
- ? Improves your brain by increasing grey matter in areas related to paying attention, positive emotions, emotional regulation, and self-control.
- ? Reduces emotional reactivity.
- ? Improves memory, creativity and abstract thinking.

The Warrior's Meditation is unlike any other meditation. This method is flexible in application, which allows it to blend with whatever your day has in store. Through short, daily sessions, the many scientifically verified cognitive and physical health benefits of daily meditation will open up to you through your active life. No longer do you need to retreat from life to meditate, for with *The Warrior's Meditation*, you can bring calm, clear awareness and vibrant life with you wherever you are. Eventually, you will fully embody meditation as a way of being, not just a doing.

What Doesn't Kill Us, a New York Times bestseller, traces our evolutionary journey back to a time when survival depended on how well we adapted to the environment around us. Our ancestors crossed deserts, mountains, and oceans without even a whisper of what anyone today might consider modern technology. Those feats of endurance now seem impossible in an age where we take comfort for granted. But what if we could regain some of our lost evolutionary strength by simulating the environmental conditions of our ancestors? Investigative journalist and anthropologist Scott Carney takes up the challenge to find out: Can we hack our bodies and use the environment to stimulate our inner biology? Helping him in his search for the answers is Dutch fitness guru Wim Hof, whose ability to control his body temperature in extreme cold has sparked a whirlwind of scientific study. Carney also enlists input from an Army scientist, a world-famous surfer, the founders of an obstacle course race movement, and ordinary people who have documented how they have cured autoimmune diseases, lost weight, and reversed diabetes. In the process, he chronicles his own transformational journey as he pushes his body and mind to the edge of endurance, a quest that culminates in a record-breaking, 28-hour climb to the snowy peak of Mt. Kilimanjaro wearing nothing but a pair of running shorts and sneakers. An ambitious blend of investigative reporting and participatory journalism, What Doesn't Kill Us explores the true connection between the mind and the body and reveals the science that allows us to push past our perceived limitations.

THE SUNDAY TIMES BESTSELLER 'This book will change your life' BEN FOGLE 'Positive and persuasive' ANTON MIDDLETON My hope is to inspire you to retake control of your body and life by unleashing the immense power of the mind. The 'Iceman' Wim Hof shares his remarkable life story and powerful method for supercharging your strength, health and happiness. Wim Hof is widely celebrated for his astounding achievements, breaking world records withstanding extreme temperatures and running barefoot marathons over deserts and ice fields. Most of all, he's shown us that these feats are not superhuman - but that all of us have the ability to be stronger, healthier and happier than we've ever imagined. In The Wim Hof Method, this trailblazer of human potential shares his simple three-pillar approach that anyone can use to improve health and performance - and see real results within just a few days. Refined over forty years and championed by scientists across the globe, you'll learn how to harness three key elements of Cold, Breathing and Mindset to master mind over matter and achieve the impossible. 'Wim is a legend of the power ice has to heal and empower' BEAR GRYLLS 'Thor-like and potent...Wim has radioactive charisma' RUSSELL BRAND

Summary of The Wim Hof Method The Wim Hof Method by Wim Hof will describe a method that combines breathing exercises, cold training, and commitment. The method is named after Wim Hof, as he is the one who brought these three components together. It is also named after Hof for practical reasons—he is already well-known for his many appearances on television showing what he can do with the cold. The method is based on Wim Hof's many years of training in the natural environment. For a long time, he has tested his body's limits by exposing it to increasingly extreme challenges. One important discovery he made during this process was the ability to control his bodily functions in a way that science had not deemed possible. For example, anyone

