Feeling stuck? Veteran journalist and cancer survivor Lu Ann Cahn was feeling angry and frustrated. The economy was tanking. Her job was changing. In a word, she felt “stuck.” Something had to change. Her daughter helped convince her to start a “Year of Firsts.” For the next 365 days, Cahn made a point of doing something she had never done before, every day. Before she knew it, her whole perspective on life had changed. In this inspiring book, Lu Ann recounts how a new “first” everyday brought excitement and wonder back into her world. And more than that, she helps readers see how they can do it too. • Participate in a Polar Bear Plunge • Speak to a complete stranger on the street • Zip-line across a crocodile-infested Mexican lake • Spend a day in a wheelchair • Learn to Hula Hoop

An updated and expanded Second Edition of the popular guide to social media for the business community *Marketers must look to the Web for new ways of finding customers and communicating with them, rather than at them.* From Facebook and YouTube to blogs and Twitter-ing, social media on the Internet is the most promising new way to reach customers. *Marketing to the Social Web, Second Edition* helps marketers and their companies understand how to engage customers, build customer communities, and maximize profits in a time of marketing confusion. Author and social media guru Larry Weber describes newly available tools and platforms, and shows you how to apply them to see immediate results and growth. Rather than broadcast messages to audiences, savvy marketers should encourage participation in social networks to which people want to belong, where dialogue with customers, and between customers, can flourish. In Networking sites like MySpace, Facebook, and even Flickr are the perfect forums for this dialog; this book shows you how to tap into this new media. In addition to the tools and tactics that made *Marketing to the Social Web* a critical hit among marketers, this second edition includes three entirely new chapters that cover recent changes in the field. These new chapters describe how Facebook will monetize its business and one day surpass Google; how companies can measure the influence and effectiveness of their social media campaigns; and how marketing to mobile social media will grow into an effective practice in the near future. *Marketing must reach out into new forms, media, and models.* *Marketing to the Social Web, Second Edition* presents an exceptional opportunity to use these new tools and models to reach new markets, even in today's fragmented media environment. Larry Weber has spent the last three decades building global communications companies, including Weber Shandwick Worldwide and the W2 Group. He is also the founder and Chairman of the Massachusetts Innovation and Technology Exchange, the nation's largest interactive advocate association.

Here's a book that describes Web 2.0 tools in-depth, models Web 2.0 tools through classroom examples, explains how to get started with each tool, presents practical unit plans illustrating the use of Web 2.0 in the K-12 content-area curricula, and identifies and describes what tools are most useful to educators for networking, productivity and insight into the technologies. Part 1 of each chapter answers many questions you will have about Web 2.0 and social networking tools: What is the tool? Why use it with students? How are K-12 classrooms using the tool? Can you provide me with specific examples for my science, history, or language arts curriculum? Part 2 describes specific tools and the steps to get started. Part 3 contains a detailed sample unit plan, teacher exercises and a summary following. Screen shots of websites are used to make the advice straightforward and easy to understand. You'll find an entire chapter on special instruction for ESL students with objectives, tools, and K-12 classroom examples. To help you implement Web 2.0 tools beyond the curriculum, there's even a chapter devoted to technology tools specifically designed for teachers and librarians to use for personal productivity, communication, and collaboration. The conclusion offers ideas for integrating Web 2.0 in art, music, and health. Exciting examples of the book's contents include: Collaborating and Communicating with Blogs Creating Multidisciplinary Wikis Google Tools: Enhancing Instruction in the Science Curriculum K-12 Classrooms Join the Social Networking Revolution Using VoiceThread and Video to Improve Language Development Creating Community In addition to the great content you'll find in the book, *Using Web 2.0 and Social Networking Tools in the K-12 Classroom* features a companion Web site that provides the most current curriculum examples from pioneering educators around the world, as well as up-to-date exercises and lessons in subject areas and grade levels.

Engage digital learners with the power of Google! This guide for K-12 educators explores the wide array of Google tools and shows how to use them in the classroom to foster digital learning. Appropriate for experienced Googlers as well as novices, the text is organized into parts according to the 21st century skills each tool promotes. Written in an intentionally casual, engaging style, each chapter: Explains the specific benefits of using each tool for teaching and learning Provides step by step tutorials with screen shots that illustrate the processes Contains detailed examples of classroom and teacher productivity projects Included are specific classroom activities that teachers can use immediately to engage students and enhance learning.