can lift their right hand and scratch their nose with their index finger, but no one can fight bacteria that have been injected into their arm. Hof can do that. He can influence and control his autonomic nervous system. The autonomic nervous system regulates things like your body temperature, heart rate, blood pressure, and breathing and determines whether your blood vessels dilate or contract. In other words, everything that automatically happens in your body. "Normal" people cannot control these functions. In the autonomic nervous system, everything happens automatically. The fact that Hof can control his autonomic functions has long been regarded as a medical wonder. But Hof sees it differently: he is convinced that everyone is theoretically capable of influencing their autonomic nervous systems. In 2014, he was proven correct. A scientific study conducted at the Radboud University Medical Centre with 24 test subjects showed that people who had practiced the Hof method were all able to control their autonomic nervous systems. * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will learn how to use cold and breathing to increase your physical and mental capacities. You will also learn : how to have more energy; how to get rid of fatigue; how to have a better immune system; how to lose weight; how to have more control over your body. Wim Hof is nicknamed "The Iceman". He has swum under the ice, run a marathon in shorts and shirtless in -16°C on numerous occasions, both in front of the cameras and in front of scientists. However, if this exceptional man can do such things, it is probably because of specific biological factors? Well not at all! He claims that everyone can easily do it by practicing how to withstand the cold and by practicing some breathing exercises that he has developed. This is the "Wim Hof method". Will you be able to apply it? *Buy now the summary of this book for the modest price of a cup of coffee!

Learn how to improve your health and wellness with the healing magic of cannabis, CBD and medicinal mushrooms. When health coach and wellness blogger Jenny Sansouci learned that her father was diagnosed with stage 4 pancreatic cancer, her extensive knowledge of the latest alternative therapies was put to the test. Jenny dove into the world of cannabis and mushrooms and their medicinal properties - and she and her dad are now outspoken champions of the healing power of these plants and fungi - not only to tame the side effects of chemotherapy, but to address everyday wellness concerns. The Rebel's Apothecary is the result of her heartfelt and rigorous quest -- a science-based and supportive guide that will enhance the lives of anyone living with pain, anxiety, depression, a weakened immune system, insomnia, and more. Complete with background information, dosing instructions, and everyday recipes, this is the essential handbook for harnessing the ancient healing powers of cannabis and mushrooms --safely, without confusion, fear, or an unwanted high. In addition to debunking myths and de-stigmatizing these powerful healing plants and fungi, The Rebel's Apothecary presents: • Specific protocols and dosage guides for wellness uses (mood, sleep, immunity, focus, energy) and managing common chemotherapy side effects • Everyday wellness routines • Recipes for delicious, easy, health-enhancing cannabis and mushroom infused smoothies, coffee drinks, teas, elixirs, gummies, and broths - including recipes from chefs and wellness experts like Dr. Andrew Weil, Kris Carr, Seamus Mullen, Marco Canora and more • The latest research

on CBD, THC, medicinal mushrooms and psilocybin • Tips for creating a cutting-edge home apothecary of your own

Note to Readers: This is an unofficial summary & analysis of Wim Hof's "Wim Hof Method" designed to enrich your reading experience. THE WIM HOF METHOD BY WIM HOF will describe a method that combines breathing exercises, cold training, and commitment. The method is named after Wim Hof, the extreme athlete who brought these three components together. It is also named after Hof for practical reasons: he is already well-known for his many appearances on television showing how his body is able to deal with extreme temperatures. The method is based on Wim Hof's many years of training in the natural environment. For a long time, he has tested his body's limits by exposing himself to increasingly extreme challenges. The Wim Hof Method Activate Your Full Human Potential Sounds True

Science has now proved that the legendary Wim Hof Method of breath control and cold-training can dramatically enhance energy levels, improve circulation, reduce stress, boost the immune system, strengthen the body and successfully combat many diseases. While Wim Hof himself has run marathons in -30 C in shorts, swum hundreds of meters under the ice, sat in a tank of ice for 90 minutes without his core temperature changing and boosted his metabolism by over 300%, The Way of The Iceman documents how anyone can use Wim's methods to transform their health and strength, quickly and safely. -After teaching specialized breathing techniques to SEALs for years, helping them focus, stay warm in the cold ocean and get centered in combat, I can attest to the authenticity and power of Wim Hof's methods. Wim Hof is providing a great service with his new book The Way of The Iceman by bringing breath training and simple, powerful health practices into mainstream consciousness. - --Mark Divine, US Navy SEAL (ret), Founder SEALFIT, Best selling author of Unbeatable Mind and Way of the SEAL ? -I am continuously searching for ways to expand my mind, body and spirit--Wim Hof and The Way of The Iceman have done just that! He shows us that human potential is limitless and we are ALL capable of anything we set our minds to.- ?--Lewis Howes, New York Times bestselling author of The School of Greatness -What fascinates me most about Wim Hof's method is the potential application for athletes...the science in this book shows that we can all amplify our recovery, maximize our pain tolerance, massively jack up energy levels and even learn to control inflammation...and it can be done without resorting to toxic drugs. In fact, the system outlined in this manual might just be the key to producing a generation of enhanced but drug-free athletes.- ?--Paul -Coach- Wade, author of Convict Conditioning -Inspiration inspires. What I like most about Wim and his book is how he taught me to trust my body, overcome fear and give me the best opportunity for success. He mixes personal experience and science--which becomes truly motivating. Wim provides the tools you need to master self-discipline, gain courage and live a vibrant life. He is Aquaman and Tony Robbins rolled

into one. He is The Iceman!- --Jesse Itzler, author of Living With A SEAL -Homo sapiens is a species that is uniquely and tragically ill-adapted to our environment. Maladies ranging from heart disease to diabetes to autoimmune disorders are generated by the mismatch between the natural world we evolved to live in and the artificial realms in which we find ourselves today. Wim Hof's teachings show us how to recalibrate our bodies in a way that recognizes the extremes of our natural environment as teachers to be celebrated and consulted, rather than enemies to be insulated against. Wim's deepest insights resonate with our hunter-gatherer ancestors, who understood the wisdom of adapting to the natural world rather than trying to dominate and control it.- --Christopher Ryan, PhD., New York Times best-selling author of Sex at Dawn -We live in a chaotic modern world with daily assaults on our health from frenetic schedules, poor sleep, high stress, chronic disease, and infectious illness. Our brain and nervous system have been hijacked by this toxic environment, always on high alert with real consequences to our physical and mental health. With The Way of The Iceman, Wim Hof has given a profound gift to public health. The science is solid and the results actual and measureable. As you follow his remarkable life story it is readily apparent that this man is no charlatan or snake oil salesman. Through years of commitment and self-experimentation, Wim has empirically figured out how to exert significant control over the autonomic nervous system, a feat once thought impossible. His method has held up to scrutiny under the dispassionate lens of science, expanding our knowledge of what is possible with dedicated training in what is now known as the Wim Hof Method. Deceptively simple, and incredibly powerful, The Way of the Iceman gives you not only the scientific framework, but actionable steps you can implement to take back control over your high-jacked brain, increase resilience from illness, and start healing yourself from the inside out. The Wim Hof Method has become a cornerstone in my personal daily wellness plan, and as a public health physician, I cannot recommend it highly enough.- --Dr. Chris Hardy, D.O. MPH, CSCS, Public Health Physician, Integrative Medicine Specialist -The Way of The Iceman is one of only two books in my life that I have read cover to cover the first time I put my hands on it. What won me over was the simplicity of the explanations of diabetes, inflammation and the family of modern ills. Moreover, the discussion on diet, just a brief mention of 'Fast-Five, ' is the first time I actually understood not only how inflammation is such an issue, but a means to deal with it. This book is the missing link for most of us: the discussion of breathing is so simple, yet so doable; coaches and athletes will understand a newer and simpler means of recovery. Nothing in the book is over the top and we are talking about a guy who swims under ice. The method is so simple, yet so elegant. It's marvelous and I think you will apply the techniques immediately.- --Daniel John, author of Never Let Go -Wim Hof has learned to control his physiology in a way rarely seen in human history. This book takes his extraordinary techniques and simplifies them so you can optimize your health and wellness. I recommend you learn the unique methods Wim has mastered in order to add vitality to your body and life.- --Chad Waterbury, neurophysiologist, author The Muscle Revolution -I found The Way of The Iceman absolutely fascinating! Many of us are familiar with the numerous benefits of cold training, such as increased energy levels, better circulation and improved mood, but nothing on the subject has ever been presented of this magnitude before! The legend himself, Wim Hof, along with Koen De Jong, share not only a detailed account of Mr. Hof's lifetime achievements (such as running a marathon in the