“Essential for the aspiring filmmaker,” this is an inspiring, tell-all look at the independent film business from one of the industry's most passionate supporters (Todd Solondz, director of *Welcome to the Dollhouse*) *Hope for Film* captures the rebellious punk spirit of the indie film boom in 1990s New York City and its collapse two decades later to its technology-fueled regeneration and

continuing streaming-based evolution. Ted Hope, whose films have garnered 12 Oscar nominations, draws from his own personal experiences working on the early films of Ang Lee, Eddie Burns, Alan Ball, Todd Field, Hal Hartley, Michel Gondry, Nicole Holofcener, and Todd Solondz, as well as his tenures at the San Francisco Film Society, Fandor, and Amazon Studios, taking readers through the decision-making process that brought him the occasional failure as well as much success. Whether navigating negotiations with studio executives over final cuts or clashing with high-powered CAA agents over their clients, Hope offers behind-the-scenes stories from the wild and often heated world of "specialized" cinema--where art and commerce collide. As mediator between these two opposing interests, Hope offers his unique perspective on how to make movies while keeping your integrity intact and how to create a sustainable business enterprise out of that art while staying true to yourself. Against a backdrop of seismic changes in the independent film industry, from corporate co-option to the rise of social media and the streaming giants, Hope for Film provides not only an entertaining and intimate ride through the business of arthouse movies over the last decades, but also hope for its future. "There is nobody in the independent film world quite like Ted Hope. His wisdom and heart shine through every page." —Ang Lee, Academy Award winning director of Brokeback Mountain

Online booksellers are rapidly becoming online publishers. Sell your short fiction or nonfiction to the newest markets. Anyone who publishes your compiled short stories, novels, or nonfiction is looking for more opportunities to market your work. If you have published your stories or nonfiction with a mainstream or print-on-demand publisher, that firm cooperates with online booksellers. They probably want to leverage serial rights opportunities with your short stories, articles, or nonfiction excerpts from your books. After publication, you need to drive people to online booksellers' Web sites and your own to create visibility. The revolution is in virtual book tours and online marketing with booksellers. Another hidden market is short story publishing rights' auctions online to create visibility. You sell your writing as you'd sell a product at one of the online auctions. Long before finding any publisher or after the "face-out shelf life" of your book is over, sell or pre-sell your creations online. Offer short stories or articles to the public for a small fee to download. The music and movie industry do it. So can you. Online booksellers already are famous for a targeted community of readers that buy online. That's only one hint of hidden markets for authors that want to be well-paid for short stories or brief nonfiction. Here's how to write, customize, and market precisely what these merchants want. Here's how to pose the least financial risk to them.

Do you want to learn how you can make a potential of thousands a month blogging? Then keep on reading! I've been blogging for several years now. I started out blogging for pleasure somewhere around 2008 and have blogged ever since. In 2009, I opened my own business and learned I could use my blog to bring customers to my company. I began diving into the mechanics of blogging and have been expanding my knowledge of SEO, advertising, and more since then. Soon, I also began to learn about affiliate commission, paid surveys, sponsorship, and indirect monetization. It wasn't long before I was making so much money through my blog that I didn't need to work my business anymore, though I chose to keep it open. Soon I had freelance agreements, speaking commitments, membership sites and paid networks, and more. I began running courses, workshops, and classes. I started putting out books and eBooks. Now I have another avenue of helping others. I'm putting out my first book on how to make money blogging-this book. I hope you enjoy it! "How to Start a Blog: Learn the Best Techniques to Start Blogging Now. Turn Your Fans into Your Passive Income" covers: - The 11 things that you absolutely must know when starting a blog; - The deadly truth about profiting with blogs and how to overcome it; - How to truly measure a blogs success; - The secret to niche blogging; - The best-kept secret to setting up a successful blog; - Why design is important and how to design your blog to attract faithful readers and profit; - What makes a great blog and stellar tips for writing it; - A rundown and explanation of the 20 types of blogs that you won't get elsewhere; - How to successfully market and promote your blog to bring in substantial income; - The secrets to Search Engine Optimization; - How to use social media in conjunction with your blog to earn even more money; - How to grow your blog; - The 28 top secrets of successful blogs; - And more! Even if you're like me and are wondering how to start a blog and even if you know nothing about blogging, this book can help you! I start at the very basics and go all the way through to the nitty gritty of SEO and monetization. If I can do it, so can you! Add How to Start a Blog to your cart today!