Arctic... in just a pair of shorts!), but also practical, actionable methods that anyone can employ. This book has everything from progressive cold submersion methods to breathing techniques. It delves into meditation and spirituality, but also presents the hard science to back it up. Any fan of physical culture or anybody curious about how far the human limits can be pushed needs to add this to their library.- --Danny Kavadlo, author of Strength Rules -Wim Hof's techniques healed my gut where nothing else would. And I tried everything. The Way of The Iceman should be required reading. The world is just beginning to realize the extraordinary gift we have in Wim Hof.- --Mark Joyner, founder of Simpleology -As someone who enjoys bare-chested, outdoor winter calisthenics workouts, Wim Hof's extreme cold weather feats immediately appealed to me. The Wim Hof Method is so simple that anyone can get started right away. And the results are so palpable that once you start, you'll almost certainly want to keep going.- --Al Kavadlo, author of Street Workout and Pushing The Limits! -Wim Hof first came across my radar a few years ago when I heard of a crazy Dutchman defying the laws of thermodynamics. How could a man submerge himself in freezing water for prolonged periods of time without hypothermia? How was it possible for his body temperature to stay the same during the process? This book is an enlightening look into the nervous system, and the amazing power of the mind. Don't mistake this for simple 'cold therapy' although that is a piece of the puzzle. This book will give you a front row seat to an education on the nervous system, and how one man and his disciples have learned to control it in a way that we previously thought was impossible. I found The Way of The Iceman fascinating.- --Max Shank, founder of Ultimate Athleticism and author of Master The Kettlebell When I read The Way of The Iceman I was struck with awe and hope! Wim has brought scientific evidence to what I personally believe and have been teaching my students for years about breathing, bioenergetics and our connection to the spirit world. By demystifying the religious Wim is helping to support a Truth in the New World; mainly that spirituality without science descends into superstition, and science without spirituality degrades humanity into the meaninglessness of materialism.- --Elliott Hulse -Wim Hof makes the seemingly mystical and extraordinary, ridiculously easy to access. Anyone who is willing to explore the latent powers of deep breathing and imagination will feast upon his unique story and his method of overpowering the unconquerable elements of nature.---Matt Furey, author of Combat Conditioning -What lies within this book is the key to accessing power whenever and wherever on demand. A tool to transcend consciousness and tap into the highest version of yourself. Never have I experienced anything that allowed me to instantly shift vibration and release such energy.---AJ Roberts, Fitness Hall of Fame and All-Time World Record Holder

Dr. Belisa Vranich's ground-breaking second book teaches the science, techniques, and benefits of breathing correctly and efficiently for warriors in all walks of life. People are less in touch with their bodies—and especially their breathing—than ever before. Ironically, athletes and others who pride themselves on taking care of their bodies actually put themselves at greater risk. Why? Because they're asking their body to take on next-level demands, but failing at life's most essential skill: efficient breathing. Proper breathing is the world's most powerful biohack. Learning it will help you feel better, avoid injury, and perform at your very best (including in bed!). Champion gladiators, master martial artists, even spearfishers all had one thing in common: efficient

breathing to achieve flawless execution. An elite few still understand: Navy SEALs who need to make the perfect shot, super-elite weightlifters who truly understand how to harness and channel their energy, free-divers who can spend seemingly impossible amounts of time underwater, and high-profile execs who keep calm before multi-billion-dollar presentations. You can learn their secrets. From the corporate athlete to the tactical ninja, *Breathing for Warriors* is a practical, science-forward book that focuses on everything related to breathing and performance—from muscles and workouts to an impenetrable inner game.

Now expanded and updated—the #1 New York Times bestselling book in which one of America's most brilliant doctors shares his famous program for improving and protecting your health *Eight Weeks to Optimum Health* lays out Dr. Andrew Weil's famous week-by-week, step-by-step plan that will keep your body's natural healing system in peak working order. It covers diet, exercise, lifestyle, stress, and environment—all aspects of daily living that affect health and well-being. This revised edition includes the most up-to-date findings on such vital subjects as cholesterol, antioxidants, trans fats, toxic residues in the food supply, soy products, and vitamins and supplements, together with a greatly enhanced source list of information and supplies. Inside you will learn how to

- develop eating habits for greater health and well-being
- start an effective exercise program based on walking and stretching
- work with breathing patterns to decrease stress and improve energy
- solve sleeping problems
- eliminate toxins from your diet
- minimize environmental hazards in your daily life

Plus—programs tailored to the specific needs of pregnant women, senior citizens, overweight people, and those at risk for cancer. “If there is a heaven, sixtysomething Weil is headed there, but if he practices what he preaches, probably not for some time yet.” – London Times “Dr. Andrew Weil is an extraordinary phenomenon.” –The Washington Post

The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential—now in paperback. Wim Hof has a message for each of us: “You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in freezing temperatures.” With his New York Times–bestselling debut book, *The Wim Hof Method*, this trailblazer of human potential shared a method that anyone can use—not just extreme athletes or spiritual masters—to supercharge one's capacity for strength, health, and happiness. Now, this popular book is available in paperback. Wim Hof has become a modern legend for his astounding achievements, such as withstanding extreme temperatures, breaking world records, and running barefoot marathons over deserts and ice fields. In his gripping and passionate voice, Hof shares the story of how he developed his method, along with testimonials and new insights from university research studies on the method's amazing results. With guidance suited for any reader—young or old, sick or healthy—you'll learn how to harness three key elements—Cold, Breathing, and Mindset—to take charge of your own mind and metabolism. The most important result of Hof's method goes beyond improved health or performance—it is a path for reconnecting with your spiritual nature. “With these practices, you awaken to your inner source of power and fulfillment,” he says. “You find you can control your destiny.”

Hailed by Tony Robbins as the “definitive breathwork handbook,” *Just Breathe* will teach you how to harness your breath to

reduce stress, increase productivity, balance your health, and find the path to spiritual awakening. Big meeting jitters? Anxiety over a test or taxes? Hard time focusing? What if you could control your outcomes and change results simply by regulating your breath? In this simple and revolutionary guide, world-renowned pioneer of breathwork Dan Brulé shares the Breath Mastery technique that has helped people in more than fifty countries reduce anxiety, improve their health, and tap infinite stores of energy. Just Breathe reveals the truth that elite athletes, champion martial artists, Navy SEAL warriors, first responders, and spiritual yogis have always known—when you regulate your breathing, you can moderate your state of well-being. So if you want to clear and calm your mind and spark peak performance, the secret is just a breath away. Breathwork gives you the tools to achieve benefits in a wide range of issues including: managing acute/chronic pain; helping with insomnia, weight loss, attention deficit, anxiety, depression, trauma, and grief; improving intuition, creativity, mindfulness, self-esteem, and leadership; and much more. Recommended “for those who wish to destress naturally” (Library Journal), Just Breathe will help you utilize your breath to benefit your body, mind, and spirit.

The evidences from historical record, legends and myths are shouting that it wasn't aliens, that the advanced technologies are echoes of a human society we do not have a written record of. We have the remnants of their buildings, genes, and the sciences that point to a highly advanced human race that survived multiple catastrophes and to this day may live among us. Human bones have been found back millions of years along side the homo erectus and other "primitive" humans. Many revelations of high technology have been being uncovered by independent researchers all over the earth. Anomalies in the historical record, out of place, out of time artifacts are labeled as mysteries or one offs yet show signs of advanced sciences and intelligence. Ancient maps showing lands that were not supposed to have been known, let alone covered deep in ice for thousands of years before human civilization. The case is evaporating of the timeline given for modern man being here for only 3 or 400,000 years. Taking the reader through many fast advances recently in technology and looking at archaeological evidences we build a case for that lost society and technologies. Looking further at rediscoveries of the world of movement, fitness, discoveries in eating and super human abilities and finds in our very genes that without a doubt show us that we have highly advanced ancient relatives.

Amazingly illustrated with over 200 photos, this book truly takes you on a journey.

Break the cycle of pain with the Miracle Ball Method. "After taking just one of Elaine's ball therapy classes, I was asymptomatic for the first time in 15 years. I now recommend it to all of my patients."— Fred Jones, D.C., Sunshine Chiropractic and Wellness, Merrick, NY

The Miracle Ball Method is a revolutionary program designed to help relieve your pain, reshape your body, and reduce your stress. Using controlled breathing, two squishy balls, and simple exercises of rolling and rotating, you can learn to heal everything from a bad knee to a stressed-out back. Made out of nontoxic PVC vinyl, the balls are sized to tuck under strategic parts of your body. Like magnets, they actually draw out pain and tension. Includes: Two durable Miracle Balls 176-page illustrated book with 30 exercises Features routines for pain relief, reduced anxiety, and better sleep

In this explosive investigation into the limits of endurance, journalist and New York Times bestselling author Scott Carney discovers how humans can wedge control over automatic physiological responses into the breaking point between stress and biology. We can reclaim our evolutionary destiny.