NEW YORK TIMES BESTSELLER • The instant classic about why some ideas thrive, why others die, and how to improve your idea's chances—essential reading in the “fake news” era. Mark Twain once observed, “A lie can get halfway around the world before the truth can even get its boots on.” His observation rings true: Urban legends, conspiracy theories, and bogus news stories circulate effortlessly. Meanwhile, people with important ideas—entrepreneurs, teachers, politicians, and journalists—struggle to make them “stick.” In *Made to Stick*, Chip and Dan Heath reveal the anatomy of ideas that stick and explain ways to make ideas stickier, such as applying the human scale principle, using the Velcro Theory of Memory, and creating curiosity gaps. Along the way, we discover that sticky messages of all kinds—from the infamous “kidney theft ring” hoax to a coach's lessons on sportsmanship to a vision for a new product at Sony—draw their power from the same six traits. *Made to Stick* will transform the way you communicate. It's a fast-paced tour of success stories (and failures): the Nobel Prize-winning scientist who drank a glass of bacteria to prove a point about stomach ulcers; the charities who make use of the Mother Teresa Effect; the elementary-school teacher whose simulation actually prevented racial prejudice. Provocative, eye-opening, and often surprisingly funny, *Made to Stick* shows us the vital principles of winning ideas—and tells us how we can apply these rules to making our own messages stick. **BONUS:** This edition contains an excerpt from Chip Heath and Dan Heath's *Switch*.

"Whether you have been blogging for years or just a few weeks, *How to Blog For Profit (Without Selling Your Soul)* offers solid advice and practical action plans for creating an authentic, successful, and profitable blog. With wit, wisdom, and the insight of someone who's been

there, Ruth Soukup shares how she grew her own blog, Living Well Spending Less, to over one million monthly visitors, earns a full time income, and still is able to write about the things she truly cares about."--Page 4 of cover.

In the following pages that make up the 10 Chapters of Your Show Will Go Live in 5 Seconds. I will share with you my experiences and insights in creating and hosting an Internet show that informs, empowers and enriches your audience, your guests and yes, even yourself. The author of the bestselling You Are Not So Smart shares more discoveries about self-delusion and irrational thinking, and gives readers a fighting chance at outsmarting their not-so-smart brains David McRaney's first book, You Are Not So Smart, evolved from his wildly popular blog of the same name. A mix of popular psychology and trivia, McRaney's insights have struck a chord with thousands, and his blog--and now podcasts and videos--have become an Internet phenomenon. Like You Are Not So Smart, You Are Now Less Dumb is grounded in the idea that we all believe ourselves to be objective observers of reality--except we're not. But that's okay, because our delusions keep us sane. Expanding on this premise, McRaney provides eye-opening analyses of fifteen more ways we fool ourselves every day, including: The Misattribution of Arousal (Environmental factors have a greater affect on our emotional arousal than the person right in front of us) Sunk Cost Fallacy (We will engage in something we don't enjoy just to make the time or money already invested "worth it") Deindividuation (Despite our best intentions, we practically disappear when subsumed by a mob mentality) McRaney also reveals the true price of happiness, why Benjamin Franklin was such a badass, and how to avoid falling for our own lies. This smart and highly entertaining book will be wowing readers for years to come.

Steve Pacinelli CMO BombBomb Capture and close more Internet leads with a new sales script and powerful marketing templates The Conversion Code provides a step-by-step blueprint for increasing sales in the modern, Internet-driven era. Today's consumers are savvy, and they have more options than ever before. Capturing their attention and turning it into revenue requires a whole new approach to marketing and sales. This book provides clear guidance toward conquering the new paradigm shift towards online lead generation and inside sales. You'll learn how to capture those invaluable Internet leads, convert them into appointments, and close more deals. Regardless of product or industry, this proven process will increase both the quantity and quality of leads and put your sales figures on the rise. Traditional sales and marketing advice is becoming less and less relevant as today's consumers are spending much more time online, and salespeople are calling, emailing, and texting leads instead of meeting them in person. This book shows you where to find them, how to engage them, and how to position your company as the ideal solution to their needs. Engage with consumers more effectively online Leverage the strengths of social media, apps, and blogs to capture more leads for less money Convert more Internet leads into real-world prospects and sales appointments Make connections on every call and learn the exact words that close more sales The business world is moving away from "belly-to-belly" interactions and traditional advertising. Companies are forced to engage with prospective customers first online—the vast majority through social media, mobile apps, blogs, and live chat—before ever meeting in person. Yesterday's marketing advice no longer applies to today's tech savvy, mobile-first, social media-addicted consumer, and the new sales environment demands that you meet consumers where they are and close them, quickly. The Conversion Code gives you an actionable blueprint for capturing Internet leads and turning them into customers.