A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR "A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we've all been doing it wrong

for a long, long time.” —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you’re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren’t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

A simple yet revolutionary approach to improving your body’s oxygen use, increasing your health, weight loss, and sports performance—whether you’re a recovering couch potato or an Ironman triathlon champion. With a foreword by New York Times bestselling author Dr. Joseph Mercola. Achieve more with less effort: The secret to weight loss, fitness, and wellness lies in the most basic and most overlooked function of your body—how you breathe. One of the biggest obstacles to better health and fitness is a rarely identified problem: chronic over-breathing. We often take many more breaths than we need—without realizing it—contributing to poor health and fitness, including a host of disorders, from anxiety and asthma to insomnia and heart problems. In *The Oxygen Advantage*, the man who has trained over 5,000 people—including Olympic and professional athletes—in reduced breathing exercises now shares his scientifically validated techniques to help you breathe more efficiently. Patrick McKeown teaches you the fundamental relationship between oxygen and the body, then gets you started with a Body Oxygen Level Test (BOLT) to determine how efficiently your body uses oxygen. He then shows you how to increase your BOLT score by using light breathing exercises and learning how to simulate high altitude training, a technique used by Navy SEALs and professional athletes to help increase endurance, weight loss, and vital red blood cells to dramatically improve cardio-fitness. Following his program, even the most out-of-shape person (including those with chronic respiratory conditions such as asthma) can climb stairs, run for a bus, or play soccer without gasping for air, and everyone can achieve: Easy weight loss and weight maintenance Improved sleep and energy Increased concentration Reduced breathlessness during exercise Heightened athletic performance Improved cardiovascular health Elimination of asthmatic symptoms, and more. With *The Oxygen Advantage*, you can look better, feel better, and do more—it’s as easy as breathing.

Celebrity manual therapist and movement coach Aaron Alexander shows readers how posture and body alignment are powerful

tools for building strength, achieving peak performance, reducing pain, and approaching the world with a new sense of confidence. Good posture is about more than standing up straight: It can change your mood, alleviate pain, rid your body of stressful tension, and may be the difference between getting that raise you've wanted and attracting your ideal mate, or not. But in order to reap all those benefits, the body must be properly integrated. Celebrity movement coach and manual therapist Aaron Alexander offers a revolutionary approach to body alignment to build strength, reduce pain, and put you on a direct path to peak performance that is both fun and accessible. The Align Method centers on five daily optimizations that can be easily integrated into any workout, mindfulness practice, or daily life activity: Floor Sitting Hanging Hip-Hinging Walking Nose Breathing A truly aligned life isn't limited to sweating in a gym or stretching in a yoga studio, and Alexander provides the fundamental principles to optimize your physical and mental process in any situation. Blending Eastern philosophy with Western mechanics, The Align Method brilliantly outlines the necessary tools to leverage the power of your own senses and body language to feel more flexible and confident, and details exactly how to reshape your environment for enhanced creativity and longevity. This is the quintessential user's manual to feeling better than you ever thought possible, and looking great while you're at it!

New York Times bestseller and beloved guide, revised and updated with up-to-the minute scientific and spiritual insight, teaches readers how to listen to their bodies and assess all areas of their lives--relational, psychological, creative, environmental,

professional--to understand what they need for health. "What a pleasure it is to see the next generation of physicians waking up to what I call real medicine--the kind that acknowledges our true power to heal and be well." - Christiane Northrup, M.D., OB/GYN physician and author of the New York Times bestsellers: *Women's Bodies*, *Women's Wisdom* and *The Wisdom of Menopause* When *Mind Over Medicine* was first published, it broke new ground in the fertile region where science and spirituality intersect. Through the process of restoring her own health, Dr. Lissa Rankin discovered that the conventional health care she had been taught to practice was missing something crucial: a recognition of the body's innate ability to self-repair and an appreciation for how we can control these self-healing mechanisms with the power of our own consciousness. To better understand this phenomenon, she explored peer-reviewed medical literature and found evidence that the medical establishment had been proving that the body can heal itself for over 50 years. She shared her findings and laid out a practical plan for readers to heal themselves in this profoundly wise book--a New York Times bestseller and now a classic guide for people who are on a healing journey from illness, injury, or trauma. In the years since then, Dr. Rankin has deepened her exploration of the world's healing tradition and her understanding of the healing power we hold within ourselves--if only we can tap into it. This revised edition of *Mind Over Medicine* reflects her latest research, evolving wisdom, and work with clients and students in her healing community, as well as with doctors and other healers in her Whole Health Medicine Institute. Inside, readers will discover:

- A thorough update of Dr. Rankin's signature *Six Steps to Healing Yourself*
- New insight into how unresolved trauma can stand in the way of healing from chronic and life-threatening illnesses-and powerful tools we can use to heal it
- How to tune in to our Inner Pilot Light for intuitive guidance in our healing

And much more "The healing that is possible may be right here," Dr. Rankin writes, "closer than close, underneath all your efforting and striving, available if you are ready to humble yourself before this possibility and receive what awaits you." Buy now to get the insights from Wim Hof and Elissa Epel's *The Wim Hof Method*. Sample Insights: 1) Wim Hof's life started dangerously, from its first moments. He was a twin, but the doctors did not know his mother was carrying two children, so during childbirth, they only delivered his brother and left him in his mother's womb. 2) His mother knew there was something wrong, but the doctors dismissed her concerns. Finally, after her incessant protests, they discovered another baby. He was purple when they took him out, breathless, and cold. But he believes his mother's love brought him to life.

Reading is very fundamental. This book brings all that to life. If you enjoy reading this book is a quick read & just learn things that you wouldn't understand. It sums up the Wim Hoff Method perfectly! This seems to be an interesting book, in that you may never know your bodily limits until actually pushed. It would be quite interesting to use some of his methods just to see just how far one's limits are or if any actually hold true.

In this book you will learn the following: - The story behind The Iceman (Wim Hof) - How someone else (Justin Rosales) trained to become like The Iceman - Exclusive methods and exercises to teach YOU how to become like The Iceman using a step-by-step guide! - How to push past your perceived limits! For many generations, we have been taught to fear the cold: "Don't forget your jacket! You don't want hypothermia, do you?" "Put your gloves on before you get frostbite!" Of course, these are consequences of extreme cold exposure, but with the proper understanding, anyone can learn to use the cold a.

“ We live in the outer world but prompted from our own within. Unless we master our inner lives, the outer scheme of life, however efficient and perfect, cannot but bring sorrow and unhappiness, “ says the author.

We are limited only by the depth of our imagination and the strength of our conviction.” If you’re ready to explore and exceed the limits of your own potential, The Wim Hof Method is waiting for you.

A comprehensive, plant-based lifestyle program to help women balance their hormones, increase energy, and reduce PMS symptoms. After struggling for years with acne, oily skin and hair, debilitating cramps, mood swings, brain fog, intense cravings, insomnia, bloating, and weight gain before her period, author and certified hormone specialist Shannon Leparski developed the Happy Hormone Method through extensive research. Her life changed for the better and Shannon made it her mission to combat hormone imbalance and promote women's health.

TheHappy Hormone Guide includes comprehensive, phase-specific (menstrual, follicular, ovulatory, and luteal) guidance including:

- Changes in fertility, libido, and basal body temperature
- Beneficial foods, micronutrients, and supplements
- Phase-specific recipes to support hormone balance (can also reduce symptoms associated with endometriosis)
- Common changes to mood and energy levels
- Exercise tips suitable to different times of the month
- Facial recipes, hair masks, and essential oil blends

Modern culture expects women to keep up with the same demanding daily routine, but women's cycles are anything but consistent. The Happy Hormone Guide explores the ebbs and flows of a woman's monthly cycle and provides a holistic view of the female hormone and endocrine system so that you can take control of your cycle and improve your quality of life.
